**POLICY AND PROCEDURES FOR THE PPCIG VOL II, OVERSEAS**  
**REVIEW DATE: 17 DEC 01**

1. **PURPOSE.** This guide implements the Defense Transportation Regulation, DOD 4500.9-R, Part IV. This guide assists the Personal Property Shipping Office (PPSO) in consigning shipments and is arranged in two volumes, Volume I, CONUS Activities, and Volume II, Overseas Activities. This volume contains consignment instructions for all overseas activities where Department of Defense (DOD) personnel are assigned to include DOD personnel at our American Embassies.

2. **RESPONSIBILITY.** It is the responsibility of each activity, which includes the American Embassy General Services Officer (GSO), to ensure their record content and corresponding appendices are current, clear, and concise to avoid misconsigned shipments. When a misconsignment occurs it results in additional costs to DOD and has an adverse impact on service members and their dependents. It is the activity's responsibility to review the country General Instruction records applicable to their area of responsibility (AOR) and forward changes to the responsible SDDC office (see para 4 below). Whenever a change is required, request the entire page be reviewed prior to submission to permit a more comprehensive update to be transmitted. It is recommended a review of the page be conducted semi-annually to promote better service to the military members and potentially improve better utilization of personnel resources.

3. **CONTENTS.**

a. **FORMAT.** Volume II, Overseas, is arranged alphabetically. Each country is assigned a separate chapter and has a minimum of two records.

(1) The **Country General Instruction** record identifies general shipment information applicable to all military services such as customs requirements, pets, privately-owned firearms (POFs), privately-owned vehicles (POVs), etc. This page is mandatory for each country and follows the standard format identified in para 6 below. If additional information under a particular paragraph would assist the traveler, please forward to the responsible SDDC office for inclusion. Paragraph 13, Other, is designed for information not covered by the previous 12 topics.

(2) **Activity** pages include a record number, general administrative information such as GBLOC, DODAAC, address, etc. consignment instructions for said activity with regard to Direct Procurement Method (DPM) household goods (HHG) and baggage, International Through Government Bill of Lading (ITGBL) HHG and baggage, high value personal property, and parcel post personal property, and special instructions. The special instructions paragraph may contain unique notes limited to the activity and is not included in the country's General Instructions page. Standard format is identified in para 7 below.

(3) Refer PPCIG Volume I, CONUS, for the US states.

b. **MAINTENANCE.**

(1) **Addition or deactivation** of any countries involves both the General Instruction page and the activity page. Establishment of any new activity pages must be coordinated through the sponsoring Services Headquarters (see para 5) and submitted to the responsible SDDC Area Command (see para 4e) in accordance with the formats identified in paras 6 and 7 below.

(2) **Updates** to activity pages in accordance with para 2 above should be reported by the responsible installation immediately as they occur to HQSDDC, ATTN: SDPP-IC, 200 Stovall Street, Bldg Hoffman II, Alexandria, VA 22314. A semi-annual review is recommended, forwarding updates when required. Updates to each countries' General Instructions page should be submitted to the responsible SDDC Area Command (see para 4e) for coordination and dissemination by HQSDDC (SDPP-IC).

c. **MISCONSIGNED SHIPMENTS.**

(1) **Destination activity** is to advise the origin PPSO/GSO by message when misconsigned shipments are received. Provide sufficient information in the message so the origin PPSO/GSO can investigate the reason for the misconsignment. Provide information copy of the message to the appropriate SDDC Area Command (see paras 4e and 4f) and HQSDDC (SDPP-IC).

(2) **Origin PPSO/GSO** is to review destination installation consignment guide page to determine whether consignment instructions may have contributed to the misconsignment. If consignment instructions are not clear, advise the destination installation. Identify specifically the part of the consignment instructions that are unclear, and if appropriate, recommend changes in wording. Provide information copy of the messages to the appropriate SDDC Area Command and HQSDDC (SDPP-IC).

4. **CORRECTIONS.**

a. Message changes involving activity records will be addressed to either appropriate SDDC Area Command, or Headquarters. The appropriate SDDC Area Command will review and forward the changes to HQSDDC (SDPP-IC). However, message changes involving the country General Instruction records should be addressed to the appropriate Area Command only. If no message capability, send by letter, fax, or Email. Request specific and appropriate word changes be submitted to update to page, i.e.,

(1) Effective 1 January 2001, all members traveling through Canada will have to meet requirements of the Canadian Firearms ACT. This includes those members planning to travel to/from Alaska via Alaska Marine Ferry System. Canadian gun laws are quite strict and violators may have firearms confiscated or find themselves facing five-year terms of imprisonment and \$5000.00 (Canadian) fines.

(2) The new law recognizes three classes of firearms. Prohibited firearms, restricted firearms, and non-restricted firearms. Prohibited firearms are full automatics, converted automatics, handguns with a barrel length of 105mm (approximately four inches) or less, and others. No prohibited firearms or replicas of prohibited firearms may be taken into Canada.

b. All TMO/ITO Officers are to ensure that, when booking HHG shipments, containing firearms, with appropriate commercial carriers, that commercial carriers know that line hauling firearms through Canada, may require specific permits. If proper permits are not obtained, firearms could be confiscated; carriers fined or subjected to other strict laws of Canada.

c. Complete information on Canadian gun laws for residents and visitors, as well as fee lists and all required forms can be found on the Canadian Firearms Center Website at [www.cfc.ccaf.gc.ca/Default-en.html](http://www.cfc.ccaf.gc.ca/Default-en.html). You cannot get the authorization at your point of entry.

e. **RIFLES/SHOTGUNS:** Non-restricted firearms include most ordinary rifles and shotguns. To bring non-restricted firearms into Canada, you must be 18-years of age or older, declare your guns at your first point of entry, complete a Non-resident Firearms Declaration form in triplicate, have it confirmed by a customs officer, and pay a fee of \$50 (approximately \$33 US).

d. **CONTAINER/CRATING REQUIREMENTS:** No restrictions identified.

## 2. CUSTOMS CLEARANCE PROCEDURES, QUARANTINE REQUIREMENTS, AND RESTRICTIONS:

a. To prevent any delay in customs/quarantine clearance, mandatory items requiring inspection should be placed in the number one container. Inventory should be attached to the number one container for both HHG and UB. A copy of the inventory should be mailed to the destination TMO and the member should hand carry a copy of the inventory to the TMO to ensure one is received. Without an inventory, shipment may be delayed pending customs and quarantine inspection.

b. No customs/quarantine clearance capabilities exist at Alice Springs. Code T shipments are cleared at RAAF Richmond (APOD); all other shipments clear at the WPOD or commercial APOD. RDD should take into consideration at least two weeks for clearance processing at all locations.

c. **PACKING CONTAINERS:** Outer wood containers for HHG and UB must be in good and sound condition. Wood crates, cases, pallets, or dunnage must be free of bark and treated by a method approved by the Australian Quarantine and Inspection Service (AQIS). Containers, including the underside of skids used for packing and shipping or mailing goods to Australia must be clean and free from soil, dirt, or plant/animal contaminants such as grain, flour, meat, bone, hide, and skins. Boxes used to pack fresh fruit, vegetables, meat, poultry, or poultry products are prohibited. Violations will result in refusal by AQIS to allow the containers into the country.

d. **PACKING MATERIALS:** Straw packing, rice hulls, cereal straw, and similar plant materials are prohibited and must not be used for packing. Shredded paper, wood-wool, or synthetic packing materials are acceptable as long as they are not contaminated with material that could be a quarantine risk. Also acceptable are sawdust, strawboard, granulated cork, peat, perlite, and vermiculite.

e. **QUARANTINE RESTRICTIONS:** To prevent the outbreak of diseases and infestation harmful to agriculture, Australia prohibits the importation of many items of plant or animal. Damage or loss resulting from quarantine treatment or seizure, may not be considered shipping damage or loss for claims purposes. Members may be liable for the cost of treatment, which is not reimbursable.

(1) Items subject to mandatory fumigation or heat treatment which may damage or destroy the item include: wood furniture containing "bore holes" or any other signs of pest infestations, goods made from bamboo or cane (in whole or part); dunnage (unless re-exported); and wooden ware from Asia and Southeast Asia. Antique furniture is subject to fumigation whether signs of infestation exist or not. Only wooden antiques known to be over 100 years old should be identified as "Antique" on the inventory.

(2) Items subject to mandatory heat treatment, which may damage or destroy them include: articles made from cereal straw; dried flower arrangements (including grass); pinecones; and sphagnum moss. This includes decorations made of plant material whether living or dead, or parts of plant material, such as Christmas wreaths and pinecone decorations.

(3) Any material of plant origin likely to carry plant disease or pest is subject to plant quarantine, whether listed or not. Prohibited food or plant origin and other plant material include: plants, vegetables, and fruits (including citrus peel and some dried matter); date, currants, grains, cereals, nuts, peas, and beans (including coffee beans; peanuts; and dried beans); seeds (including popcorn, and herbs or spices containing seeds); rice (unpolished), garlic, and yeast. No poultry products or meat products (except some canned meats - check with your sponsor) will be allowed into Australia. No pig meat (even canned) or product which may contain pig meat, may be shipped into the country. If these items are found in a shipment, AQIS will confiscate and destroy them to prevent the spread of diseases such as rabies and Newcastle disease.

f. **CLEANING REQUIREMENTS:**

(1) Outside recreational equipment and gardening implements must be free of dirt, soil, and grass clippings. These items should be packed in the number one container for inspection. h. Because of the extensive restrictions, it is better not to ship food into the country. If permitted to be shipped, food, plant, or animal material should be placed in the number one container for inspection. This is the member's responsibility. Most vehicles require a replacement/realignment of headlights and installation of amber turn signals. Rewiring of turn signals is typical and can be completed locally. Members can choose to store their vehicle at government expense based on the extensive modification requirement (other than normal maintenance servicing) set forth in the JFTR Para U5466 A.1.b. (CH)

(6) Right hand drive vehicles from countries other than Australia are not recommended. These vehicles do not meet Australian Design requirements, are not fitted with an Australian Compliance Plate and are not authorized to convert to Australian specifications. It is not recommended to import this type of vehicle into Australia as it must be exported, sold to a SOFA member or destroyed at the completion of your tour. A right hand drive cannot be imported to CONUS, unless it is converted to meet U.S. safety and emission standards, which may cause major expenses to the owner.

(7) Due to lengthy transit times and registration requirements, personnel attending the Australian Defense Force College in Weston Creek ACT Australia for a one-year tour should contact their destination transportation office for additional information.

(8) Members who enter Australia under diplomatic status are not entitled to import a POV into Australia (unless the POV meets all Australian standards to include right hand drive). Personnel in diplomatic status are authorized to purchase a vehicle, sales tax and duty free. For DOD civilians not under SOFA or diplomatic status, please contact the destination TMO for additional information. An imported vehicle must comply with state and

territory registration and requirements. All imported vehicles will have a security bond up to 95 percent of the purchased amount of the vehicle. a 3 percent Stamp Duty is payable in some states upon registration.

Automobiles manufactured after 1996 should meet the requirements, however, it is highly recommended to check your individual vehicle. If your POV contains any of the above refrigerant gases, you must modify your air conditioning system to operate on a HCFC based refrigerant. Failure to comply will result in Australian Customs Service seizing your POV. Hand-carry all modification documentation.

(13) Personnel assigned to the state of Victoria (Melbourne/Puckapunyal) must ensure the POV has a current CONUS registration and license plate(s) with their vehicle. Personnel will continue to use their current CONUS registration for the duration of their tour. No Australian registration of license plate will be issued from the Australian government. (CH)

For personnel arriving from locations other than CONUS that do not have a current CONUS registration and license plate(s), the state of Victoria will issue an "Unregistered Permit". This will entitle you to operate your POV, however, your POV will not be issued an Australian license plate(s). It is highly recommended that you obtain a CONUS registration and license plate(s) prior to arriving in Australia. (2) Vehicles must be in good condition prior to shipment.

(3) Alterations to the normal specifications of vehicle are not recommended and must be brought to the attention of the destination TMO prior to shipment. Certain alterations (changes to the chassis, oversize tires, small steering wheels etc.) will prevent registration for normal road use.

Recommend mud flaps on the front as well to protect the POV from chips and rust. All trucks and non-passenger type vehicles require mirrors to be placed on both the driver and passenger side. Portuguese law requires license plates on both the front and rear of vehicles. License plate holders are often difficult to find.

- c. **OTHER (i.e. COMPATIBILITY, ETC):** No restrictions identified.

5. **FURNITURE:**

a. **FOR AMERICAN EMBASSY NASSAU:** Housing generally lacks storage space and is commonly furnished by the landlord, restricting space for personal furniture/furnishings. Members of the Marine Security Guard(MSG) Detachment at the US Embassy are provided fully-furnished accommodations. Contact the Detachment Commander at GSO/Customs and Shipping, US Embassy Nassau, PO Box 9009, Miami, FL 33159, commercial (242) 322-1181, fax (242) 328-7838 for more information. All members should contact their parent office in Nassau well in advance of arrival for additional instructions/details.

b. **FOR NAVUNSEAWARCEN DET AUTEC ANDROS ISLAND:** Detachment housing is extremely limited and when available consists of Bachelor Enlisted Quarters(BEQ), Bachelor Officer Quarters(BOQ), and furnished family trailers. Personnel must confirm availability of housing prior to arrival. Trailers are the only quarters available on the detachment for family living accompanied Navy personnel with children. Most of the trailers are single wide, but there are a few doublewide trailers available for larger families. Each trailer comes equipped with washer, dryer, refrigerator, stove, dishwasher, and central air conditioning. Adequate furniture is provided including, in most cases, full and twin size beds, bunk beds, and queen size beds can usually be provided upon request (Depending upon availability).

6. **PETS/QUARANTINE:**

a. **FOR AMERICAN EMBASSY NASSAU:** Importation of pets requires special permit. Contact GSO/Customs and Shipping, US Embassy, Nassau, PO Box 9009, Miami, FL 33159 by fax/email for instructions no less than 45 days prior to estimated time of arrival(ETA) in Nassau.

b. **FOR NAVUNSEAWARCEN DET AUTEC ANDROS ISLAND:** No quarantine exists for Andros Island. Please contact you sponsor or below listed POC for further information.

7. **PRIVATELY OWNED FIREARMS (POFs):** Do not attempt to import weapons of any nature without the prior written authorization of the Ambassador/Chief of Mission and the Regional Security Officer. Mandatory requirements apply. For details/information/instructions contact the Regional Security Officer at GSO/Customs and Shipping, US Embassy Nassau, PO Box 9009, Miami, FL 33159, or phone (242) 322-1181/fax (242) 328-7838 no less than 90 days prior to ETA Nassau. Severe penalties for failure to comply with instructions.

8. **PRIVATELY OWNED VEHICLES (POVs):**

a. **POVs:**

(1) For customs clearance and registration of the POV, the original title or bill of sale must be presented. POV's should be shipped and consigned as follows: American Ambassador; American Embassy; Queen Street; Nassau, Bahamas; FOR: (Member's Name and Agency or Office); Telephone: 1-

242-322-1181; FAX: 1-242-328-7838. Prior to shipping, contact either Cleveland Goddard/Shipping Assistant at \_\_\_\_\_ or \_\_\_\_\_. Upon arrival, the shipping company can contact the Embassy shipping office at 322-1181 EXT 286 or 279. (CH)

(2) Name of owner, VIN or engine number, engine size, year, color, make, and model must be described on the original bill of lading. (CH)

(4) Modification of headlights are required to pass inspection. (CH)

(5) **FOR AMERICAN EMBASSY NASSAU:** Spare parts for POVs are expensive, and auto service is generally of a lower quality yet higher cost than found in CONUS. It is recommended POVs be in excellent running condition prior to shipment to the Bahamas. Pack/send common replacement parts, i.e., oil/air/fuel filters, spark plugs, etc. All US brands as well as common Asian makes (Honda/Toyota/ Daewoo/ KIA/ASIA) are serviced. (CH)

(6) **FOR NAVUNSEAWARCEN DET AUTEC ANDROS ISLAND:** Spare parts for POVs are expensive. Commercial facilities for auto parts and car repairs are practically non-existent on Andros. So if you have your own tools, bring them along with any repair manuals, parts, etc. There is a car repair/maintenance shop set up at the hobby shop and there are people who work on cars during their off-duty hours. Most members leave their nice car at WPB and purchase an old clunker to use on the island. Clunkers are usually older model cars, jeeps, or trucks, which are in low demand stateside. All military members are assigned a parking spot located at WPB. Many people manage on the island without a car since there is free bus service from 0600-2200 seven days a week and a bicycle or moped will get you around when the bus is not in operation. (CH)

(7) Roads are generally of poor quality. (CH)

b. **MOTORCYCLES/MOPEDS:** No restrictions identified.

13. **OTHER: PACKING REQUIREMENTS:** The Bahamas has a tropical climate with summer-time high temperatures in the 90's and high humidity, and in winter-time, night-time lows reaching the 40's and 50's. Water sports of all kinds (diving/snorkeling, boating, swimming, etc.) abound. Pack accordingly.

## CHAPTER 12

### 12-1 BANGLADESH (BG) - GENERAL INSTRUCTIONS

REVIEW DATE: 06 APR 00

#### 1. SHIPMENT INSTRUCTIONS:

a. **WEIGHT RESTRICTIONS:** In accordance with governing regulations. Government leased quarters are provided. Quarters are furnished with basic furnishings except for linens, flatware, china, etc. Electrical systems operate on 220V 50HZ outlet power subject to extreme fluctuation. Some transformers and voltage regulators are provided. Major appliances washer/dryer, refrigerator, freezer, range, are provided. Some carpeting is already installed; drapes throughout.

b. **CONTAINER/CRATING REQUIREMENTS:** Due to probability of HHG being stored in Bangladesh in open storage areas for extended periods, recommend all HHG shipping containers be waterproofed to include caulking and the container interior (tops, ends, sides), with the exception of the floor, lined with either a waterproof barrier paper or a light weight plastic or polyethylene material and have a tin sheeting on the top of the container.

c. **HARD LIFT AREA:** Bangladesh is a hard lift area for all military services. Air clearance, when required, will be obtained from the appropriate Air Clearance Authority (ACA).

d. **UNACCOMPANIED BAGGAGE (UAB):** Ensure all unaccompanied baggage packages are thoroughly waterproofed and no single package weighs more than 200 lbs gross.

#### 2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS:

a. All DOD military personnel should contact US Defense Attaché Office (USDAO), Dhaka, Bangladesh, upon notification of assignment to the US Embassy. The US Embassy arranges for all customs clearances from port of entry to Dhaka. All personal property shipments are cleared through Bangladesh customs duty-free allowing a minimum 2-3 weeks for HHG; 3-4 weeks for POV. Non-diplomatically assigned personnel are not authorized importation of duty-free shipment after 6 months of arrival. Personal property shipments cannot be cleared prior to the arrival of the employee at post and thus will incur significant demurrage charges until your arrival.

b. Provide USDAO and American Embassy via message ASAP carrier's name, flight number, airway bill number, and RDD. Ensure the American Embassy, Dhaka, receives info copy of all correspondence concerning shipments as Bangladesh requires the original commercial bill of lading/airway bill and/or PPGBL in order to initiate customs clearance. Customs clearance will not be initiated until member's arrival.

c. All personnel, diplomatic and non-diplomatic, must provide the Embassy with a detailed packing list/inventory of their personal property shipped so customs declarations can be provided to the appropriate Bangladesh agencies within 10 days of member's arrival. Personnel must ensure all items of household goods, furniture, appliances, kitchenware, hobby equipment, clothing, furnishings, etc., are accurately identified indicating complete description, quantity and value per item. All items such as electrical equipment, video, household appliances, lenses, cameras, stereo equipment,

radios, musical instruments, bicycles, etc., must be listed by model and serial number on import inventory. This detailed inventory is verified during customs inspections/examinations for all non-diplomatically accredited personnel at the point of entry and again when HHG are exported to confirm the items leave Bangladesh. All imported items are customs controlled and require recording on the official Bangladesh "passbook".

d. Upon departure from Bangladesh, all declared items must be accounted for through export or indicated otherwise on passbook. Non-diplomatically assigned personnel are not authorized to sell items/material imported duty-free.

3. **CONSUMABLES:**

a. **ALCOHOLIC BEVERAGES:** Importation is prohibited.

b. **CIGARETTES/TOBACCO PRODUCTS:** Shipments of cigarettes/tobacco products between CONUS and overseas or within overseas countries may be shipped subject to host country requirements/restrictions identified. When undefined or in doubt, the TMO will request clarification by message from the responsible transportation authority at destination.

c. **COSMETICS:** No restrictions identified.

d. **FOODSTUFFS/MEATS:** The import of foodstuff is restricted as these items are available from the post commissary.

e. **MEDICATION (NARCOTICS)/PHARMACEUTICAL PRODUCTS:** No restrictions identified.

f. **Other consumable items:** May be shipped (i.e., paper products, soaps, etc.) and should be marked and declared as household supplies.

4. **ELECTRICAL EQUIPMENT:** Bangladesh Government limits importation of the following electronic equipment to two(2) each. Exceptions to this limit may be requested in advance by contacting GSO.

a. **HOME COMPUTERS:** Limited to two.

b. **TVs/VCRs:** Importation limited to two (2) each.

5. **FURNITURE, OVERSIZED:** No restrictions identified.

6. **PETS/QUARANTINE:**

a. All pets must have a valid rabies certificate and health certificate. There is no quarantine period upon entry into Bangladesh. However, there are limited veterinarian facilities available. If pets are shipped unaccompanied, please notify Embassy one week prior to arrival.

b. Recommend pets be brought with arriving personnel as accompanied baggage to preclude delays that may be encountered in follow-on shipment. If pets are shipped unaccompanied please notify Embassy one week prior to arrival.

7. **PRIVATELY OWNED FIREARMS (POFs):**

a. **Rifled Bore Weapons and Handguns:** Personnel are prohibited from importing.

b. **SHOTGUNS:** Only smooth bore shotguns and shotgun parts can be imported. For customs clearance, the Bangladesh Ministry of Foreign Affairs will need a description of the weapon and the serial number in order to issue a license. Permission must be obtained before shipping firearms. This information may be furnished to the General Services Office, American Embassy, Dhaka, by message.

c. **TOY-RELATED GUNS:** No restrictions identified.

d. **OTHER (i.e. AMMUNITION, EXPLOSIVES, ETC):** Do not ship ammunition and explosives in household goods.

8. **PRIVATELY OWNED VEHICLES (POVs):**

a. **POVs:**

(1) Diplomatically assigned personnel are authorized to ship one POV per family duty-free. Non-diplomatically assigned personnel are authorized to ship one "used" vehicle duty-free. A "used" vehicle is defined as one being owned and in the possession of the owner for a minimum of 6 months prior to shipment.

(2) POV must arrive within 6 months of member's arrival. Shipping from vehicle POE Chittagong to Dhaka is arranged through American Embassy GSO.

(3) Vehicle must be in good operating condition as there are severely limited repair facilities in Bangladesh. A supply of basic spare parts should be shipped. POVs best suited for Bangladesh are small, late model cars due to narrow roads and spare parts availability. Local factory garages include Toyota/Nissan/Datsun/Honda/Mercedes. Air conditioning is highly recommended.

(4) Diplomatically assigned personnel should consider buying a vehicle upon arrival rather than shipping due to left-side driving (steering wheel on the right is best), absence of attention to driving regulations/laws, and to preclude delays in shipping.

(5) Ship in sea container via port of Chittagong.

b. **MOTORCYCLES/MOPEDS:** Mopeds and motorcycles are considered POVs.

c. **GASOLINE/CATALYTIC CONVERTERS:** Members should be advised to have their vehicle's catalytic converter removed prior to shipment. Only leaded gas is available. Use of leaded gasoline in a vehicle equipped with a catalytic converter will render the converter inoperable and result in a large expense to the member for replacement at time of export or impounding of the vehicle at the port of entry until the converter can be replaced. Diesel fuel may be limited. Importation of diesel vehicle is discouraged, but if shipped, could be serviced in Dhaka.

d. **INSURANCE/SAFETY REQUIREMENTS:** Liability insurance must be purchased locally. Other coverage may be obtained locally or through any other insurer.

9. **SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL:** Photographs, magazines, cassettes, etc., containing nudity, etc., are prohibited.

10. **STUFFED WILDLIFE/ANIMALS/PLANT RESTRICTIONS:** No restrictions identified.

11. **TRANSMITTING EQUIPMENT:**

**CBs, AMATEUR/HAM RADIOS, MARS EQUIPMENT, DISH ANTENNAS, CORDLESS PHONES:**  
This type equipment (not limited to CB radios, walkie-talkies and MARS equipment) should be provided to American Embassy prior to shipment.

12. **SEPARATEES/RETIREEES ENTITLEMENTS/LIMITATIONS:** Personnel contemplating retirement/separation in Bangladesh should be counseled that all customs entry requirements to include payment of duties and taxes remain the responsibility of the member and is a personal matter between the member and the Bangladesh government.

13. **OTHER:** None.

3. **CONSUMABLES:**

a. **ALCOHOLIC BEVERAGES:** Alcoholic beverages are considered combustible and flammable material and may not be shipped with international household goods or unaccompanied baggage. If wine cellar or liquors are shipped, it is recommended to ship commercially. The shipment will be subject to Belgian importation taxes. Arrangements are the sole responsibility of the member.

Shipment to Antwerp will avoid delays, facilitate clearing Belgium customs, simplify registration at the International Vehicle Registration Office. Registration and license plates are required to be with vehicle (Do not put plates in HHG). POVs arriving at Port Rotterdam without registration and plates will need to be trucked from the port to the duty station in Belgium at owner's expense.

- c. **TOY-RELATED GUNS:** No restrictions identified.
- d. **OTHER (i.e. AMMUNITION, EXPLOSIVES, ETC):** Firearms, hunting, skeet, trap, and general target weapons are allowable. Restriction of one for each type of weapon.

8. **PRIVATELY OWNED VEHICLES (POVs) :**

a. **POVs:**

(1) All PCS military are authorized duty-free Import of one POV. Shipment of military POVs should be to La Paz, Bolivia via, Arica (EE2), Chile. Vehicles should be consigned to COMUSMILGP - Bolivia, American Embassy, La Paz, ATTN: ATO. Vehicles must be crated and securely tied down inside containers, as they are shipped overland across the Andes to Bolivia; major damage has occurred when vehicles have broken loose from mountings inside containers. Vehicles must not be ostentatious. Removable POV accessories (i.e., radios, tape decks, extra mirrors, lighters, extra tools) should be shipped as HHG as they have a tendency to disappear in transit. Specific and up-to-date information should be obtained from the sponsoring country prior to shipment of POV. (CH)

(2) If you plan to ship a POV to post, be advised that the Bolivian government has established limitations on the value of POVs imported by diplomatic personnel. The value limits shown below include \$3,500 for shipping charges and the actual cost of insurance or two (2) percent of value of the POV if insurance is not purchased. This should be taken into account when determining the maximum purchase price of our vehicle. (CH)

(a) **VALUE LIMITS BY POSITION ARE AS FOLLOWS:**

- 1. First Category: Chief of Mission - No value limit. (CH)
- 2. Second Category: Charge D'Affaires - US Dollars, \$36,000. (CH)
- 3. Third Category: Counselors, First Secretaries, Vice-Counsuls, Army, Navy, and Assistant Attaches - US Dollars \$31,200. (CH)
- 4. Fourth Category: Second and Third Secretaries, Vice Consuls, Army, Navy, and Assistant Attaches - US Dollars \$28,800. (CH)
- 5. Fifth Category: Cultural and Commercial Attaches, Civil Assistant Attaches, International Mission Experts - US Dollars \$27,600. (CH)
- 6. Sixth Category: Administrative and Technical Staff - US Dollars \$26,400. (CH)

For vehicles that exceed these values, the employees will be personally responsible for importation taxes on the excess. (CH)

(b) Post recommends that POVs sent to Bolivia have at least six(6) Cylinders, mountain gearing, and manual transmission because of hills and altitude. Four wheel drive vehicles are very popular and recommended by many employees, especially if you plan to travel outside of the city. Manual transmissions often have better resale value. The resale market for POVs is generally good. (CH)

(3) In order to clear customs, the Embassy requires a commercial invoice and original bill of lading. Original bill of lading should be mailed by international courier (D.H.L., FEDEX, or UPS) to: USMILGP - Bolivia, American Embassy La Paz, ATTN: General Service Officer prior to the arrival of vehicle at the port. POV should be consigned to: American Embassy La Paz, No. 2780 Ave Arce, La Paz, Bolivia, (591) 243-30251 (telephone)/(591 243-3047 Fax number. (CH)

b. **MOTORCYCLES/MOPEDS:** Not considered POVs; ship as HHG. If imported, must pay heavy import tax.

c. **GASOLINE/CATALYTIC CONVERTERS:** Only leaded or diesel fuel are available in Bolivia, so you may wish to have your catalytic converter removed in the U.S. prior to shipment. (CH)

d. **INSURANCE/SAFETY REQUIREMENTS:** The government of Bolivia requires third party liability insurance for all vehicles, which can be purchased locally. ## CHAPTER 16A

### 16A-1 BOSNIA AND HERZEGOVINA - GENERAL INSTRUCTIONS

REVIEW DATE: 15 JAN 04

#### 1. SHIPMENT INSTRUCTIONS:

- a. **WEIGHT RESTRICTIONS:** As per JTR/JFTR
- b. **CONTAINER/CRATING REQUIREMENTS:** No restrictions identified.
- c. **HARD LIFT AREA:** No restrictions identified
- d. **UNACCOMPANIED BAGGAGE (UB):** No restrictions identified.

2. **CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS:** No shipments can be cleared through BH customs office prior to the member's arrival at post. To avoid unnecessary demurrage charges, post strongly suggests shipments be timed to coincide with the employee's arrival at Sarajevo.

#### 3. CONSUMABLES:

- a. **ALCOHOLIC BEVERAGES:** No restrictions identified
- b. **CIGARETTES/TOBACCO PRODUCTS:** No restrictions identified
- c. **COSMETICS:** No restrictions identified.
- d. **FOODSTUFFS/MEATS:** No restrictions identified
- e. **MEDICATION (NARCOTICS)/PHARMACEUTICAL PRODUCTS:** No restrictions identified

4. **ELECTRICAL EQUIPMENT:** Primary power in Bosnia is 220V/50HZ. Voltage regulators and/or uninterruptible power supplies should be brought for sensitive electronic equipment, i.e., computers, stereos. Post issues two step-down transformers per housing unit for use with 110 volt appliances. A complete welcome kit is supplied for use until an employee's HHE shipment arrives. This kit includes kitchenware, a coffeemaker and toaster, china, glassware, flatware, iron, ironing board, bedding and towels.

- a. **HOME COMPUTERS:** No restrictions identified.
- b. **TVs/VCRs:** No restrictions identified.
- c. **OTHER (i.e. COMPATABILITY, ETC):** No restrictions identified

5. **FURNITURE, OVERSIZED:** Permanent housing in Sarajevo consists of short-term leased government-furnished quarters. The Embassy's Interagency Housing Board (IAHB) assigns housing in accordance with the space standards in 6 FAM 720. Housing assignments are usually finalized two months prior to the employee's arrival, provided that post has accurate arrival information. The IAHB makes assignments based on the units available at the time of the employee's arrival, considering employee preferences and special circumstances when possible. The embassy housing pool includes apartments, townhouses and some single family homes. The quality of available housing in Sarajevo has improved in recent years, but units with a lot of storage space continue to be hard to find. Some employees detailed or seconded to international organizations are on a living quarters allowance (LQA) and do not receive embassy-leased housing. Employees must keep lack of storage in mind when planning shipments; post cannot provide warehouse space for employees' personal effects. Garages here tend to be smaller than in the United States

and larger vehicles such as SUVs are sometimes a tight fit. Post provides major appliances, including, two-room air conditioners, refrigerator/freezer, washer and dryer and a microwave oven. Optional items such as portable fans and space heaters are available on request. The Post housing handbook gives a full listing of household furnishings and appliances provided by post. New arrivals are provided with a welcome kit, which includes flatware, silverware, basic kitchen appliances, vacuum cleaner, pots and pans, and bedding and bath linens until household effects arrive.

6. **PETS/QUARANTINE:** There is no prohibition on bringing pets into Bosnia. A recent vaccination record is required to import animals. Most hotels do not accept pets and most embassy residences do not have yards for larger animals. Procedures for shipping animals vary from airline to airline - check carefully when planning to bring in a pet. Employees are responsible for any pet damage to embassy housing or furnishings.. Good veterinary care is available in Sarajevo.

7. **PRIVATELY OWNED FIREARMS (POF):** Firearms and ammunition are prohibited at post.

8. **PRIVATELY OWNED VEHICLES (POVs):**

a. **POVs:** Employees assigned to Sarajevo may ship a POV no older than seven years to Post. Accredited diplomats may register their vehicles free of charge, there is a fee of about \$100. per year for registering a vehicle for those with administrative and technical status. Employees should hold a valid US driver's license to operate a vehicle in Bosnia. Cars older than seven years at the time of import must be exported upon the end of the employee's tour in Bosnia - they cannot be sold in Bosnia. For this reason post strongly recommends that personnel avoid importing cars older than seven years. Dealer service of US Spec vehicles is unavailable here, but local mechanics can fix many problems. Audis, Renaults, and Volkswagens are sold and serviced in the Sarajevo area. Four wheel drive vehicles are highly recommended as roads in Bosnia are rough and icy in winter.

b. **MOTORCYCLES/MOPEDS:** Motorcycles can be shipped to post with HHE, but be aware operating a motorcycle in Bosnia cannot be considered safe given local traffic conditions and rough roads.

c. **GASOLINE/CATALYTIC CONVERTERS:** Lead-free gasoline is readily available.

d. **INSURANCE/SAFETY REQUIREMENTS:** Bosnian law requires purchase of third party liability insurance from a local company. This insurance is available at a discount through an embassy contract.

9. **SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL:** No restrictions identified

10. **STUFFED WILDLIFE/ANIMALS/PLANT RESTRICTIONS:** No restrictions identified..

11. **TRANSMITTING EQUIPMENT:**

a. **CBs:** No restrictions identified

b. **AMATEUR/HAM RADIO:** Special permit required

c. **MARS EQUIPMENT:** Special permit required

CHAPTER 17

17-1 BRAZIL (BR) - GENERAL INSTRUCTIONS

REVIEW DATE: 18 OCT 01

1. SHIPMENT INSTRUCTIONS:

a. **WEIGHT RESTRICTIONS:** In accordance with governing regulations.

b. **CONTAINER/CRATING REQUIREMENTS:** Any packing material made of wood has to be incinerated after the importation is cleared customs.

c. **HARD LIFT AREA:** Hard lift area for all military services. Air clearance, always required, will be obtained from the appropriate Air Clearance Authority (ACA).

d. **UNACCOMPANIED BAGGAGE:** No restrictions identified.

e. **OTHER:**

(1) Transit times, allow approximately 2 months for HHG and 4 weeks for UB.

(2) Commercial airport in Rio de Janeiro is Galeao Airport. Commercial airport in Brasilia is International Airport of Brasilia. Neither have AMC terminals. Military cargo is handled by commercial contractors.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS:

a. DD Form 1299 for shipment of unaccompanied baggage or household goods must be annotated to reflect the value of the property for consular invoice purposes. (CH)

b. HHG and UB may arrive at post prior to employee's arrival since they can be held at the airport cargo terminal. However, documents for their customs clearance can only be processed after the employee arrives at post, is accredited by Government of Brazil and receives his/her Brazilian identification card, which may take from 3 to 5 weeks. The ID card is issued by the Foreign Ministry and not by the personal office at post. After the employee receives his/her identification card the HHG and UB should be cleared customs in approx. 3 weeks. (CH)

c. In Brazil, there is a period of installation for the shipment of HHG and UB, which corresponds to the first 6 months after the employee's arrival at post. The Government of Brazil allows that, during the period of installation, the member ships to post as many HHG and UB he/she desires under the travel orders. It is important that the weight allowance is not exceeded. (CH)

**NOTE:** After the period of installation, the Government of Brazil will not authorize importation for any HHG, UB, POV or any other item to Brazil under the members name. (CH)

3. CONSUMABLES:

a. **ALCOHOLIC BEVERAGES:** Importation is prohibited.

b. **CIGARETTES/TOBACCO PRODUCTS:** Shipments of cigarettes/tobacco products between CONUS and overseas or within overseas countries may be shipped subject to host country requirements/restrictions identified. When undefined or in doubt, the TMO will request clarification by message from the responsible transportation authority at destination.

c. **COSMETICS:** No restrictions identified.

d. **FOODSTUFFS/MEATS:** No restrictions identified.

e. **MEDICATION (NARCOTICS)/PHARMACEUTICAL PRODUCTS:** No restrictions identified.

4. **ELECTRICAL EQUIPMENT:**

a. **HOME COMPUTERS:** No restrictions identified.

b. **TVs/VCRs:** No restrictions identified.

c. **OTHER (i.e. COMPATIBILITY, ETC):** No restrictions identified.

5. **FURNITURE, OVERSIZED:** No restrictions identified.

6. **PETS/QUARANTINE:** Dogs and cats are permitted entry. Advance notification (at least 10 working days in advance of arrival) to the US military agency assigned is required in order to arrange for clearance and free entry. Notification should include the type of animal, name of carrier and expected arrival date/flight. Dogs and cats require a public health certificate of vaccination against rabies. The vaccination must have been no less than 30 days but no more than a year before arrival. The certificate of vaccination must be validated by the US Department of Agriculture and submitted to a Brazilian Embassy or Consulate within which the USDA district office is located for authentication to receive a visa for the pet. Attach the certificate of vaccination with visa notations to the airway bill if you are not accompanying the pet. If the pet arrives with you, keep the vaccination certificate with you to facilitate clearance. Heartworm (filaria) is not prevalent in Brasilia, but is endemic in Rio de Janeiro and Sao Paulo.

7. **PRIVATELY OWNED FIREARMS (POFs):**

a. If application for importation is made before arrival, the following information should be furnished to USMLO Brasilia (with info copy to organization assigned), purpose (hunting, target practice, self-defense, etc.), caliber, make, number of barrels, type of barrels, telescopic sights (range), and serial number. Upon receipt of this information and approval by the Ambassador, permission is requested from the Ministry of War through the Ministry of Foreign Affairs for entry of the firearms. This approval takes at least 2 months, and no arms are cleared through customs without this permission.

b. Importation of firearms requires prior authorization by the Ambassador in Brasilia and must be for personal use only. Only the following weapons have been approved by the Embassy and the Brazilian Government for importation:

(1) **HANDGUNS:** 2 Pistols, .38 caliber or smaller.

(2) **RIFLES:** 2 rifles, .44 caliber or smaller.

- (3) **SHOTGUNS:** 2 shotguns, 12 gauge or smaller.
- (4) **TOY-RELATED GUNS:** No restrictions identified.
- (5) **OTHER (i.e. AMMUNITION, EXPLOSIVES, ETC):** No restrictions identified.

8. **PRIVATELY OWNED VEHICLES (POVs):**

a. **POVs:** The American Embassy neither encourages nor discourages purchase of a Brazilian manufactured automobile in lieu of shipment of a privately-owned motor vehicle to duty station in Brazil but suggests personnel consider the following factors:

(1) All US employees/Armed Forces personnel assigned to Brazil may either import a car duty-free or purchase a Brazilian-manufactured car, exempt from manufacturer's tax. The car purchase value or local market price (Blue Book) cannot exceed \$28,000 US dollars (for those entitled with an administrative title) or \$45,000 US dollars for those entitled with a consular or diplomatic title.

(2) Authorization for importation/shipment of vehicles must be granted by the Embassy. The employee or agency must cable or preferably e-mail or fax (55-61-226-8470), to the Embassy stating the owner's name and rank, estimated time of arrival, and vehicle specification: year, make, model, VIN or engine number, color, purchase price, type of fuel, statement of no tinted windows (unless factory manufactured), etc.

(3) Vehicle should arrive at the port of Rio de Janeiro close to the employee's arrival at post. Customs clearance can only commence after employee received his/her accreditation (carteira) from the Ministry of Foreign Affairs and CPF, issued by Receita Federal (Customs).

(4) The Government of Brazil does not allow the importation of two vehicles. If an employee decides to ship a second vehicle, other than the one authorized duty-free by the GOB, this second vehicle must be brand new and the employee will have to pay full duties on it. The employee **MUST** contact the Embassy **BEFORE** the vehicle is purchased. (CH)

(5) Vehicles belonging to two or more employees **MUST NOT** be shipped under the same Bill of Lading (BL). Each vehicle must be shipped under an individual BL, even if vehicles belong to officers at the same post. Repeat, vehicle **MUST BE** shipped separately under separate BLs. If vehicles are shipped in the same container, customs process takes additional weeks which substantially increases the storage charges. (CH)

(6) Vehicles **MUST BE** shipped to the port of Rio de Janeiro. Our broker's office can move customs documents more rapidly through the port of Rio than in Santos. Customs processes at the port of Santos are lengthy. Besides, Santos is a more expensive port. (CH)

(7) Once authorization for shipment is granted, the shipper overseas **MUST** cable shipping details to post once vehicle is issued with the BL. To expedite the customs process, a copy of the BL **MUST BE** faxed to the post receiving the vehicle. The original Bill of Lading (OBL) must be forwarded by FedEx to post immediately after its issuance by the shipping line. OBL must have name of owner, complete description of vehicle to include year of manufacture, color, make, model, VIN and/or engine number, purchase price, type of fuel, etc. The accuracy of this information is vital to ensure POV shipment is not delayed. Original copy of OBL must be mailed at earliest date to the American Embassy, Av. Das Nacoes, Quadra 801, Lote 3, 70400-00, Brasilia D.F., Brazil. The address for the Consulate in Rio de Janeiro is Av. Presidente Wilson 147B, Castelo, 20030-020, Rio de Janeiro, Brazil. (CH)

(8) The consignee block on the Bill of Lading **MUST** show the following sequence of information: (CH)

MICHAEL MARSHALL  
FULL NAME OF EMPLOYEE (ABBREVIATION OF NAMES WILL SLOW DOWN CUSTOMS PROCESS)  
AMERICAN EMBASSY  
BRASILIA, BRAZIL  
VIA PORT OF RIO DE JANEIRO  
TEL: 55-321-7272 X2156

MICHAEL MARSHAL  
FULL NAME OF EMPLOYEE (ABBREVIATION OF NAMES WILL SLOW DOWN CUSTOMS PROCESS)  
AMERICAN CONSULATE GENERAL  
RIO DE JANEIRO, RJ - BRAZIL  
VIA PORT OF RIO DE JANEIRO  
TEL: 55-21-292-7117 X2618

(9) Upon arrival at post, the employee must provide a copy of the POV's bill of sale and title to Embassy/consulate GSO Shipping and Customs Section. (CH)

**NOTE:** Some damages occur to car tires received in containers at posts. Even though the vehicle may be strapped down inside of the container, the vessel's movement while at sea causes these vehicles to move, rubbing the tires against the wood. For all military Dispatches sending containerized vehicles to the States, suggest that when blocking and bracing these vehicles inside of container, protection be placed between the tires and the wood used for blocking. Place three pieces of cardboard, rags, or thick pieces of foam rubber between the rubber tires and the blocks of wood to prevent tires from rubbing against the wood blocks.

(10) Brazilian law prohibits the importation of diesel-powered passenger's vehicles by foreign mission personnel. Use of reflective or colored solar tinting, other than factory installed tinted glass, is also prohibited. (CH)

(11) A vehicle imported duty-free may be sold locally after it has been in Brazil at least 6 months (from date of customs clearance), provided the owner is transferred permanently from Brazil and required local import duties and taxes are paid. These duties and taxes gradually reduce until the vehicle has been in the country 3 years; then it can be sold locally duty-free. Duties and related taxes can total 160 percent of the minimum value (currently US \$17,000 for automobiles over 2,400 pounds) established by the customs authorities. Therefore, import duty tax will probably exceed the value of the imported vehicle until it has been in Brazil for the required 3 years. Even after 3 years, the market for imported vehicles may be limited as local citizens must pay a high yearly road tax on imported vehicles (currently US \$2,000). A vehicle imported duty-free must either be sold or exported from the country within 30 days after owner's departure. (CH)

(12) Ford, GM, Chrysler, Fiat, Alfa Romeo, Audi, Renault, Peugeot, Honda, and VW manufacture vehicles in Brazil. If a car is not imported, a new vehicle can be purchased with a tax exemption at a price about 40 percent lower than the normal Brazilian market. Most Brazilian car manufacturers offer both gasoline and alcohol powered models. Delivery may require 45-60 days, since the car must be ordered direct from the factory after receiving approval from the Brazilian Foreign Office. The car may be sold locally without tax payments provided it has been owned for at least 1 full year from the date the car left the factory. Prior to that, the car may only be sold to another individual with tax-free privileges who did not import a car. Brazilian automobiles do not generally meet US safety/environmental standards so it can not usually be imported into the US. (CH)

b. **MOTORCYCLES/MOPEDS:** For Brazilian importation purposes, a motorcycle or a motorboat is considered a "vehicle". As such, they cannot be included in the HHG or UB shipments. The employee interested in this type of importation must follow the same procedures outlined in paragraph 8(a)(2) above.

c. **GASOLINE/CATALYTIC CONVERTERS:** The prices of gasoline and alcohol fuel are government influenced. Gasoline is expensive. Currently, more than \$US3.00/gal. Alcohol slightly less. Unleaded and premium gasoline are not available; however, both have approximately 25% alcohol content. This gasohol mixture may affect engine performance. **CATALYTIC CONVERTERS:** No restrictions identified.

d. **INSURANCE/SAFETY REQUIREMENTS:** No restrictions identified.

e. **OTHER:** Terminals/Vehicle Processing Centers ship privately-owned vehicles only upon receipt of message authorization from Amembassy Brasilia. Terminals send copy of Maritime Company original bill of lading via FAX to American Embassy Brasilia, FAX number 55-61-226-8470, so that customs clearance process can be initiated. Terminals send Maritime Company original OBL through DHL or FedEx to the following address: American Embassy (ATTN: GSO), SES AV. DAS Narcoes, Lote 3, Brasilia-DF, Brazil 70403-900.

9. **SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL:** No restrictions identified.

### 19-1 BURMA (BM) - GENERAL INSTRUCTIONS

REVIEW DATE: 18 JAN 00 (Burma is also known as Myanmar)

#### 1. SHIPMENT INSTRUCTIONS:

a. **WEIGHT RESTRICTIONS:** There is a weight restriction for DOD personnel assigned to Burma. Restricted weight authorized is shown on members transfer orders to Burma.

b. **CONTAINER/CRATING REQUIREMENTS:** Ensure contractors are aware prior to arrival of packers to residence.

(1) Due to probability that shipments will be stored in open storage areas subject to heavy monsoon rains. All shipping containers must be waterproofed to include caulking, and lining of top, ends, and sides with appropriate waterproof lining material such as polyethylene material. In addition to lining the wooden shipping container, each individual cardboard container must also be wrapped in plastic.

(2) The maximum size shipping crate for service into Burma is 8 feet long, 6 feet wide, and 5 feet high. These dimensions cannot be exceeded for air freight service to Burma.

(3) Wooden shipping crates must be shipped with maximum space utilized. If crate is only partially filled, shipping container must be internally braced so there is no shifting of contents. Shipping crates should be sturdy enough to withstand rough handling due to lack of modern cargo handling equipment and proper storage facility.

c. **HARD LIFT AREA:** Hard lift area for Army, Air Force, and Marine Corps. Air clearance, when required, will be obtained from the appropriate Air Clearance Authority (ACA). All air freight arrives and sits outside until customs clearance approx two weeks. During monsoon serious damage occurs. Suggest Sea Freight.

d. **UNACCOMPANIED BAGGAGE:** No restrictions identified.

#### 2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS:

a. HHG and UB shipments should be shipped timed to arrive three weeks after member's arrival at post, otherwise shipments will be stored in open areas subject to weather damage, pilferage and costly demurrage charges. Required paperwork can be prepared prior to arrival of the members but HHG and UB cannot arrive or be cleared through customs prior to arrival of the member (no exceptions granted).

b. Burmese customs officials strictly enforce import regulations. Firearms (including air powered and toy guns); CB radios; certain books, photographs, and magazines which display nudity; and MARS equipment are prohibited for importation into Burma. HHG and UB shipments will be examined upon arrival and prohibited items will be confiscated.

c. To expedite customs clearance in Burma, it is important to furnish the Embassy GSO, with an information copy to the DAO, as soon as possible a copy of the inventory indicating the number of outside containers and estimate of the total value of the property shipped under each PPGBL.

d. Original airway bills of lading are required for all personal property shipments (HHG/UB/POV) prior to obtaining customs clearance. Instruct carriers to forward original bills of lading as soon as possible to the Embassy GSO, with an information copy to DAO.

3. **CONSUMABLES:**

a. **ALCOHOLIC BEVERAGES:** May be shipped in HHG with no limit.

b. **CIGARETTES/TOBACCO PRODUCTS:** Shipments of cigarettes/tobacco products between CONUS and overseas or within overseas countries may be shipped subject to host country requirements/restrictions identified. b. **RIFLES/SHOTGUNS:** Importation prohibited.

c. **TOY-RELATED GUNS:** Importation prohibited.

d. **OTHER (i.e. AMMUNITION, EXPLOSIVES, ETC):** Importation prohibited.

8. **PRIVATELY OWNED VEHICLES (POVs):**

a. **POVs:** POVs older than 10 years are prohibited in Burma.

b. **MOTORCYCLES/MOPEDS:** Motorcycles/mopeds may be shipped in HHG; however, they are considered "hobby equipment" by host government and not POVS.

c. **GASOLINE/CATALYTIC CONVERTERS:** Do not ship POV with catalytic converter. Members should be advised to have their vehicle's catalytic converter removed prior to shipment. Only leaded gasoline is available. Use of leaded gasoline in a vehicle equipped with a catalytic converter will render the converter inoperable and result in a large expense to the member for replacement at time of export or impounding of the vehicle at the port of entry until the converter can be replaced.

d. **INSURANCE/SAFETY REQUIREMENTS:** Third party insurance is required and must be purchased locally at a cost of two US dollars.

9. **SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL:** Certain books, magazines, and photographs which display nudity are prohibited.

10. **STUFFED WILDLIFE/ANIMALS/PLANT RESTRICTIONS:** No restrictions identified.

CHAPTER 24

24-1 CHILE (CI) - GENERAL INSTRUCTIONS

REVIEW DATE: 18 NOV 03

1. SHIPMENT INSTRUCTIONS:

a. **WEIGHT RESTRICTIONS:** In accordance with governing regulations.

b. **CONTAINER/CRATING REQUIREMENTS:** Due to the use of commercial narrow-body aircraft, external shipping containers for Code T shipments moving to/from South and Central America in accordance with PPP-B-601, style A or B, are required, not to exceed 60 inches in height. In accordance with Item 508, international Personal Property Rate Solicitation, special packing arrangements will be authorized by the PPSO for oversize items which will not fit into the restricted height container.

c. **HARD LIFT AREA:** Hard lift area for all military services. Air clearance, when required, will be obtained from the appropriate Air Clearance Authority (ACA).

d. **UNACCOMPANIED BAGGAGE:** No restrictions identified.

e. **OTHER:**

(1) The Chilean Ministry of Foreign Affairs has advised the Embassy that, for duty-free importation of household goods (HHG; includes air freight) and privately-owned-vehicles (POV), the combined value of an employee's HHG and POV must not exceed: (CH)

(a) Diplomatic Staff: \$80,000 (HHG portion includes insurance and freight costs). (CH)

(b) Admin and Technical (A&T) Staff: \$25,000 (HHG portion is valued at current value of goods only.) (CH)

NOTE: The Embassy advises that these thresholds may be increased in the future; it is advisable to consult with the Embassy. (CH)

(2) FAX to Shipping (011-562-330-3020), a copy of employee's passport as soon as possible, and cable post with the following answers:

(a) Identify the eligible family member(s) mentioned in TM-TMO (if any) accompanying employee to post and remaining on a permanent basis.

(b) Provide sex and ages for other family members identified on employees orders who will not reside permanently.

(c) Identify any family member who does not hold a US passport.

(d) Expected to arrive at post.

(e) Accompanying pets, and if any, specify what kind(s).

(f) Identify any medical, personal or other factors that should be considered in a housing assignment. (If answer is confidential, state N/A in response to this cable and send a med channel message).

(g) Identify kind/age of POV do you expect to bring to post. See para 8a regarding limitations.

(3) **SHIPMENTS:** Weight restrictions for DoD personnel's HHG and UAB shipments are as prescribed in the JFTR, Chapter 5, para 5310B (military personnel) and JTR, Chapter 8 (civilian personnel). When DoD personnel are assigned to the Embassy, they are likely to be assigned to housing with government furniture provided, which may affect the HHG/UAB weight limitation. (CH)

2. **CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS:**

a. **Household Goods Documentation:** All manifests, bills of lading, and other pertinent invoices covering household goods and POVs destined into Chile must be in the individual's full name, activity consigned to, i.e., USMILGP, DAO, IAGS, etc. No initials may be used in preparation of the PPGBL.

b. Due to new Chilean customs legislation, shipments cannot remain in customs awaiting clearance for more than 60 days. After this period items are auctioned off. Therefore, personal property should be shipped to arrive shortly after the employee's arrival. Shipments cannot be cleared until employee has arrived at post and has been duly accredited with the Government of Chile; a procedure which takes an average of 2 weeks.

3. **CONSUMABLES:**

a. **ALCOHOLIC BEVERAGES:** May be imported into Chile, subject to quantity limitations that are greater for Diplomatic Staff than for Admin & Technical Staff. Alcoholic beverages may consist only of whiskey, cognac, and liquor. (CH)

b. **CIGARETTES/TOBACCO PRODUCTS:** The number of individual cigars and/or cigarettes is limited to 10,000 per year (Admin & Technical Staff) and 20,000-35,000 per year, depending on diplomatic rank (Diplomatic Staff). (CH)

c. **COSMETICS:** Limited to that necessary for personal use. (CH)

d. **FOODSTUFFS/MEATS:** May not be included in shipments. (CH)

e. **MEDICATION (NARCOTICS)/PHARMACEUTICAL PRODUCTS:** Limited to medicines necessary/prescribed for personal use. (CH)

4. **ELECTRICAL EQUIPMENT:**

- a. **HOME COMPUTERS:** No restrictions.
- b. **TVs/VCRs:** No restrictions identified.
- c. **OTHER (i.e. COMPATIBILITY, ETC):** No restrictions identified.

5. **FURNITURE, OVERSIZED:** No restrictions identified.

6. **PETS/QUARANTINE:** Pets may be imported to Chile only after obtaining approval from the Chilean Embassy/Consulate at the location from which the employee is departing. (CH)

7. **PRIVATELY OWNED FIREARMS (POFs):** Prior approval of the overseas command is required for shipment of privately-owned weapons. The Embassy Regional Security Officer must approve importation of weapons (limited to those for sporting use.) To obtain approval, a message/cable must be sent to the following GENSER address: AMEMBASSY SANTIAGO//RSO//. The Chilean Ministry of Defense also must approve importation of weapons; the Embassy can help to facilitate this. Approved privately-owned weapons may be included in the employee's UAB when entering Chile, but not when departing Chile. (CH)

8. **PRIVATELY OWNED VEHICLES (POVs):**

a. **POVs:**

(1) Chilean regulations currently permit importation to vehicles of the current model year. For instance, in the year 2004, only vehicles of the model year 2004 may be imported. Waivers of up to two model years are possible, but (if the vehicle is 1-2 years old) only if the owner has owned the vehicle for at least one year at the time of importation. This applies to all types of motorized vehicles, including motorcycles. (CH)

(2) The Embassy Management Counselor must approve, before shipment occurs importation of any POV. This serves two primary purposes: (a) allows the Embassy to assess the effect of the POV shipment on the monetary limit described in para 1e(1) above; and (b) permits the Embassy to begin the lengthy host-country approval process. The approval request may be faxed to the following number: 011-56-2-330-3020. The following information is required: name of owner, make and model of vehicle, model year, VIN or engine number, and color. The Embassy also requires copies of the employee's passport and the vehicle registration or vehicle title. (CH)

(3) POV's. Both Diplomatic Staff and A&T employees may import one vehicle duty-free, within the monetary limits described in para 1e(1) above. For A&T staff, the 25,000 limitation on the combined value of HHG and POV necessitates careful consideration of the POV purchase price - it is advisable to consult the Embassy prior to buying the car. After two years, diplomatic staff personnel may import a second vehicle duty-free. Personnel may import vehicle(s) only if their assignments are at least one year. Vehicles imported to Chile must have a catalytic converter and a brake light on the upper back. Unleaded gasoline is readily available in most parts of the country. (CH)

(a) Selling a POV imported duty-free. Diplomatic staff may sell their POV's in Chile, without the buyer being assessed duties and taxes, after six months, if the sale is due to an official transfer. A&T employees may sell their POV's duty-free after having them in country at least three years. If the depreciated total value of the vehicle exceeds a certain amount (currently \$16,361), Chile assesses an 85% luxury tax on the value exceeding that amount. (The latter stipulation may be eliminated in the future.) There is also a 19% value added tax on all sales. (CH)

(b) Exporting vehicles. A POV imported to Chile based on an exception to the current-model-year rule may not be sold in Chile - it must be exported. Vehicles procured locally in Chile must meet U.S. EPA/safety specifications in order for them to be imported to the United States. (CH)

(c) The name on the vehicle title and related documents must be that of the assigned employee (not, for instance, the employee's spouse). Experience has shown that, if the employee is not the vehicle owner (i.e. it involves a lease or bank loan), it is best for the employee to have in hand a letter from the financing company verifying the owner/operator arrangement. Additionally, the Chilean Government will not release the vehicle to the owner without the original ocean bill of lading (OBL) being marked to show that the freight charges have been paid. The OBL must show name of owner, VIN number and engine number, color, make, model, year, and actual weight. (CH)

(d) Consign vehicles to:

American Embassy  
(Name of employee)  
ATTN: GSO Shipping Office  
Phone: 56-2-330-3386  
FAX: 56-2-330-3020

9. **SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL:** No restrictions identified.
10. **STUFFED WILDLIFE/ANIMALS/PLANT RESTRICTIONS:** No restrictions identified.
11. **TRANSMITTING EQUIPMENT:**
  - a. **CBs:** Importation or utilization of CB radios by DOD personnel is prohibited.
  - b. **AMATEUR/HAM RADIOS:** No restrictions identified.
  - c. **MARS EQUIPMENT:** May be imported; however, this equipment may not be operated in Chile until properly licensed and the frequency has been cleared/approved by the Government of Chile Telecommunications Department.
  - d. **DISH ANTENNAS:** No restrictions identified.
  - e. **CORDLESS PHONES:** No restrictions identified.
12. **SEPARATEES/RETIREEES ENTITLEMENTS/LIMITATIONS:** Personnel contemplating retirement, separation or relocating dependents to Chile should be counseled that all customs entry requirements to include payment of duties and taxes remain the responsibility of the member and is a personal matter between the member and the Government of Chile.

13. **OTHER:**

a. **WEATHER:** In Santiago (the capital), the June-September winter season is cold and rainy; the temperature rarely drops to freezing but dampness and fog give the cold air a penetrating quality. Be aware the climates of other areas in Chile differ greatly from the capital. The Great Northern Desert, constituting one-fourth of the country, is one of the driest and most barren areas on earth. The Archipelago South of Puerto Montt, with its forested fjords and glaciers, bears resemblance to Southern Alaska. (CH)

b. **POLLUTION:** All areas of Santiago are affected by a high index of pollution which appears as a heavy smog in the winter and dust in the summer. Pollution levels rise to unacceptable levels (PM-10 levels of 240 MCG./M3) on an average of five to six times per year. The major health effects include difficulties with breathing, respirator problems and aggravation of existing respiratory, cardiovascular, allergic and asthmatic diseases. This is particularly true for the elderly and children, and those with confirmed asthmatic and allergic symptoms. The most severe pollution occurs during the months of May to October.

c. **HOUSING:**

(1) Embassy houses and apartments have 24-hour roving security patrol and, in most cases, secure off-street parking. They are in an area convenient for shipping, restaurants, etc., and within walking distance of the Embassy. (CH)

(2) Most US Government leased houses in Santiago are located in close-by suburbs, and also come with swimming pools and lawn/gardens. It is the occupant's responsibility to maintain both. Professional pool maintenance costs about USD 50 per month. If you are assigned to a house with a pool and intend to maintain it yourself, bring vacuum hose and equipment, brushes, etc. These items are expensive in Chile. Pool chemicals are also expensive here, and may not be shipped in HHG. Gardening services are available but they too can be expensive (USD 100 per month). If you choose to do your own gardening, consider shipping a lawnmower and garden tools to post to avoid the high cost of purchasing these items. Post does not provide them.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS: UB/HHG/POV customs clearance may be completed before owner's arrival in the Czech Republic, but a shipment inventory/packing list and POV title must be available for customs clearance. POV registration requires the owner's presence at the post and the owner's registration with the Ministry of Foreign Affairs of the Czech Republic. Shipments should be marked: American Embassy Prague, for (owner's name), Trziste 15, Praha 1, Czech Republic. UAB can be shipped directly to the airport in Prague. HHG, POV delivery to Prague should be performed by an international company (a destination agent) which has its office and warehouse in Prague (e.g. AGS, Allied Pickfords, Corstjens, Interdean). If the destination agent does not have its office and warehouse in Prague, the precise date/time of arrival must be coordinated with posts GSO well in advance. The shipment may not be delivered to Prague until the delivery date is approved by the Embassy. The delivery agent must also provide a team for destination services in such case. (CH)

3. CONSUMABLES:

4. ELECTRICAL EQUIPMENT:

- b. **TVs/VCRs:** No restrictions identified.
- c. **OTHER (i.e. COMPATIBILITY, ETC):** No restrictions identified.

5. FURNITURE, OVERSIZED: No restrictions identified.

6. PETS/QUARANTINE: There is not pet quarantine. **NOTE: Changes effective 4 July 2004.**

a. **Effective until 3 July 2004.** Pets are admitted into the country without problem as long as they have the necessary shots - rabies for dogs and parvovirus for cats. An international certificate with proof of current vaccinations is needed. The pet must also have a vet's statement, not older

than 3 days before leaving the country of dispatch, confirming the good health condition of the pet. For pets arriving at the Prague Airport, the exact dates of arrival and flight number and (AWB# if transported separately from their owner) should be supplied prior to arrival so that necessary veterinary inspection can be secured immediately upon arrival at the airport. If pets are delivered prior to their owner's arrival, the Embassy must be informed several weeks in advance to ensure an animal shelter is available. Appropriate money amounts to cover the costs must be sent to the Embassy. (CH)

b. Each pet must be identified either with a clearly readable tattoo or a microchip placed under the skin. Both systems must contain information that identifies the name and address of the animal's owner. The owner or the person responsible for the pet must provide the means necessary for reading the microchip if it does not comply with the required ISO standard 11784 or Annex A to ISO Standard 11785. Pets must be accompanied by a passport issued by a veterinarian and certifying that the animal has a valid rabies vaccination; and have an antibody blood test at least 30 days after vaccination and three months before the move. (This does not apply in cases of re-vaccination.) Pet must be accompanied by a certificate issued by a licensed veterinarian or upon re-entry, by a passport certifying presence of the tattoo or microchip and of valid vaccinations. (CH)

7. **PRIVATELY OWNED FIREARMS (POFs)**: No restrictions on importation of small firearms, but firearms must be either registered at the Police Presidium of the Czech Republic and the Examination of the Professional Capacity must be passed also at the Police Presidium if the owner wants to use their weapons. If the owner does not want to use them, they must be deposited/stored at the Police Presidium of the Czech Republic. Before weapons can be exported from the Czech Republic, the Police Presidium must be asked for a special export permit. During pack out, the weapons must be checked/compared with the Export permit and sealed by a Customs Officer.

8. **PRIVATELY OWNED VEHICLES (POVs)** :

a. **POVs**: The Czech Republic places some limitations on the importation of automobiles. A car can be imported into the country without being registered in the Czech Republic by making sure that the vehicle continues to be registered and properly insured (green card is needed) in a foreign country and maintains that country's license plates. If a vehicle needs to be registered in the Czech Republic, as is customary for DoD personnel, a car cannot be more than 8 years old when it is imported. It is the owners responsibility to prove that the vehicle meets the EURO II emission standard. This can be problematic for a US-MADE CAR. A US-MANUFACTURED VEHICLE MAY NEED TO BE TESTED. If the technical inspection service does not find an identical engine in their computer database, a test must be conducted to see if it meets the standard. This test can cost as much as CZK 9,000. There may be a minimal charge for vehicles whose engine data is already stored in the lab's computer. If a vehicle does not meet the EURO II standard, then NO waiver may be granted and vehicles may not be registered. CONTACT SPONSOR FOR FURTHER INFORMATION ABOUT REGISTRATION AND DRIVING YOU POV.

b. **MOTORCYCLES/MOPEDS**: Motorcycles/mopeds can be shipped in personal property. They are not considered POVs and can be imported duty-free.

c. **GASOLINE/CATALYTIC CONVERTERS**: Vehicles must meet at least the EURO II emission standard. Please not that no waiver for emissions can be granted at all!

d. **INSURANCE/SAFETY REQUIREMENTS**: Vehicles not registered in the Czech must carry liability insurance. If the owner does not have a green card (proof of liability insurance) when registering the car and operating it within the Czech Republic, the owner must purchase a valid liability insurance policy from a licensed insurance vendor. The liability insurance that is customary only covers damage incurred in the Czech Republic. Premium rate for liability insurance currently costs CK 4,700 month. Vehicles registered in the Czech Republic and driving with Czech license plates must purchase liability insurance through local company. CONTACT SPONSOR FOR FURTHER INFORMATION ABOUT LIABILITY INSURANCE.

9. **SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL**: No restrictions identified.

10. **STUFFED WILDLIFE/ANIMALS/PLANT RESTRICTIONS**: No restrictions identified.

11. **TRANSMITTING EQUIPMENT**:

a. **CBs AND MARS EQUIPMENT**: No restrictions on importation; however, special permission from the local authorities is required prior to use of these items.

b. **AMATEUR/HAM RADIOS**: No restrictions identified.

c. **DISH ANTENNAS**: No restrictions identified.

d. **CORDLESS PHONES**: No restrictions identified.

12. **SEPARATEES/RETIREEES ENTITLEMENTS/LIMITATIONS**: Personnel contemplating retirement, separation or relocating dependents to the Czech Republic should be counseled that all customs entry requirements to include payment of duties and taxes remain the responsibility of the member and is a personal matter between the member and the Government of the Czech Republic.

- c. **HARD LIFT AREA:** United Kingdom is not a hard lift area.
- d. **UNACCOMPANIED BAGGAGE:** No restrictions

Scotland is in a separate rate area. Effective 1 APR 98, Scotland will become an OTO rate area. See record number 44-9 3AF Central Booking Agency (CBA), RAF Mildenhall, England (UK) for specific shipping procedures.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS:

a. **PERSONAL PROPERTY:**

(1) US Military Forces and civilian personnel on official duty in the UK are permitted duty free importation privileges. A DD Form 1434 (United Kingdom Customs Declaration for the Importation of Personal Effects of the US Forces/Civilian Personnel on duty in the UK) must accompany each shipment. Her Majesty's Customs and Excise (HMCE) will not allow onward movement for any shipment without the DD Form 1434. Failure to complete the form and provide it to the carrier at origin will cause significant delays in receiving shipments.

(2) Shipments for dependents (designated location moves, including British Nationals), retirees, separatees, and bluebark shipments may not be permitted duty free importation privileges. These members must personally arrange for customs clearance with HMCE and pay any duty that may be assessed. Clearance of property will be accomplished on a HMCE Form C3. To obtain this form, the member must write to HMCE, 3rd Floor West, West Block Ralli Quays, 3 Stanley St, Manchester M60 9la, or by phone at 011 44-1618-270307. British Embassies or Consulates may also have the form. The member must obtain the form and provide it to the carrier for arrival with the personal property. If this action is not taken, the shipment will be delayed by HMCE officials until the form is received. All additional costs for storage while the shipment is on hold is at the expense of the property owner. Shipments in this category should be consigned to a civilian delivery address. Do not consign to a military installation in the UK. Recommend storage at origin until the member can provide delivery address.

b. **INTRATHEATER SHIPMENTS:** United Kingdom customs clearance procedures for personal property moving under MTMC European Tenders of Service-Direct Deliveries.

(1) HMCE reserves the right to inspect all US forces shipments arriving in the UK and requires notification and appropriate documentation (DD Form 1434, inventory, AE Form 302, and European Community (EC) Form C-88) for all shipments. Please note, shipments which are not consigned for direct delivery to a residence in the UK (i.e., go through a carrier's agent) are not affected.

(2) To meet host nation customs entry requirements, the following actions must be taken:

(a) Provide destination TMO advance movement information via fax. Advance information should include copy of orders, DD Form 1434, UK delivery address, and ETA. If at all possible, this should be provided one week prior to the arrival of shipment in the UK.

(b) Instruct the carrier that AE Form 302 must be surrendered to the destination TMO.

(c) As soon as possible, mail PPGBL/AE Form 68B, DD Form 1299, inventory, DD Form 1434 (with member's signature in ink on all copies) to destination TMO.

(3) Destination TMO's/ITO's:

(a) Upon receipt of faxed information requested in para 2b(2) above, immediately prepare European Community Form C-88 for import IAW 3AFI 24-401. Show ETA of shipment in block 21 of Form C-88 and attach DD Form 1434. Forward both forms to HMCE, Alexandra Dock, Kings Lynn, Norfolk PE30 2ET.

(b) Upon receipt of mailed copies of DD Form 1434 (with original signature) and inventory from origin TMO, forward both documents to HMCE, Kings Lynn.

(c) Upon receipt of AE Form 302 from carrier, complete form IAW USAFER 75-4/USAREUR Regulation 55-355/USNAVEUR Instruction 4600.7e. Show Form C-88 reference number in block 33(keyed to USAFER 75-4, figure d-13, page d-30) "accompanying documents". Forward the above items to HMCE, Kings Lynn.

**NOTE:** Do not place firearms in European door-to-door shipments destined for the UK. A member with a firearm in his/her door-to-door shipment is in violation of UK law when the firearm is delivered to the residence. All firearms must be removed by HMCE prior to delivery. There is no way of obtaining prior approval or a firearms license in advance. Recommend Code 4 for shipments containing firearms.

**c. PREPARATION AND DISTRIBUTION OF THE DD FORM 1434 (UNITED KINGDOM CUSTOMS DECLARATION FOR THE IMPORTATION OF PERSONAL EFFECTS OF THE US FORCES/CIVILIAN PERSONNEL ON DUTY IN THE UK)**

If firearms are included in the shipment, the words "does not" must be lined out and the word "firearms" must be entered after the word explain. For example, should the shipment contain deer antlers, line out "does not" and enter the words "deer antlers - import permit attached" or "not attached" (whichever is applicable) must be entered after the word explain.

(i) Block 5g - Line through the words "does" or "does not" whichever is applicable. If the words "does not" are lined through, then explain.

(j) Block 6a, 6b - Self-explanatory.

(k) Block 6c - Each copy of the DD form 1434 must be signed (original signature) only by the member, in blue or black ink. In unusual or emergency situations, if the member is not available to sign the DD Form 1434, the origin TMO/ITO may notify the destination TMO/ITO the shipment is moving without the completed DD Form 1434 and request the member complete the form on arrival. Ensure this method is closely monitored and coordinated with the destination TMO/ITO and the carrier/agent. Shipments arriving in the UK without the DD Form 1434 will not be released by HM customs until the form is received, therefore, this procedure must only be used in unusual or emergency situations.

(2) **Distribution:**

(a) **ITGBL Shipments:** Carrier/local/port agent will be instructed to ensure both copies of DD Form 1434, a legible copy of inventory, and any import permits, are readily available for customs clearance in the UK. Shipments will not clear customs until DD Form 1434 is made available to HMCE officials.

(1) Original and 1st copy: Carrier/agent with one copy of DD Form 1299 and copies of any import permits (require carrier/agent to acknowledge receipt of these documents).

(2) 2nd and 3rd Copies: Forward to destination TMO/ITO with other advance documents.

(3) 4th Copy: Member will retain this copy.

(4) 5th Copy: Origin TMO file copy.

(b) **DPM Shipments:** DPM contractor will be instructed to ensure both copies of DD Form 1434, one copy of the DD Form 1299, copies of any import permits, and a legible copy of the inventory are inserted in a waterproof envelope (marked "do not remove - for UK customs") and attached to the number 1 container. Reproduced copies of the DD Form 1434, or carbon copied signature, will not be accepted by HMCE officials.

(1) Original and 1st Copy: Give to DPM contractor with one copy of DD Form 1299. TMO/ITO must require the DPM contractor to acknowledge receipt of these documents.

(2) 2nd and 3rd Copies: Forward to destination TMO/ITO with a copy of the inventory and other advance documents.

(3) 4th Copy: Member will retain this copy.

(4) 5th Copy: Origin TMO file copy.

### 3. **CONSUMABLES:**

a. **ALCOHOLIC BEVERAGES:** Alcoholic beverages are restricted items and should not be shipped without consulting the appropriate UK agency or 3AF Traffic Management (3AF/LGTT) for further details. HMCE advises not to include any alcoholic beverages in personal property shipments. Members may be assessed duty and shipments could be delayed.

b. **CIGARETTES/TOBACCO PRODUCTS:** No restrictions identified.

c. **COSMETICS:** No restrictions.

d. **FOODSTUFFS/MEATS:**

(1) Meat and products containing meat including ham, bacon, sausage, pate and canned meat products, poultry and products including canned products containing poultry meat, fish and products including canned products containing fish/shellfish, eggs and products containing egg, milk and other products with a dairy content, honey, gelatin and pet food are prohibited items that cannot be shipped to the UK except for the following personal allowances:

Up to 1kg canned meat products

Up to 1kg fishery products

Up to 1kg dried milk powder

Up to 1kg honey

Fully cooked cakes or biscuits. (CH)

(2) Authorized foodstuffs must be placed into the number one container of personal property shipments destined to the UK and clearly identified on the personal property inventory. Generic, non-specific entries (foodstuffs, food etc., are not advised). Shipment containing foodstuff

of any type may be opened for inspection by UK Coastal Port Health Authorities which will delay delivery to the member at destination. To prevent delays, recommend food items not be shipped with personal property destined to the UK. Additional information on hoof and mouth disease within the USEUCOM AOR can be found at [www.eucom.mil/news/hoof&mouth/index.htm](http://www.eucom.mil/news/hoof&mouth/index.htm). (CH)

(3) Plants, parts thereof, and plant produce including trees and shrubs, potatoes and certain other vegetables, fruit, bulbs, and seeds are prohibited items that cannot be shipped into the UK. (CH)

(4) Authorized foodstuffs must be placed into the number one container of personal property shipments and clearly identified on the personal property inventory. Generic, non-specific entries foodstuffs, food, etc., are not allowed. (CH)

e. **MEDICATION (NARCOTICS)/PHARMACEUTICAL PRODUCTS:** Controlled drugs (which include: opium, heroin, morphine, cocaine, cannabis (marijuana), amphetamines, and lysergic acid(LSD)) are prohibited items that cannot be shipped into the UK.

4. **ELECTRICAL EQUIPMENT:**

a. **HOME COMPUTERS:** No restrictions identified.

b. **TVs:** American televisions are usually not compatible with the British (PAL) broadcasts transmitting system. A current TV license is required for British TV broadcasts. Cost is approximately \$150.00 per year.

c. **OTHER (I.E. COMPATIBILITY, ETC):** Electrical appliances: Not all economy homes have the appropriate connections for washers, dryers, refrigerators and freezers. If you live in off base housing, a transformer is required to convert the electric current from 240 volts to 110 volts. Electrical appliances such as toasters, electric frying pans, broilers, or appliances relying on heating elements will operate on 50 cycle electrical current. This will cause some electrical appliances to operate slower and slightly warmer. Service life of these items may be reduced.

5. **FURNITURE, OVERSIZED:** Anyone moving to the UK should seek the advice of their sponsor when determining suitable furniture for British homes. Most homes are small; large American size furniture may not fit into some rooms. Narrow staircases and passageways may prevent placement of the furniture into the appropriate rooms.

6. **PETS/QUARANTINE:**

a. **Dangerous Dog Act:** It is against the law in Great Britain to possess some types of dogs. The Dangerous Dog Act applies to The Pit Bull Terrier, Japanese Tosa, Fila Braziliera and the Dogo Argentino. The Act makes it a criminal offense to keep fighting dogs in public unless it is muzzled and on a leash. The animal must also be under control of an individual at least 16 years of age. Violators could face fines up to 2,000 pounds sterling (or approximately \$3,400.00) and six months in prison. The Act also prescribes strict control on dogs of all breeds. People who allow their dog to be dangerously out of control in public will face the same fine. If a dog actually causes injury, the owner will face an unlimited fine and up to two years imprisonment. Additionally, the animal could be destroyed. It is also illegal to breed, sell, exchange, give away, or abandon a fighting dog, or allow the animal to stray. Exemption to the current law is available only if the designated breeds have been neutered, tattooed with a special number, permanently identified with a special approved implant chip. The owner must obtain liability insurance. It is highly recommended that members not import any cross breed dog which may be included in the above description. Affected animals will be exported or destroyed.

b. **The Pet Travel Scheme (PETS):** See <http://www.defra.gov.uk/animalh/quarantine/index.htm>. The Pet Travel Scheme (PETS) is the system that allows pet animals from certain countries to enter the United Kingdom without quarantine as long as they meet specific criteria. Effective 11 December 2002, properly documented cats and dogs coming from the United States and Canada will no longer have to go through the six-month quarantine period when entering the United Kingdom. The scheme only applies to cats and dogs, including guide dogs and hearing dogs. The Pet Travel Scheme only operates on specific sea, air and rail routes to England, <http://www.defra.gov.uk/animalh/quarantine/PETS/procedures/support-info/routes.shtml>. Pets are not currently authorized to enter the United Kingdom on military aircraft, i.e., AMC Patriot Express. The list of approved routes and transport companies is in the process of being updated to include those for the U.S. and Canada. People who are due to move to the United Kingdom in the meantime should contact DEFRA directly for more information at <http://www.defra.gov.uk/animalh/quarantine/index.htm>.

c. To bring a cat or dog into the UK under the Pet Travel Scheme from qualifying countries, see <http://www.defra.gov.uk/animalh/quarantine/PETS/procedures/support-info/countries.shtml>. You must carry out the following procedures in the order shown. Pet-owners should make sure that they have read and understood all of the information available before bringing pets to the UK. A pet cat or dog will have to meet certain conditions to be able to enter the UK without quarantine. It will have to be:

1. Identified with a microchip.
2. Vaccinated against rabies (but not before it is 3 months old.)
3. Successfully blood tested at a laboratory recognized by DEFRA.
4. Issued with an official PETS certificate.
5. Treated against ticks and a tapeworm treatment and issued with an official certificate of treatment.
6. Pets can be fitted with a microchip in any country. The rabies vaccination (including boosters), blood sampling, issuing the PETS certificate, the tick and tapeworm treatment and issuing the official certificate of treatment must all be carried out in the British Isles, the Republic of Ireland or a qualifying country.
7. Pets may not enter the UK under PETS until six months have passed from the date that the veterinarian took the blood sample that led to a successful test result. If the vet signs the PETS certificate after that six-month period has passed, the pet may enter the UK immediately. Only certain routes and transport companies can be used to bring cats and dogs into the UK. Owners of pets entering the UK from outside the European Community are required to complete Customs formalities. An agent, travel company or airline should be able to do this for you and you will probably be charged. Alternatively, you might be able to make your own arrangements. This would involve contacting the Customs authorities at your arrival point in the UK to obtain details of the necessary procedures and the appropriate Customs form. You are advised to discuss these charges with your agent before you travel as they might be included as part of a package.

8. You can get more information about PETS by contacting DEFRA:

d. Pet Registration Checklist

1. 2 copies (for each pet) of a DD2343 with the service members or responsible civilian employee's personal and pet information filled out and your installation, unit and DEROS annotated in the Organization block. If you live off base include your off base address in the Laboratory Procedures section. (A DD Form 2343 can be downloaded at <http://web1.whs.mil/forms/DD2343.pdf>.)

2. 1 copy of orders assigning the individual to the UK.

3. 1 photocopy of your ID card.

4. 1 copy of the animal's vaccination record/medical record.

5. 1 copy of the DD Form 2343 will be stamped and mailed back MPS as proof of registration. Incomplete packets will not be registered and will be mailed back.

6. The registration packet can be mailed to:

NEVD Veterinary Clinic  
Unit 5095 Box 280  
APO AE 09461-5280

e. Quarantine: There is a 6-month quarantine requirement for dogs and cats entering the United Kingdom which do not qualify under the Pet Travel Scheme. The costs for maintaining pets in approved quarantine kennels is expensive and could range up to \$2,000.00 for the 6-month period. Other fees (such as collection of pets from the airport, handling and customs clearance, required shots, veterinary fees, and grooming) are not included in quarantine fees. Advance arrangement for approval must be made with the DEFRA at the above address. As of 11 December 2002, properly documented cats and dogs coming from the United States and Canada will not longer have to go through the 6-month quarantine period when entering the United Kingdom.

7. **PRIVATELY-OWNED FIREARMS (POFs), WEAPONS, AND ASSOCIATED ITEMS:**

a. **PROHIBITED ITEMS:** The following categories of weapons and related items are prohibited in the UK and cannot be shipped into the UK. Licenses are not obtainable for these items in the UK (see paras 7b thru 7d for permitted firearms and requirements). All prohibited weapons are seized and destroyed by HMCE officials. In addition, importation or possession of handguns (pistols/revolvers) is an offense punishable by a lengthy prison

sentence. To obtain further information, please write HMCE, Alexandra Dock, Kings Lynn, Norfolk PE30 2ET, or fax 011-44-1553-767140. Prohibited weapons and associated items include:

- (1) Mace and tear gas
- (2) Flick (switchblade) knives, butterfly knives, swordsticks, knuckle-dusters, telescopic truncheons and some types of martial arts equipment
- (3) Burst fire weapons (includes fully automatic firearms)
- (4) Self loading (includes semiautomatic firearms)
- (5) Pump action rifles (except those chambered for .22 rim fire ammunition)
- (6) Repeating shotguns with a barrel less than 24 inches or overall length less than 40 inches (combat type shotguns)
- (7) Any firearm disguised as another object (e.g., walking stick or umbrella shotguns, air canes, pen pistols and belt buckle pistols)
- (8) All handguns (pistols and revolvers)
- (9) Stun guns
- (10) **All Ammunition and Explosives:** Ammunition and explosives, which includes fireworks, are prohibited items that cannot be shipped into the UK (DOD also prohibits the shipment of ammunition/explosives in personal property shipments).

b. **RESTRICTED ITEMS:** The following categories of weapons and related items are restricted and should not be shipped without consulting the appropriate UK agency or 3AF Traffic Management (3AF/LGTT) for further details.

- (1) All firearms not listed in the prohibited category, (see para 7a(1) above).

- (2) BB pistols, gas pistols, and similar weapons

c. **PERMISSIONS:** The following restricted weapons and related items may be permitted into the UK. However, local constabularies make case-by-case decisions on issuing firearms licenses and shotgun certificates. (**NOTE:** Shotguns may fall within the prohibited firearms category depending on the characteristics of the weapon):

- (1) **Firearms:** This category includes:

- (a) Rifles that are not on the prohibited list.

- (b) Repeating shotguns, not on the prohibited weapons list, capable of holding more than two shells (including magazine or combination of magazine and breach). Nearly all American repeating shotguns will fall into this category and will require a firearms certificate. Members may want to modify the shotgun by the installation of a permanent plug certified by a British proof house. Modification could cost \$100.00 or more, but it would allow licensing of the weapon under a shotgun certificate, which costs approximately \$75.00 for five years.

- (2) **Shotguns:** Only shotguns not on the prohibited weapons list (shotguns with a barrel less than 24 inches long or an overall length of less than 40 inches fall in the prohibited category) or in the firearm category can be considered shotguns under British law. Basically, the shotgun may not be capable of holding more than two shells. If the shotgun has a combination magazine/breach capacity of more than two shells, as a minimum it will fall into the firearms category and must be licensed accordingly. Double-barreled shotguns are generally accepted in the UK and cause the least amount of difficulty to license.

- (3) **Toy-Related Guns:** No restrictions.

d. **POSSESSION AND LICENSING OF HANDGUNS/RIFLES/SHOTGUNS:**

- (1) Importation or possession of handguns (pistols/revolvers) is a criminal offense under British law. See 7a, only certain firearms may be permitted in the UK. We strongly recommend only shotguns; in the shotgun category described above be shipped. Rifles and repeating shotguns should be placed in storage or left with relatives. Use of rifles and shotguns is severely limited.

- (2) All firearms (including bb guns, air weapons, etc.) are subject to inspections on arrival. The member and carrier must ensure firearms are placed in the number one container for easy access by customs officials. They must also be properly identified on the DD Form 1434 (Section 5d). If the firearm is not located in the number one container, the entire shipment will be searched until the firearm is located and removed. Personnel failing to follow these instructions will experience severe consequences and significant delays in receiving their household goods. Failure to claim firearms on the DD Form 1434 is an offense punishable under the UCMJ.

- (3) Firearms including shotguns will be detained by customs officials for up to 90 days while the member accomplishes all licensing and registration paperwork. The member must notify customs officials once all licensing requirements are complete. The member must also make arrangement to pickup the firearm(s) from the Queen's bonded warehouse.

(4) Firearm and shotgun certificates are issued by the local constabulary on a case-by-case basis. Issuance is not automatic. The certificate specifies how the firearm listed may be used and stored. US forces personnel are normally not given permission to remove their private firearms from the US Armory unless they are members of an approved rifle club. It usually takes at least 9 months to become such a member. The firearm certificate will cost approximately \$100 for each weapon and will be good for 5 years.

(5) **Application for the Grant/Renewal/Variation of a firearm certificate (HM Firearms Form 1 rifles, etc.)** The cost is approximately \$100.00 and the certificate is renewable after 5 years at approximately \$80.00 per renewable period (five years).

(6) **Application by a visitor to Great Britain for the grant or renewal of a shotgun certificate (HM Form 71 for shotguns only):** The cost is approximately \$75.00 and the certificate is renewable after five years at approximately \$31.00 per renewable period.

**NOTE: As these are only applications for a firearms certificate, UK permission will not necessarily be granted. US Navy personnel assigned to COMNAVACT London must contact their local unit of assignment for instructions.**

8. **PRIVATELY OWNED VEHICLES (POVs) (INCLUDING MOPEDS AND MOTORCYCLES):**

a. **POVs/MOTORCYCLES/MOPEDS:** (includes information on prohibited vehicles, colors, etc.)

(1) Unaccompanied members, US Forces Military, and civilian personnel, are allowed to import or purchase one (1) duty free vehicle.

(2) Accompanied members with spouse are allowed to import or purchase two (2) duty free vehicles. Only one vehicle may be shipped per active duty service member or DOD employee at Government expense. The importation allowance has no bearing on the one POV per active duty member shipping entitlements.

(3) Members exceeding the importation allowance will be assessed a valuation duty by HMCE. The current duty is 33 percent of the current UK market value of the vehicle. This percentage is subject to change. Payment must be made prior to taking possession of the vehicle.

(4) All motor vehicles (including mopeds and motorcycles) will not be customs cleared until the member arrives on station and completes HMCE Form 941. This form is only available in the UK and is issued by the Security Police Pass and Registration Section (or similar agency) at each installation.

(5) Motorcycles and mopeds shipped in household goods must be clearly identified on the DD Form 1434, and packed in a separate container to prevent the members entire shipment from being delayed while HMCE locates and removes the motorcycle from the shipment.

b. **GASOLINE/CATALYTIC CONVERTERS:** There is adequate unleaded fuel available on and off base for operation of catalyst equipped POVs.

c. **INSURANCE/SAFETY REQUIREMENTS:**

(1) Operation and licensing requirements:

(a) Before a motor vehicle can be operated on UK highways each operator must be properly insured.

(b) Military or DOD civilian personnel and their dependents must possess a USAFE driving permit (USAFE Form 374). The permit is issued to those personnel possessing a valid US driving license, the host country's license, another country's license, or a permit issued by another military authority (i.e., SF Form 46 or US Forces Japan) and after completion of a local driving conditions course.

(c) UK provisional license (learners permit) and UK operators license (drivers license) may be obtained, but the process is costly and the exams are generally regarded as the most difficult in the world.

(d) To operate a motorcycle/moped in the UK all personnel (military, DOD civilian, and dependents) must have an endorsement on their stateside drivers license reflecting they can operate a motorcycle (this statement covers mopeds). They must also attend course seven and satisfactorily complete a hands on driving test conducted by a certified ground safety instructor in the UK. Each installation commander may establish other requirements and testing. Personnel without a stateside motorcycle license or an endorsement may operate a motorcycle/moped after satisfactorily completing a safety course in the UK. Dependents without a stateside license will have to obtain a United Kingdom provisional and then a United Kingdom operators license.

**NOTE:** Navy personnel are not required to possess a USAFE Form 374 nor attend safety course seven.

(2) **Required documents to pickup vehicles from the water port:**

(a) Proof of UK insurance.

(b) USAFE Form 374 (except Navy personnel and British/international license holders).

(c) DD Form 788.

(d) Extra set of keys.

(3) **Vehicle Registration and Testing:** All vehicles must be registered with the appropriate security police pass and registration office within 72 hours after pickup from the port. Any vehicle 3 years old or older must receive a test prior to base registration. Testing will cost approximately \$50.00; however, the vehicle test is more detailed than stateside inspections. Repairs required to pass testing can be very expensive. Most US vehicles must undergo major changes or additions to the vehicle lights, specifically the headlights, turn signals, white front park lights, and rear fog lights. The cost of the light conversion on some newer model POVS can be expensive or nearly impossible to convert. Recommend owners with newer model vehicles check with US vehicle dealership about the light conversion prior to shipping vehicle. Testing is mandatory and must be performed before a vehicle can be taxed and licensed in the UK. The British Department of Transport will only accept original state title, US Government (DD Form 430) or foreign Government titles as proof of ownership before the vehicle can be taxed and licensed in the UK.

9. **SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL:**

a. **Sexually Explicit Material** are prohibited items that cannot be shipped into the UK. For material to be considered sexually explicit and within the prohibition it must clearly show sex acts taking place (i.e., penetration or oral contact with the genitals must be clearly shown). Simulated scenes where the point of penetration etc., is not in camera view are not considered obscene. In more unusual areas, such as bondage or sado-masochism, key factors would be tying up in unnatural positions, the use of gags, and the depiction of violence in a sexual context (e.g., graphic torture and rape).

**NOTE:** The restrictions apply to all mediums, videotapes, magazines, cinematography films, computer disks, CD-ROM, laser disk, etc.

b. **Material Depicting Violence:** This must be visually explicit to bring it within the prohibition. Shipments containing articles portraying excessive violence against humans and animals such as scenes of decapitation, excision of limbs, gouging of eyes, cannibalism, garroting, torture, and dog fighting may not be imported. In general terms, scenes of mutilation are considered to fall within the prohibition. In particular, graphic scenes of violence against women also fall within the scope. When considering this type of material it is useful to compare scenes found in legally produced 18 rated UK videos. Comparisons should not be made with scenes in films shown at the movie theater. The criteria applied to films for movie theater presentation is not as strict as for video material where access by children cannot be effectively controlled.

**NOTE:** The restrictions apply to all mediums, video tapes, magazines, cinematography films, computer disk, CD-ROM, Laser disk, etc.

10. **STUFFED WILDLIFE ANIMALS/WOOD ARTICLE RESTRICTIONS:**

a. Wood with bark attached (including such wood in the form of carvings, rough furniture etc.) are restricted items and should not be shipped without consulting the appropriate UK agency or 3AF Traffic Management (3AF/LGTT) for further details.

b. Most animal and bird articles derived from rare species whether alive or dead (stuffed), including fur skins, ivory, reptile leather, and goods made from them are restricted items and should not be shipped without consulting the appropriate UK agency or 3AF Traffic Management (3AF/LGTT) for further details.

c. **WILDLIFE TROPHIES:** (Deer antlers, moose racks, elk horns, etc.) prior to shipment of items in the restricted category personnel should contact the Department Of Environment, Wildlife Conservation, Licensing Section, Tollgate House, Houlton Street, Bristol BS2 9DJ for permission to import these items. Failure to do so could delay clearance of the shipment on arrival.

**NOTE:** Word of caution about the term "stuffed animals": The term "stuffed animals" in the UK means wildlife trophies. Ensure the carrier annotates stuffed toys on the inventory as stuffed toys instead of stuffed animals to avoid shipment being delayed while UK customs inspect the items. These are restricted items and should not be shipped without consulting the appropriate UK agency or 3AF Traffic Management (3AF/LGTT) for further details.

11. **TRANSMITTING EQUIPMENT:**

a. **CBs/RADIO TRANSMITTERS:** Walkie-talkie's, citizen's band radios, etc., capable of operating on certain frequencies prohibited for use in the UK. To obtain further information, please write to HMCE, Alexandra Dock, Kings Lynn, Norfolk PE30 2ET, or fax 011-44-1553-767140.

b. **AMATEUR/HAM RADIOS:** No restrictions identified.

c. **MARS EQUIPMENT:** No restrictions identified.

d. **DISH ANTENNAS: Satellite dishes:** Personal satellite dishes can be shipped to the UK as long as they are only used for the reception of television programs intended for general reception. Installation of a satellite dish cannot cause interference to other users. Permission from the local council responsible for zoning restrictions and licenses must be obtained prior to the dish being installed. The license is obtained from the Department Of Trade and Industry, Room 513, Waterloo Bridge House, Waterloo Road, London SE1 8VA.

e. **CORDLESS PHONES:** No restrictions identified.

12. **SEPARATEES/RETIREEES ENTITLEMENTS/LIMITATIONS: SEE PARAGRAPH 2.a (2)**

13. **OTHER:**

a. **Counterfeit Money:** Counterfeit coins and bank notes are prohibited items that cannot be shipped into the UK.

b. **Lawn Equipment:** Lawn mowers and other garden tools should be shipped; most homes have gardens which require maintenance.

c. **Boats, Outboard Motors, Boat Trailers, And Other Boat Accessories:**

(1) US Forces Military and civilian personnel, on official duty in the UK, may import boats, outboard motors, boat trailers, and other boat accessories duty free in household goods. Boats and accessories must not be lent, hired, or disposed of in the UK. Also, they must not be of UK origin. There is no need to register the boat with the Department of Transport unless it will be used for commercial purposes. The boat will have to be registered locally with the water authority where the boat will be used.

(2) If the boat will be going across the English Channel, it must be registered with the Royal Yachting Association in London. After the boat has cleared customs and is ready for pickup, the trailer must have a rear license plate with the same number as the towing vehicle.

#### 1. SHIPMENT INSTRUCTIONS:

a. **WEIGHT RESTRICTIONS:** Since all residences are Government furnished, paragraph U5315 B. of the JFTR applies to service members in Ethiopia. Members weight allowance is 25 percent or 2,000 lbs (whichever is greater) of the amount authorized in paragraph U5310 of the JFTR.

b. **CONTAINER/CRATING REQUIREMENTS:** Due to multiple airlines and aircraft involved in the shipment of personal effects, the boxes must be no larger than the dimensions acceptable by the smallest cargo plane. Boxes should be no more than 205 cm long, 145 cm wide, and 155 cm high. In the past, boxes have been broken down to meet these requirements, with resultant delay of delivery and loss of items.

c. **HARD LIFT AREA:** Ethiopia is designated as a hard lift area for all service members. All HHG/UB shipments are sent via commercial air. There is no scheduled AMC access to Ethiopia. All shipments should be routed through London, UK or Frankfurt, Germany, as these are the only European airports with service to Addis Ababa.

d. **UNACCOMPANIED BAGGAGE:** No restrictions identified.

#### 2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS:

a. Personnel on the Diplomatic list (Attachés) are eligible for the exemption of customs and excise tax for their entire tour. Staff members (Administrative and Technical Staff members, non-Attachés) are only entitled to duty-free entry for the first six months of their tour. Shipment of personal property and POV must be scheduled to arrive in Ethiopia within the first six months.

b. Customs clearance is handled by the General Service Office (GSO) at the Embassy. In order to track shipments, initiate customs clearance, and ensure the promptest delivery of the containers to the Embassy, the member must provide the GSO with the airway bill number of the shipment prior to arrival (either by telegraphic means or by FAX). Additional information needed by the GSO is; number of pieces, weight, packing list, and flight number (if known by member).

#### 3. CONSUMABLES:

a. **ALCOHOLIC BEVERAGES:** Importation of alcoholic beverages in personal property shipments is prohibited.

b. **CIGARETTES/TOBACCO PRODUCTS:** Shipments of cigarettes/tobacco products between CONUS and overseas or within overseas countries may be shipped subject to host country requirements/restrictions identified. When undefined or in doubt, the TMO will request clarification by message from the responsible transportation authority at destination.

c. **COSMETICS:** No restrictions identified.

d. **FOODSTUFFS/MEATS:** Consumable items/foodstuffs should be listed as household effects and not be marked in any way as to indicate contents as foodstuffs.

e. **MEDICATION (NARCOTICS)/PHARMACEUTICAL PRODUCTS:** No restrictions identified.

4. **ELECTRICAL EQUIPMENT:**

a. **HOME COMPUTERS:** No restrictions. Due to pouch size limitation, computer must be sent as part of HHG or UB shipment. They should not be accompanied baggage upon arrival in Addis Ababa.

b. **TVs/VCRs:** No restrictions identified.

c. **OTHER (i.e. COMPATIBILITY, ETC):** No restrictions identified.

5. **FURNITURE:** Residences of all service members are furnished. This includes beds, dressers, couches, reclining chairs, coffee tables, entertainment centers, dining room tables, all major appliances, and microwave ovens. Upon arrival, a welcome kit is provided to be turned back in to GSO upon arrival of HHG/UB shipments. The kit includes linen, towels, dishes, and pots/pans. Voltage in Ethiopia is 240 volt 50 megahertz and is subject to extreme fluctuations and frequent power outages. Transformers are provided.

6. **PETS/QUARANTINE:** Currently, Ethiopian customs regulations governing the importation of pets are not stringent. However, regulations in Ethiopia change with little or no advance notice. Therefore, individuals wishing to ship a pet should contact the General Services Office immediately upon notification of assignment. Pertinent information needed includes: country where pet will be shipped from, type of pet, sex, age, and record of inoculations.

7. **PRIVATELY OWNED FIREARMS (POFs):** Importation of privately-owned firearms is prohibited (applies to Diplomatic Staff and to Administrative and Technical Staff).

8. **PRIVATELY OWNED VEHICLES (POVs):**

a. **POVs:**

(1) The Ethiopian Government's policy is one duty-free imported vehicle per member (applies to Diplomatic Staff and to Administrative and Technical Staff). POV's of Administrative and Technical Staff personnel are entitled to duty-free entry within the first six (6) months of the member's arrival. POV's may only be sold within the last six (6) months of the member's tour (applies to Diplomatic Staff and to Administrative and Technical Staff).

(2) All vehicles must be contracted with the Port of Djibouti. Djibouti is the transshipment point. The Port of Asseb, Eritrea has proven unreliable as a transshipment point (long delays in processing, overland transshipment-with damage to vehicles, and demurrage fees for the delay in shipment). Shipping time varies between 6-8 months.

(3) The American Embassy in Addis Ababa, Ethiopia, recommends members on a 1-year rotation to Ethiopia be restricted from shipping a POV to this country. Due to the fact the average shipping time from CONUS is 6-8 months, and the cost is \$16,000 per vehicle. Shortly after arrival, the vehicle must be processed for return to CONUS. Members assigned to Ethiopia for a 1-year rotation will be authorized storage of their POV under the provisions of Paragraph U5805, Joint Federal Travel Regulation(JFTR), Volume I for the duration of their assignment.

(4) All vehicles must be containerized for transport via ship. POV should be consigned to American Embassy, Addis Ababa, Ethiopia (marked with members name and SSN). The original bill of lading must be forwarded to the General Services Officer, American Embassy, PO Box 1014 Entoto St., Addis Ababa, Ethiopia by express courier service. It is essential the original bill of lading be received by the GSO prior to the vehicle's arrival in the port of Djibouti. This enables their GSO to expedite the follow-on shipment of the vehicle to Addis Ababa, via rail, and submit the required application to the Ethiopian Ministry of Foreign Affairs for duty-free entry, and to prepare the necessary customs clearance documents.

(5) Telegraphic advice must be forwarded to post providing engine number, chassis number (VIN), engine capacity, value of vehicle, color or vehicle, weight of vehicle, and maximum number of passengers.

b. **MOTORCYCLES/MOPEDS:** No restrictions identified.

c. **GASOLINE/CATALYTIC CONVERTERS:** There is no unleaded gasoline available in Ethiopia. Catalytic converters must be removed prior to shipment of vehicle.

b. **Quarantine Requirements:** The GORF Ministry of Agriculture (Quarantine) department requires that animal skins, rugs and feathers be dry cleaned and fumigated before shipping to Fiji. A receipt/certificate showing that this has been done would facilitate entry of these items. Do not ship untreated/unpolished/unvarnished cane furniture since they may be denied entry.

3. CONSUMMABLES:

a. **ALCOHOLIC BEVERAGES:** No restrictions.

b. **CIGARETTES/TOBACCO PRODUCTS:** No restrictions.

c. **COSMETICS:** No restrictions.

Current requirements require animals arriving from Hawaii to spend an additional month in quarantine in Fiji. Animals arriving from Australia and New Zealand spend one week in quarantine in Fiji, provided that they were resident in Australia or New Zealand for at least six months. The application/approval process remains lengthy and cumbersome. Therefore, if you plan to import a pet, please contact the administrative officer early to ascertain: (1) entry is allowed for a particular breed, and (2) entry requirements, so that advance arrangements may be made to facilitate your pet's timely arrival in Fiji.

7. **PRIVATELY OWNED FIREARMS (POF):** Firearms are prohibited.

8. **PRIVATELY OWNED VEHICLES (POVs):** POVs should be containerized. GORF allows only 20 ft containers.

The Government of the Republic of Fiji (GORF) however, has allowed importation of left hand drive (LHD) vehicles by diplomatic, exempted persons. Restriction exists on the resale of LHD vehicles in country, which would require members to resell to other diplomats only or to export the car to your next duty station. All cars must be cleaned before they are shipped in order to pass quarantine inspection for dirt and soil. Service on American-made vehicles is available, but spare parts may be difficult to obtain. Members must have a valid U.S. driver's license to apply for a local driver's license, to avoid going through the local testing process.

It usually takes two weeks to obtain Diplomatic or Service card issued by MFA of Georgia, a copy of which is strictly required by local customs for shipment clearance. Absence of Diplomatic/Service card causes major difficulties and delays with customs clearance of personal belongings, and delay delivery of property.

4. **ELECTRICAL EQUIPMENT:**

a. **HOME COMPUTERS:** No restrictions identified.

b. **TVs/VCRs:** No restrictions identified.

5. **FURNITURE, OVERSIZED:** Service members shipping large items such as king and/or queen size box springs and mattresses, oversized sofas, or other large furniture items that cannot be disassembled, may encounter problems when residing in government or economy housing due to narrow stairwells. Economy living quarters are generally smaller than those in CONUS. Washers, dryers, ranges, refrigerators, kitchen cabinets, and wardrobes are furnished for government and economy quarters.

6. **PETS/QUARANTINE:**

a. **GENERAL:** A health certificate no older than 20 days prior to shipment (10 days prior to shipment for intratheater transfers), a statement certifying pet originated from an area which had no rabies reported within a 12.5 mile radius, rabies shots are required not earlier than 30 days prior to and not more than 1 year from date of entry into Germany, and one copy of military orders must accompany the pet. Pets arriving unaccompanied by their owners require additional documentation from the host nation officials for import. Questions concerning unaccompanied pet importation or regarding the importation of animals other than dogs and cats, as well as plants and plant parts, may be submitted before importation to either a local German customs officer or may be referred to the USEUCOM Customs Executive Agency via the "Customs Hotline". Within Germany call DSN 381-7610/CIV 0621-730-7610 or from the CONUS 011-49-621-730-7610. E-mail inquires may be sent to or. Written requests may be forwarded to the USEUCOM CUSTOMS EXECUTIVE AGENCY, ATTN: ECJ1-CEA-S, Unit 29931, APO AE 09086.

b. **RESTRICTIONS:** The German Government passed a law that prohibits importing four breeds of dogs and crossbreeds of these dogs into Germany. The four breeds are the pit bull, American Staffordshire terrier, Staffordshire bull terrier, and bull terrier. This law also placed restrictions on several other dog breeds that are considered potentially dangerous. Dog owners who need information on host-nation restrictions should contact their supporting military veterinary treatment facility (VTF). U.S. Army veterinary personnel can provide information on dangerous dogs and help personnel register their dogs with local authorities if required by host-nation law. The 100th Medical Detachment website at <http://vets.amedd.army.mil/100th%20bn/index.htm> lists VTF locations and provides more information about dangerous dogs. (CH)

7. **PRIVATELY OWNED FIREARMS (POFs)**: To avoid the possibility of German criminal prosecution for unauthorized possession of weapons or the possibility of punishment under the Uniform Code of Military Justice, privately owned firearms will not be included in household goods/unaccompanied baggage shipments, handcarried, or transported in luggage to Germany unless the owner possesses a valid German Weapons Possession Card (Waffenbesitzkarte) specifically listing those firearms. Antique POFs manufactured during or before 1898, and single-shot black powder POFs are not required to be registered with the German authorities, and may be shipped or transported in luggage to Germany. Headquarters, USAREUR and German Federal Ministry of the Interior are developing procedures to enable military and civilian personnel assigned to Germany and their dependents to obtain these cards through the USAREUR Central Registry. Members who have in their possession Waffenbesitzkarte from a previous assignment in Germany are authorized to ship POFs, as long as the Waffenbesitzkarte covering the POFs to be shipped has not expired. Copy of the Waffenbesitzkarte must accompany shipment. (CH)

8. **PRIVATELY OWNED VEHICLES (POVs)**:

a. **POVs**: The inland pickup and delivery of POV in Germany (program applies to personnel assigned to locations in the Federal Republic of Germany, Giessen and points south). Berlin and points north of Giessen are not included in this program.

(1) **Military Communities Served**: Each Area Support Group (ASG) Vehicle Processing Center (VPC) location and telephone numbers are provided in PPCIG, VOL II, Overseas, Appendix IV, Outloading Port for Privately Owned Vehicles.

(2) **Entitlement**: POV larger than 20 measurement tons (800 cubic feet) will incur excess cost unless an exception is granted for medical need (i.e., handicapped family members) or when joint spouse military couples elect to combine their 20 MT entitlement into one 40 MT entitlement.

(3) **Inbound shipments (to Germany)**. To order, owner needs to:

(a) Obtain USAREUR POV driver's license. (See b below)

(b) Obtain POV insurance.

(c) Obtain verification that POV has arrived at local VPC.

1. Post card from local VPC.

2. Name on weekly arrival list posted at local TMO/ITO  
(list provided by contractor).

3. Copy of FAX listing via ITO for direct inquires.

(d) Bring copy of PCS orders, driver's license, DD Form 788, USAREUR Registration ID and proof of insurance to contractor's office.

(e) Ensure any damage or missing items are noted on DD FORM 788.

(f) Show at scheduled time to receive POV.

(g) Proceed to POV safety inspection station.

(h) Proceed to vehicle registration.

(4) **US State license plates** are not required on POVs arriving in Germany since USAREUR plates are issued when the member picks up the POV. As some states provide a partial refund for plates turned-in prior to expiration date, members have the option to remove the plates when the POV is turned-in to the port for shipment. It is a member's responsibility to remove the plates. A claim for lost plates will not be authorized.

(5) **POV Tracing:** Log into the website [www.whereismypov.com](http://www.whereismypov.com), or contact the destination Vehicle Processing Center (VPC) toll free at 0130-842030.

b. **USAREUR CERTIFICATE OF LICENSE:** In order to register and operate a POV in Germany, a USAREUR certificate of license must be obtained which requires passing a very stringent test on European driving rules, requirements, and road signs. An individual must be in possession of a valid U.S. state license, or a valid license from another country, as a prerequisite for taking the test. Unit issued military operator's permits also meet the requirement for obtaining a USAREUR certificate of license, however, these permits can only be issued to service members and civilian employees. Family members cannot be issued a military operator's permit, therefore, family members not in possession of a valid license from the USA or another country, cannot be issued a USAREUR certificate of license. Any additions of different classes, such as a motorcycle endorsement must first be authorized on the valid state or country license. USAREUR is no longer permitted to issue learner's permits, or instructor's permits; and parents are not allowed to "teach" family members how to drive. Individuals arriving in Germany without a valid license desiring to obtain a USAREUR certificate of license must first complete requisite training and licensing in CONUS, or complete local German training and licensing requirements prior to being issued a USAREUR certificate of license. Cost of local training is expensive.

c. **MOTORCYCLES/MOPEDS:**

(1) **Air Force personnel:** must have a valid state or country license with a motorcycle endorsement, and a course completion card from the Motorcycle Safety Foundation in order to be licensed to operate a motorcycle in Germany. Persons who do not have a valid state or country motorcycle license will be required to be licensed at a German driving school at personal expense (approximate cost \$1400.00).

(2) **Army personnel:** must have a valid state or country license with a motorcycle endorsement, and are required to attend a motorcycle orientation course, take a 30-question written test, and then attend a motorcycle proficiency course in order to be licensed to operate a motorcycle in Europe. There is no cost for completion of these requirements. Persons who do not have a valid state or country motorcycle license will be required to be licensed at a German driving school (at personal expense, see approximate cost in (1) above), or obtain a state motorcycle license before being licensed to operate a motorcycle in Germany.

(3) **Accompanied personnel:** Two POVs and two motorized recreational POVs, or one motorized and one non-motorized recreational vehicle are permitted to be registered in Germany.

(4) **Unaccompanied personnel and single parent:** One POV and one motorized or non-motorized recreational POV are permitted to be registered in Germany.

(5) **Non Temp Storage (NTS):** Customers must be briefed prior to shipment of a motorcycle as to potential costs and the option to place their motorcycle in NTS.

(6) **Alteration/Motorcycles:** Motorcycles will be rejected when the motorcycle has been altered or modified to change the center of gravity or wheel base from what was established by the manufacturer.

**NOTE:** A recreational vehicle is defined as a POV normally used only during certain seasons (for example, motorcycle, camper, motor home, and trailer).

c. **GASOLINE/CATALYTIC CONVERTERS:** No restrictions.

d. **INSURANCE/SAFTY REQUIREMENTS:** Service members should be Informed of the higher insurance rate for Privately Owned Vehicles (POV) in Germany, before shipping their POVs. Only insurance companies approved by the German Government are authorized to issue a 29a (proof of German Minimum third party liability insurance) to register a POV in the U.S. Forces system in Germany. There are two insurance systems service members can choose from in Germany. NATO Tariff and German Tariff. Several companies issue policies in the United States for registration of POVs in Germany. The differences in the systems are the following.

(1) **NATO Tariff:** Annual tariff rates are based on age and marital status (all payments can be made in US currency). The most expensive category personnel are individuals under 25 years of age and single.

(2) **German Tariff:** Rates are based on POV HP/PS/or KW, location where POV is registered and individual's driving record (substantiated by letter from service member's home insurance office in U.S. only). Payment in the local German currency is required.

e. **SAFETY REQUIREMENTS:** A POV shipped to Germany must also pass USAREUR safety standards before it can be registered for driving in Germany. The cost of repair work and parts are very expensive in Germany and should be done in CONUS before POV is delivered to the Vehicle Processing Center. Counselors need to stress to each member on orders to Germany. It is the member's responsibility to ensure POV meets USAREUR safety standards. This is best done before making delivery to the POE. The most common causes of POV inspection failures in Germany are:

(1) **Tires:** All tires must have at least 1.6mm tread over the complete tire surface. No regrooved tires are allowed; snow tires (if on vehicle) must be on the drive wheels; and there can be no mixing of radial and conventional tires.

(2) **Exhaust System:** No rusted out or leaking exhaust system components allowed. Exhaust systems with cutouts, fiberglass-packed, or straight through exhaust systems are not allowed.

(3) **Brakes:** A mismatch of 20 percent or more between wheels, as measured on the brake wheel drag machine. Hand brake must hold vehicle on incline.

(4) **Wheel Alignment:** Wheels must be able to be turned to full right or full left without jamming or rubbing any part of vehicle; tie rod steering arm assemblies must not be damaged or worn.

(5) **Lights:** All installed lights must be operational.

(6) **Exterior Condition:** Missing fenders, broken windows, extensive body damage, deterioration, broken springs, or oil leaks are not allowed. Foreign manufactured vehicle frames are usually an integral part of the body; therefore, rust damage is critical and will necessitate costly reconstruction to pass the inspection.

(7) **Horns:** POVs must be equipped with a horn and it must be operational.

(8) **Modifications:** Any modifications changing the vehicle body style (as to engine not being covered), altered bumpers which are not to manufacturers specifications, missing or damaged running boards, or tires protruding beyond the fender wells are not allowed. Dark tinted glass on the front driver's and passengers doors or on the front windshield that comes down from the top of the windshield more than 4 inches that makes it impossible to see the driver and occupants is prohibited by German law.

9. **SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL:** No restrictions identified.

10. **STUFFED WILDLIFE/ANIMALS/PLANT RESTRICTIONS:** No restrictions identified.

c. In the US the FCC verifies all transmitters (legal) sold adhere to the US Spectrum Allocation Tables and are marked with FCC numbers (i.e., FCC: 1234567). Transmitters with the FCC numbers are not legal for use in Germany.

d. The following U.S. manufactured items are NOT authorized for use in Germany: CB Radios, cellular phones, cordless phones, baby monitors, wireless intercoms, radio frequency remotes, radio controlled vehicles, and radio frequency wireless LANs.

**NOTE:** Items above can be purchased in Germany that adhere to the German Spectrum Allocation Tables.

f. **AMATEUR/HAM/MARs.** Radio Operators. Importation of this equipment is not prohibited. However, radio operators you must coordinate with the local German authorities (Bundespost) to acquire a German license prior to turning on the equipment.

g. **DISH ANTENNAS:** Importation of TV satellite dishes is not prohibited. However, installation and operation must be approved by the local Bundespost.

3. **SPECIAL INSTRUCTIONS:**

a. **NOTE 1: Change in AOR.** Effective 1 OCT 01, the EURO Theater CPPSO assumes command and control of outbound, inbound and quality control responsibility for areas formerly served by the following activities: 22nd Area Support Group Vicenza IT(UEAS); 22nd Area Support Team, Leghorn IT (UDAK); 22nd Area Support Team, Rome Area ITO IT(UEAK); 80th Area Support Group, Caserne Daumerie, PPSO-Belgium BE (VBAK); and 254th Base Support Battalion, Schinnen NL (VHAC). GBLOCs identified above have been inactivated. All personal property shipment records have been transferred to the EURO Theater CPPSO and/or appropriate Records Holding Area. Counseling services, including scheduling delivery, are provided at each respective PPPO. Refer to Note 6 for a list of APO numbers served by each PPPO.

b. **NOTE 2: Requests for Assistance.** The EURO Theater CPPSO is the central point of contact for all documentation, tracking, tracing, inquiries, and other customer service related issues. Requests for assistance involving counseling actions and NTS entitlement status will be forwarded to the appropriate PPPO for research and response. Forward all email requests for assistance to aeagd-tc@usatmc-e.grafenwoehr.army.mil or to the mailing address shown in 1f.

c. **NOTE 3: Large Furniture Items.** It is very important that customers be furnished information provided in the appropriate destination country's General Instructions page regarding large, oversized items of furniture. Government quarters and economy housing units are generally smaller than in CONUS and frequently are accessed by narrow circular stairways. NTS is not authorized OCONUS except under very limited circumstances. Property owners should use their NTS entitlement in CONUS for items not required during overseas tour to avoid disposing of excess items, commercial storage charges, or storing items in unsecured community areas.

d. **NOTE 4: Avoid Misconsigned Shipments.** All inbound shipments must be consigned to the appropriate destination city/country or duty station. "EURO Theater CPPSO, WKAS" must be shown in Block 20 of the GBL. Use the cross-referenced APO numbers provided (Note 6) to determine correct destination city for Block 18 of the GBL. For TOPS generated shipments, it is imperative that the delivery city field contains the customer's actual duty station, location or city/country name. This will ensure the correct destination of the shipment is printed in Block 18 of the GBL. For separation or retirement shipments, Block 18 must also include the numerical postal code for the destination city/country.

e. **NOTE 5: Separation/Retirement Shipments to Berlin.** The EURO Theater CPPSO provides administrative support for separation/retirement shipments destined to Berlin. Advance documentation must be sent to the EURO Theater CPPSO for coordination and distribution. The American Embassy Berlin provides services for DOD service members assigned to the American Embassy for duty. **Berlin is an OTO area. DO NOT SHIP DPM. DO NOT USE GERMANY (GE) RATES.**

f. **NOTE 6: APO Listing By PPPO.** Instruct all customers to contact the servicing PPPO immediately upon arrival at their new duty station. Please provide customers the PPPO inbound phone numbers furnished below in lieu of the inbound number printed by TOPS in the remarks block, DD 1299.

12. **SEPARATEES/RETIREEES ENTITLEMENTS/LIMITATIONS:**

a. Retirees/separatees are not authorized US Government arranged customs clearance/duty-free importation of personal property or POVs into Greece. Personnel falling into this category are personally responsible for arranging for required customs clearance (at their own expense) and payment of any import duties levied by Greek customs authorities. Additionally, HHG/UB shipments are immediately impounded by Greek customs authorities pending the property owner's arrival. In the interim, the Greek Government automatically assesses handling and storage charges which are based on the weight/duration of impoundment of the shipment (assessed charges can be extremely expensive). Property owners are fully responsible for payment of all Greek customs related handling and storage fees, not the US Government. Further, any authorized storage-in-transit of personal property shipments at

US Government expense cannot commence until the property owner has personally arranged for the release of his/her property from the possession of the Greek customs authorities. POVs imported into Greece in conjunction with retirement/ separation from service are subject to severe import duties, which can be as high as 200 percent of the assessed value by Greek customs authorities (i.e., POV value is assessed at \$10,000; import duties would be \$20,000). Retirees/Separatees are strongly encouraged to contact the nearest Greek Consulate/Embassy to obtain latest information and any required documents related to the importation of personal property/POVs into Greece prior to effecting such shipment.

b. Dependents relocating to Greece as a designated location are subject to the same Greek customs restrictions as that of retirees/separatees.

13. **OTHER:** Personnel desiring additional or specific information not provided in the Greece General Instructions should communicate with their overseas sponsor or the commander of the new unit of assignment.

b. **Scuba Diving Equipment:** Greek law requires all scuba tanks to be sealed by Greek customs. Equipment must be presented to the Greek Customs House to be unsealed for use, only, in the locations designated by the Greek authorities.

CHAPTER 47

47-1 GUAM(GQ) - GENERAL INSTRUCTIONS

REVIEW DATE: 30 NOV 99

1. SHIPMENT INSTRUCTIONS:

a. **WEIGHT RESTRICTIONS: For All Personnel:**

(1) **Accompanied tour:** Full JFTR weight allowance.

(2) **Unaccompanied tour:** Weight allowances for single/unaccompanied personnel are in accordance with weights listed in Part V.

b. **CONTAINER/CRATING REQUIREMENTS:** No restrictions identified.

c. **HARD LIFT AREA:** No restrictions identified.

d. **UNACCOMPANIED BAGGAGE:** All UB shipments destined for Guam should be shipped Code J with DPM/AMC as an alternate. Do not use DPM Commercial International Air.

e. **OTHER:** All Navy, Marine Corps, Coast Guard, Army, and DOD civilian personnel being assigned to Guam should be informed that:

(1) If the shipment does not arrive by the RDD, the service member should be counseled to contact the Navy Housing and Family Service Center for assistance in getting necessary furniture as stated below. Additionally, advise the member that if the shipment missed the RDD they can file a inconvenience Claim against the carrier.

(2) **Household Appliances:** Guam is a full JFTR weight allowance area for the command-sponsored service members assigned to Guam. However, Government-owned appliances, to include refrigerators, stoves, washers, dryers, and central air conditioning units are provided automatically for Government quarters and upon request (command-sponsored members) for off-base housing. Navy Public Works Center(PWC), Guam housing department will not remove the Government-owned appliances already in Government quarters. Shipment of the appliances listed above to Guam is neither necessary nor recommended.

(3) All other furniture support is limited to a maximum period of 90 days unless HHGs are not received within 90 days through no fault of the service member.

(4) Members should be advised to contact their assigned sponsors before making any final arrangements for shipment of HHGs to Guam. Depending on the size of the family quarters to be assigned, PWC housing has advised that a standard housing unit has no more than an 8-foot high ceiling with room sizes of about 10 feet by 12 feet, 12 feet by 14 feet, and 8 feet by 10 feet. Due to the limited spaces of the Government housing units, members should be advised to ship only furniture that can be accommodated within the unit spaces.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS: Customs forms are not required. Guam is a US Territory. However, Guam is not under US Customs jurisdiction. In order to clear personal property shipments through the Guam Port of Authority, a legible detailed copy of the inventory with advance shipping documents is required by Government of Guam Customs.

3. **CONSUMABLES:**

a. **ALCOHOLIC BEVERAGES:** Military members, their dependents of legal age (18 years or older) and Department of Defense (DOD) civilians are authorized to import one(1) gallon of alcoholic beverages into Guam. Importation (hand carried or personally procured) of more than one gallon requires a license from Guam's Alcoholic Beverage Control Board. There are no waivers or exceptions for private collection for military personnel. Violators of Guam's importation restrictions on alcoholic beverages can be found guilty of a misdemeanor and fined not more than 10,000 dollars. There are three limited exceptions to this prohibition:

(1) A religious organization may import or receive into Guam sacramental wine for use in the religious rites of such religious organization without license;

(2) A Consul General, Consul or Vice Consul of a foreign country may import or receive into Guam for private use and consumption;

(3) A person arriving in Guam may bring with them not more than once every sixty(60) days for private use and not for sale, alcoholic beverages not exceeding one(1) gallon in quantity without a license.

b. **CIGARETTES/TOBACCO PRODUCTS:** Shipments of cigarettes/tobacco products between CONUS and overseas or within overseas countries may be shipped subject to host country requirements/restrictions identified. When undefined or in doubt, the TMO will request clarification by message from the responsible transportation authority at destination.

c. **COSMETICS:** No restrictions identified.

d. **FOODSTUFFS/MEATS:** No restrictions identified.

e. **MEDICATION (NARCOTICS)/PHARMACEUTICAL PRODUCTS:** No restrictions identified.

4. **ELECTRICAL EQUIPMENT:**

a. **HOME COMPUTERS:** No restrictions.

b. **TVs/VCRs:** No restrictions identified.

c. **OTHER (i.e. COMPATIBILITY, ETC):** No restrictions identified.

5. **FURNITURE, OVERSIZED:** Huge and/or large furniture items and other non-essential items should be placed in non-temporary storage for the duration of overseas Guam tour.

6. **PETS/QUARANTINE:** Kennel reservations at Government of Guam approved commercial quarantine facility must be obtained prior to shipping pets along with an entry permit. Required entry permits may be obtained by writing the Department of Public Health and Social Services, PO Box 2816, Agana, Guam 96910/PH (671) 735 7210 and kennel reservations with Harper Veterinary Kennels, 138 E Marine Dr, Agana, Guam 96910/PH (671) 734-4543/fax (671) 477-0192. Upon receipt of kennel reservations and entry permits, the pet(s) may be shipped. Health certificates are required and dated more than 10 days prior to shipment. Rabies vaccination certificates are required for animals over 3 months old dated no less than 30 days and not more than 6 months prior to shipment. A certificate of immunization against Canine Distemper, Hepatitis, Leptospirosis, Parainfluenza, Adenovirus-2 and Corona Virus are

required for dogs. A certificate of immunization against Feline Viral Rhinotracheitis, Feline Leukemia, Calici Virus, and Panleukopenia are required for cats. Dogs and cats will be quarantined for 120 days upon entry into Guam. The quarantine facilities leaves a lot to be desired and are expensive. Older or sickly pets should not be brought to Guam. The Andersen AFB veterinarian has weekly pet clinics but is not involved with quarantine facilities. Veterinarian services are also available at the COMNAVMARIANS clinic by appointment only.

7. **PRIVATELY OWNED FIREARMS (POFs)**: Recommend avoiding shipping firearms to Guam. Ensure member has proof of ownership, or if proof of ownership is not available, an affidavit of ownership with notary seal, for firearms in possession. There is no limit on the number of firearms allowed to be shipped. Member must obtain firearms permit immediately, by paying a fee, and register each firearm with Government of Guam within 30 days of arrival. Members are charged \$5 for permit, and \$15 for each firearm.

8. **PRIVATELY OWNED VEHICLES (POVs)**:

a. **POVs**: No restrictions. However, Government of Guam applies a four (4) percent use tax on vehicles purchased and imported by members when vehicle is owned less than 90 days. Recommend shipment of a small or medium, well-maintained, rust-free car. Repairs can be made locally but parts are often hard to locate and labor is expensive. Used cars are available for sale, but often have extensive rust damage and sell far above comparative US prices. Transit time ranges between 4-6 weeks from the West Coast and up to 3 months from the East Coast. Rental vehicles are available both on and off-base.

b. **MOTORCYCLES/MOPEDS**: No restrictions on shipment of mopeds/motorcycles.

c. **GASOLINE/CATALYTIC CONVERTERS**: Premium and unleaded gasoline are available island-wide.

d. **INSURANCE/SAFETY REQUIREMENTS**: POV safety and emission standards on Guam are the same as CONUS. Guam requires all POVs to pass a safety inspection checking integrity of exhaust system, body, braking power, wheel alignment, lights, horn, and windshield wipers prior to issue of either Guam license or soldiers/sailors relief registration decals.

9. **SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL**: No restrictions identified.

10. **STUFFED WILDLIFE/ANIMALS/PLANT RESTRICTIONS**: No restrictions identified.

11. **TRANSMITTING EQUIPMENT**:

a. **CBs**: No restrictions.

b. **AMATEUR/HAM RADIOS**: No restrictions identified.

c. **MARS EQUIPMENT**: No restrictions.

d. **DISH ANTENNAS**: No restrictions identified.

e. **CORDLESS PHONES**: No restrictions identified.

12. **SEPARATEES/RETIREEES ENTITLEMENTS/LIMITATIONS:**

a. For all shipments, to include Air Force retirees, destined to the Commonwealth of the Northern Marianas Islands (i.e., Saipan, Rota, Tinian) or the Federated States of Micronesia (i.e., Ponape, Chuuk, Yap, Belau, Kosrae), a OTO Code 4/Code 8 request must be requested to final destination. Do not DPM. Do not, repeat do not consign these shipments to Guam for onward movement to the ultimate destination. This also includes shipments for Civic Action team members. Annotate PPGBL: "Carrier will notify ITO, COMNAVMARIANS Guam, at DSN 333-2045, prior to delivery to residence or placing in SIT." Mail advance documents (Orders, DD1299, PPGBL and/or TCMD, and a legible copy of inventory list) to ITO, COMNAVMARIANS Guam.

b. Personnel contemplating retirement, separation, or relocating dependents to Guam, Commonwealth Northern Marianas Island, and the Federation States of Micronesia should be counseled that all customs entry requirements to include payment of duties and taxes remain the responsibility of the member and is a personal matter between the member and the Territory Government.

c. 36 TRNS, Andersen AFB, is the designated intransit port for all unaccompanied baggage shipments originating from Diego Garcia for retirees, separatees, and bluebark members destined for the Philippines. TMO Andersen will request one-time-only solicitations for onward movement to the Philippines. All advance documents must be forwarded to: Traffic Management Officer, ATTN: LGTT, 36 TRNS, Unit 14005, APO AP 96543-4005.

13. **OTHER:**

a. **HOUSING:** Waiting time for Government quarters is 2 to 5 months, depending on rank, rate, and number of bedrooms required. Adequate TLA accommodations are available off-base. A limited number have kitchen facilities. Linens are provided. Baby cribs are normally not provided; however, a few are available. Local command's hospitality kits have a limited number of utensils. Local power is standard US 110 volt 60 cycle. No modifications required for US type appliances. Color TV is available with programs taped in the US and shown 1 week later. More specific information should be requested from command sponsors.

b. **BOATS:** Import standards are the same as for CONUS. US Coast Guard inspects boats for sea worthiness. Boats from CONUS should have a manufacturer's certification decal as it eliminates the inspection requirement. Guam customs may collect a 4 percent use tax at time of importation. All boats must be promptly preregistered with the harbor unit of the Guam Police Department. Boat owners have 60 days to ensure they meet Guam boating requirements before registration with the harbor unit is completed. The documents required for registration must be originals or notarized copies proving ownership. Boat trailers are registered with vehicle registration. A safety inspection is required. A manufacturer's statement of origin or a certification of title is required for a trailer license. A Soldier's/sailor's relief registration decal is acceptable for the trailer. Repair parts for the major American brands are usually available but at a higher price than most CONUS areas. Labor rates are generally higher than in CONUS. Docking, mooring, and storage space is extremely limited. There is a long waiting list for space at the COMNAVMARIANS Sumay Cove Marina. Commercial space is available but is very limited and expensive. More commercial marinas are planned and are under construction, but "not open for business" date has been established. Expect a difficult time finding a mooring space.

CHAPTER 50

50-1 HAWAII(HI) - GENERAL INSTRUCTIONS

REVIEW DATE: 22 JUN 04

1. SHIPMENT INSTRUCTIONS:

a. **WEIGHT RESTRICTIONS:**

(1) **ARMY PERSONNEL:**

(a) **Accompanied tour:** Full JFTR weight allowance.

(b) **Unaccompanied tour:** Soldiers E-1 thru E-6 are restricted to the UB/HHG weight allowance listed in Appendix V unless a greater allowance is authorized by AR 55-71, Appendix B. Unaccompanied officers and E-7 thru E-9 serving the 3 year tour may ship full JFTR weight allowance without prior command authorization.

(c) Nontemporary storage is not authorized once property has been shipped. Off-post living accommodations are much smaller than found in CONUS and member should limit property that is shipped.

(2) **FOR AIR FORCE ONLY:** VIPs (Wing commanders and Generals assigned to Hickam AFB, HI) normally have on-base housing guaranteed prior to their arrival. VIP quarters are much larger and can normally accommodate furniture items.

b. **CONTAINER/CRATING REQUIREMENTS:** No restrictions identified.

c. **HARD LIFT AREA:** No restrictions identified.

d. **UNACCOMPANIED BAGGAGE:** No restrictions identified.

e. **OTHER:**

(1) **HOUSING:**

(a) Single unaccompanied members obtaining off-base quarters normally have 900-1200 square feet living space and should limit the amount of personal property shipped. On-base single quarters are smaller, and the waiting time is extensive.

(b) Due to the high cost of off-base quarters in Hawaii, members should plan to live in smaller sized quarters than they are used to. Oversized an/or large furniture and non-essential items should be placed in non-temp storage at origin for duration of member's overseas tour.

(c) Depending on size of family quarters assigned/obtained, standard housing in Hawaii is small; i.e., 8 foot ceilings, 12 by 14 foot master bedrooms, and other rooms 10 by 12 foot or 10 by 8 foot.

(2) **APPLIANCES:** Effective 01 Oct 04, washers and dryers will be furnished to all Army members occupying government quarters. It is recommended all appliances be stored at origin in non-temporary storage. Issues of stoves and refrigerators will continue. MCBH Kaneohe Bay no longer provides washers and dryers in family housing. Therefore, members who elect Marine Corps housing on Oahu are encouraged to ship their personally-owned washers and electric dryers. COMNAVREG HAWAII and MCBH do not issue appliances for off-base use. All other military personnel assigned to Hawaii (Island of Oahu) will be furnished major appliances to include washers, dryers, stoves and refrigerators. Members should be advised to use CONUS NTS if they plan to use the government-furnished appliances. Major appliances, when authorized by the service, are furnished in both government quarters and off-post housing (local economy) upon request form Command sponsored service members. Government furniture: Furniture support is limited to a temporary basis, pending receipt of household goods. Support period is a maximum of 90 days, unless household goods are not received within that timeframe, through no fault of the member. (CH)

(3) Members should contact their sponsors before finalizing arrangements for shipment to Hawaii.

2. **CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS: US Customs Clearance:** For Code 5 and DPM surface shipments, FAX pertinent documentation including inventory to FISCPC, Code 4012 at (808) 473-2042 or mail documentation to Fleet and Industrial Supply Center, Terminals Department (Code 4012), 1942 Gaffney Street, Suite 100, Pearl Harbor, Hawaii 96860-4549. Timely receipt of customs documentation will prevent unnecessary delays and inconvenience to the service members. (CH)

3. **CONSUMABLES:**

a. **ALCOHOLIC BEVERAGES:** Regulations governing importation are the same as CONUS.

b. **CIGARETTES/TOBACCO PRODUCTS:** Shipments of cigarettes/tobacco products between CONUS and overseas or within overseas countries may be shipped subject to host country requirements/restrictions identified. When undefined or in doubt, the TMO will request clarification by message from the responsible transportation authority at destination.

c. **COSMETICS:** No restrictions identified.

d. **FOODSTUFFS/MEATS:** No restrictions identified.

e. **MEDICATION (NARCOTICS)/PHARMACEUTICAL PRODUCTS:** No restrictions identified.

4. **ELECTRICAL EQUIPMENT:**

a. **HOME COMPUTERS:** Regulations governing importation are the same as CONUS.

b. **TVs/VCRs:** No restrictions identified.

c. **OTHER (i.e. COMPATIBILITY, ETC):** No restrictions identified.

5. **FURNITURE, OVERSIZED:** Prior to shipping oversized furniture, such as an 8-foot sofa, a large triple dresser, or Calif-king sized bed, consider even if there is enough room to accommodate these items, narrow stairways and passageways may prevent placement of the furniture into the appropriate rooms. Several off-base high rise apartments do not allow hoisting, resulting in members selling large furniture or paying for commercial storage.

6. **PETS/PLANTS**: Entry of cats and dogs are authorized. Effective 30 June 2003, cats and dogs meeting specific pre-arrival and post-arrival requirements may have their quarantine period reduced to five days or less. The five-day-or-less quarantine program allows for "direct release" from the airport if all the pre-arrival requirements are completed and all the required paperwork is submitted at least ten days prior to arrival. The cost for direct release will be \$165. If the pet must be held for five days or less, the cost will be \$224. Owners are responsible to ensure all documents are in order and all requirements are met. Deficiencies could result in 120-day quarantine period. A quarantine period of 30 or 120 days is required at a cost of approximately \$655.00 per animal per 30-day program and \$1,080.00 per animal per 120-day program (fees are subject to change). The Department of Agriculture has published a checklist for pet owners on their website: [www.hawaiiag.org/hdoa](http://www.hawaiiag.org/hdoa). Dogs and cats from Guam, Australia, New Zealand, and Great Britain will be exempt from rabies quarantine due to their stringent import requirements and rabies-free status. Owners desiring to import dogs and cats are advised to contact the Animal Quarantine Branch, 99-951 Halawa Valley Street, Aiea, Hawaii 96701, information line (808)483-7171, main office (808)483-7151, facsimile (808)483-7161, or their web site at [www.hawaiiag.org/hdoa](http://www.hawaiiag.org/hdoa).

To reduce the risk for the introduction and establishment of the West Nile Virus (WNV) in Hawaii, the Hawaii Department of Agriculture (HDOA) has placed a quarantine-embargo on birds and poultry, except hatching eggs and day-old chicks, shipped through the US Postal Service (USPS). For additional pre-entry requirements for birds call HDOA at (808)973-9560. For more information on the Hawaii Department of Agriculture, write to: Hawaii Department of Agriculture, Office of the Chairperson, 1428 S. King Street, Honolulu, Hawaii 96814. Email address: [hdoa.info@hawaii.gov](mailto:hdoa.info@hawaii.gov).

7. **PRIVATELY OWNED FIREARMS (POFs)**: Shipments of firearms are authorized but are subject to US regulations and State of Hawaii restrictions. All personnel arriving in Hawaii who bring firearms of any description, usable or unusable, serviceable or unserviceable, modern or antique, shall, within 72 hours after arrival, register the above with the Chief of Police of the county where member is assigned, place of business, residence or place of sojourn. Registration information may be obtained by calling the Firearms Unit of the Honolulu Police Department at (808)529-3371.

a. **HANDGUNS**: The following types of firearms are prohibited: Assault pistols (definition and examples provided below); automatic firearms. "Assault pistol" means a semiautomatic pistol which accepts a detachable magazine and has two or more of the following characteristics:

(1) An ammunition magazine which attaches to the pistol outside of the pistol grip.

(2) A threaded barrel capable of accepting a barrel extender, flash suppresser, forward hand grip, or silencer.

(3) A shroud which is attached to or partially or completely encircles the barrel and which permits the shooter to hold the firearm with the second hand without being burned.

(4) A manufactured weight of fifty ounces or more when the pistol is unloaded.

(5) A center fire pistol with an overall length of twelve inches or more.

(6) A semiautomatic version of an automatic firearm; but does not include a firearm with a barrel sixteen or more inches in length, or an antique pistol. "Semiautomatic" means the mode of operation by which a firearm uses the energy of the explosive in a fixed cartridge to extract a fired cartridge and chamber a fresh cartridge with each single pull of a trigger. #### 8. PRIVATELY OWNED VEHICLES (POVs):

##### a. **POVs:**

(1) Shipment of POV is authorized. Vehicles must meet federal emission and safety standards. POVs with an ultimate destination of Molokai-XDP, Lanai-XCP, Kauai-XFP, Maui-XBP, and Hawaii-XAP should be consigned directly to these POD codes, not through Oahu-XEP.

(2) POV information is maintained by the GPC subcontractor, Matson Terminals, Honolulu, Hawaii. POV status can be obtained by calling toll free 1-800-896-7745 or 808-848-8383, or by checking the website <http://www.wherismypov.com/>. Hours of operation are 0800-1500 hrs Monday thru Friday.

In order to furnish the certificate, JPPSO Hawaii is requiring the member to present the DD Form 1299 showing "motorcycles" in Block 16, a copy of the inventory with "motorcycles" annotated and owner's documents showing proof of ownership, make, model, and serial number of POV. Member must have certificate from JPPSO Hawaii to register motorcycle.

13. **OTHER:**

a. Warm clothing is not necessary for wear in Hawaii, but may be needed if traveling to other areas during the winter months.

b. **STORAGE:**

(1) Storage space is limited to non-existent in off/on base quarters. Recommend all service members (not civilians) store all appliances at origin. All appliances are available for Government quarters with the exception of housing on MCBH Kaneohe Bay and Army installations. (Refer to subparagraph 1.e.(2) Appliances above).

(2) Personal property shipments are normally placed into SIT in Hawaii and can be held up to 180 days to accommodate the member until obtaining quarters on/off base. After the 180 days, SIT will be converted to member's expense unless circumstances exist which are beyond control of the member. In the case of Army and Air Force members, pending assignment to Government quarters is normally not a valid reason to extend SIT beyond 180 days unless the member has quarters assigned in writing and move in date is within the next 90 day SIT increment. Also, in the case of Army and Air Force members, non-availability of suitable civilian housing is not a valid reason to extend SIT beyond 180 days.

(a) **EXAMPLE 1:** Member ships 10,000 lbs of HHG to Hawaii and obtains off-base quarters which only holds 6000 lbs. Member will pay commercial storage rates in excess of 180 days until property is removed.

(b) **EXAMPLE 2:** Member ships 12,000 lbs to Hawaii and obtains on-base housing, but the quarters only hold 10,000 lbs. Non-temp storage at Government expense for items excess to Government quarters must be approved on a case-by-case basis by base housing officials. The approval process is strict and limited to certain items.

(3) When a shipment is converted to commercial storage, the through PPGBL character of the shipment ceases, the warehouse will be considered the destination of the shipment, the warehouseman will become the agent for the shipper, and the shipment becomes subject to the rules, regulations, and charges of the warehouseman. Commercial charges run approximately 4.00 per NCWT per 30-day storage period may apply. Also, an additional 4.00 per NCWT charges for handling into commercial storage may apply.

There are no restrictions on importation in personal property but all liquors or cigarettes must be specifically itemized (including quantity and value) and be provided to post prior to arrival of shipment as tax exemptions must be processed through local authorities.

b. **COSMETICS:** No restrictions identified.

c. **FOODSTUFFS/MEATS:** No restrictions identified.

d. **MEDICATION (NARCOTICS)/PHARMACEUTICAL PRODUCTS:** No restrictions identified.

4. **ELECTRICAL EQUIPMENT:**

a. **HOME COMPUTERS:** No restrictions. However, transceivers require a license which the owner can usually obtain by applying through the General Post Office.

b. **TVs/VCRs:** No restrictions identified.

c. **OTHER (i.e. COMPATIBILITY, ETC):** No restrictions identified.

5. **FURNITURE, OVERSIZED:** No restrictions, however, large furniture items normally do not fit in apartment elevators.

6. **PETS/QUARANTINE:** There is a 1 to 6-month quarantine period for pets depending on the origin country. Import permit must be obtained by writing to the Department of Agriculture and Fisheries, Hong Kong Government, 5/F Cheung Sha Wan Government office, 303 Cheung Sha Wan Road, Hong Kong, prior to arrival. Information concerning breed, age, sex, color, and shipment data will be required. Government kennels is provided only.

7. **PRIVATELY OWNED FIREARMS (POFs):** Prohibited in Hong Kong.

8. **PRIVATELY OWNED VEHICLES (POVs):**

a. **POVs:** The Hong Kong Government requires certification the POV is in compliance with Hong Kong's emission control standards. The emission control standard in Hong Kong is very difficult and complicated. If a POV to Hong Kong is consigned to the American Consulate for the employee's name, the employee may apply for the exemption of emission control and noise control based on diplomatic courtesy. Usually it takes 2 weeks to process the exemption. If the POV fails to meet the emission and noise control standards, the POV must be modified to fulfill the requirements. Unleaded gasoline is available at all gas station in Hong Kong. Do not remove catalytic converters. Ideally, the POV should be a standard passenger car with right-hand drive as driving here is on the left. A left-hand drive vehicle may be imported, however, a special import permit is required. For the permit application, post needs a copy of the OBL and vehicle registration document in advance. Advance documents can be faxed to GSO at 011-852-2845-1598. A left hand drive POV cannot, REPEAT, cannot clear customs prior to arrival of the employee. Left-hand vehicle must be exported at end of tour or sold to officials of the US or other mission. Trucks, vans and pickup models are considered commercial vehicles and may not be imported into Hong Kong. POVs require a thorough mechanical and safety inspection before being registered in Hong Kong. Cars that are 6 years old must undergo inspection prior to vehicle registration.

(1) The Hong Kong Government will not waive compliance issues on imported vehicle regarding headlight aiming. If the headlights on your vehicle cannot be altered for driving on the left side of the road, i.e. aimed away from oncoming traffic, you will not be able to license the vehicle before shipping your vehicle to Hong Kong. Please check with your dealer or parts supplier to ensure the availability of the necessary headlights for driving on the left hand side of the road. Whether the POV is right hand or left hand drive, it must have been legally owned by the employee for at least

six months prior to registration. In addition, the employee should have been issued a valid driver's license and resided for at least six months in the country where the vehicle was last registered.

(2) Vehicle with tinted windows cannot be registered in Hong Kong.  
(CH)

(3) Shipment of privately owned vehicles to Hong Kong requires the American Consulate's authorization prior to shipping. Before shipping a POV to Hong Kong, please contact GSO (preferably by cable or message) and provide the year, make and model, number of cylinders, engine displacement (cc or cubic inches), chassis and engine numbers, engine model and right-hand or left-hand drive. The same information must also be included on the ocean bill of lading (OBL). The POV must have been legally owned by the employee for a least six months prior to registration. In addition, the employee should have been issued a valid driver's license and resided for at least six months in the country where the vehicle was last registered. After receiving your request, GSO will confirm with Hong Kong authorities whether or not the car can be registered and what modifications would be required. GSO will then contact you and advise you as whether or not the vehicle can be shipped, and with what conditions. Do not ship a vehicle to Hong Kong without specific permission from post. If your shipment is approved, the Hong Kong Government will require certification that your POV is in compliance with Hong Kong's emission control standards. Only unleaded gasoline is available in Hong Kong. Do not remove catalytic converters. Mail shipping documents, include the original bill of lading to General Services Officer, US Consulate General, PSC 461 Box 9, FPO AP 96521-0006 to arrive no later than 1 week before ship's arrival in Hong Kong. (CH)

(4) For individuals assigned directly to the American Consulate General Hong Kong, the General Services Office highly discourages employees not to ship a POV and especially a left hand drive POV to Hong Kong for the following reasons. (CH)

(a) Public transportation is excellent, public parking facilities are scarce and expensive, and Hong Kong uses a right-hand drive system. POV parking at the consulate is restricted to approved car pools. Parts and maintenance for American autos are expensive and difficult to obtain. (CH)

(b) Since Hong Kong uses a right-hand drive system, post discourages the shipment of left hand drive POVs. The cost of converting headlight and other systems to right-hand drive standards can be extremely expensive depending on the make and model of the car. Trucks, vans and pickup models are considered commercial vehicles and may not be imported into Hong Kong. Similarly, vehicles with tinted windows cannot be registered. POVs require a thorough mechanical and safety inspection before being registered in Hong Kong. Anyone who cannot ship a car to Hong Kong because of these circumstances and/or restrictions should request domestic storage for their vehicle from their respective department/agency. No storage facilities for vehicles exist at post. (CH)

b. **MOTORCYCLES/MOPEDS:** Motorcycle/mopeds must be shipped separately as POVs and are imported duty-free.

c. **GASOLINE/CATALYTIC CONVERTERS:** Do not remove catalytic converters. Unleaded gasolines is available at all gas stations in Hong Kong.

d. **INSURANCE/SAFETY REQUIREMENTS:** Insurance is required. The estimated cost of obtaining vehicle insurance in Hong Kong is approximately HK\$5,000.00.

9. **SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL:** No restrictions identified.
10. **STUFFED WILDLIFE/ANIMALS/PLANT RESTRICTIONS:** No restrictions identified.

It is, therefore, highly advisable to prepare a complete inventory of effects brought into Hungary and be prepared to submit complete inventories upon arrival and departure. One advance copy of the inventory should be forwarded to GSO, American Embassy, Budapest, for translation into Hungarian. Incoming shipments can not be custom cleared until member is physically present on station and registered with the Hungarian authorities. Due to mail lag time often experienced by American Embassy Budapest, origin shipping office should forward message to TWX address providing member's name, destination carrier (to include the mail and telex address), shipment date, and PPGBL and airway bill number.

3. CONSUMABLES:

- a. **ALCOHOLIC BEVERAGES:** Shipments of alcoholic beverages between CONUS and overseas or within overseas countries may be shipped subject to host country requirements/restrictions identified. An international health certificate showing proof of rabies and distemper vaccinations is required. (The rabies shot must be at least 2 months old, but not older than 1 year.) The certificate must be issued within 10 days prior to arrival in Hungary.

7. **PRIVATELY OWNED FIREARMS (POFs)**:

Serial/model numbers and caliber information must be provided to the Regional Security Officer (RSO) and General Service Officer (GSO) in advance. A permit must be obtained for all firearms BEFORE importation is possible. If permit is not available at the time of importation, weapon will be confiscated by the customs official. It will remain in their custody until the member can show a valid permit or leaves Hungary, whichever is sooner. No firearms may be imported for personal use without prior approval from the ambassador.

c. **TOY-RELATED GUNS**: No restrictions identified.

d. **OTHER (i.e. AMMUNITION, EXPLOSIVES, ETC)**: Prohibited.

8. **PRIVATELY OWNED VEHICLES (POVs)**:

a. **POVs**:

(1) Hungarian regulation requires vehicles to conform to European specifications, but the Embassy has a waiver covering all of the Embassy's official and diplomats' privately-owned vehicles (POVs). There is no restriction on the type of vehicle imported; however, there is a strict restriction on the age of the vehicle. Only vehicles 4 years old or younger may be imported.

(2) Each vehicle must go through a thorough technical inspection prior to registration/licensing. If the vehicle fails the inspection, all repairs/modifications must be completed before registration is allowed. All of these repairs are at the owner's expense and are not reimbursable. Some of these repairs might be quite expensive. Therefore, it is in the best interest of the member to ship/purchase a vehicle that is new or in 'like new' condition.

(3) POV should be shipped in sea container. Port of Bremerhaven should be used as port of destination(POD). Consign to "Transit", USDAO American Embassy, Budapest, Hungary. Information copy of documentation should be mailed to American Embassy, 1054 Budapest Szabadsag Ter 12, ATTN: GSO. (CH)

b. **MOTORCYCLES/MOPEDS:** Motorcycles/mopeds can not be imported with household goods. They are considered POVs if the engine size exceeds 50cc and must be registered as such. If the motor size remains under 50cc, it does not require registration.

c. **GASOLINE/CATALYTIC CONVERTERS:** All vehicles must be equipped with a three-way controlled catalytic converter. There are no exceptions made to this law.

d. **INSURANCE/SAFETY REQUIREMENTS:** Third party liability insurance coverage is mandatory. If member desires insurance coverage beyond liability we suggest obtaining the coverage from an American Company (e.i. Clements, Geico, etc.). Local insurance companies are difficult to deal with.

9. **SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL:** Prohibited.

10. **STUFFED WILDLIFE/ANIMALS/PLANT RESTRICTIONS:** Prohibited.

11. **TRANSMITTING EQUIPMENT:**

a. **CBs:** Can be imported, but local permit to operate must be obtained before it may be used.

The electrical current is 60 cycle, the same as CONUS. Off-base current is European standard (220 volt/50 cycle) but only DOD civilian personnel who are defense force members, are currently permitted to live off the agreed area with Government of Iceland approval and if on-base quarters are not available.
- c. **OTHER (i.e. COMPATIBILITY, ETC):** No restrictions identified.

5. **FURNITURE, OVERSIZED:**

a. Military family housing is small by US standards and storage is limited. Members should be advised furniture (couches, desks, etc.) Approximately 7 ft or longer may not fit through doors and halls in some housing units. Contact the housing office for advice before shipping such an article because housing assignments will not be changed to accommodate excessive or oversized furnishings. Washers, dryers, stoves, and refrigerators are provided for all on-base housing; therefore, these items must be placed in NTS at origin. If a member desires an extra refrigerator or freezer, one may be shipped. NTS will not be provided, nor will housing assignment be changed to accommodate shipped appliances.

b. Unaccompanied members will be assigned a room/suite depending on rank. DO NOT SHIP ANY FURNITURE. Large electrical items such as TV's, VCR's, stereo's and personal computers are permitted however, keep in mind that space is limited. Adequate cable, Internet capabilities, and phone jacks will be available. Extension cords are prohibited, however, surge protectors may be used. You may ship a microwave, though some buildings provide them in the rooms. You will be provided with: common use laundry and kitchen facilities, recreation and work out facilities, a bed, refrigerator, sitting chair, desk, adequate lighting and an entertainment center. Some of the buildings provide common area bike storage, and all buildings provide personal storage, and all buildings provide personal storage lockers measuring at least 37 cubic feet. Bachelor housing furnishing will not be displaced to facilitate personal belongings.

6. **PETS/QUARANTINE:** Pre-approval from the Government of Iceland is necessary before pets may enter into the country. Members are authorized NOT MORE THAN TWO PETS PER FAMILY. Pet permission and quarantines are both lengthy and expensive (approx. 8 weeks) at this time. E-mail ([idf.pm@idfcfk.navy.mil](mailto:idf.pm@idfcfk.navy.mil)) the Provost Marshal's Office to receive your information package containing your pet shipment forms and requirements. The pet can be flown into the country on a commercial flight at owner's expense (currently about \$350), quarantine and veterinarian costs are approximately \$1600 for a cat, and \$1743 to \$2500 for a dog. NO DOGS over 85lbs are permitted. Rottweilers, Pit Bulls, nor Doberman breeds are NOT PERMITTED into the country. Contact Provost Marshal's office for a complete list of breeds that are not permitted into Iceland. Animals must be registered and tagged through the Security Admin Office. Dog and cat shots must be up to date prior to entry and maintained while on the island using the local vet service. contact the Iceland Defense Force Provost Marshal office at DSN 450-7820, comm. 001-354-425-7820 concerning recent pet regulations. All procedures must be followed explicitly as stated in the law. Pets are not allowed in bachelor quarters. (CH)

7. **PRIVATELY OWNED FIREARMS (POFs):** Shipment of firearms to Iceland is restricted to hunting weapons (hunting rifles and shotguns). All other type of firearms, ammunition, or explosives is prohibited. Laws are stringent concerning the use of firearms, and all firearms must be stored at the Weapons Department, Naval Air Station, Keflavik, Iceland. It is against regulations to fire weapons on base, and off base use must be approved by Icelandic Government and the land owner. Proof of ownership must accompany all weapons shipped to Iceland.

8. **PRIVATELY OWNED VEHICLES (POVs):**

a. **POVs:** Authorized DOD personnel may import one POV duty-free. Icelandic Government imposes no restrictions as to color, age, or dimensions.

b. **MOTORCYCLES/MOPEDS:** Shipments of two-wheeled motorized POVs (motorcycles/mopeds) to Iceland is prohibited due to severe weather and unsafe road condition.

c. **GASOLINE/CATALYTIC CONVERTERS:** Diesel fuel is available from commercial source on base. The price per gallon at this station fluctuates with local market prices but does not include host nation taxes. As of NOV 2001 the price is 48.5 Icelandic Kronur per liter. While this service is available to any member, prior arrangement must be made through the Iceland Defense Force Staff Judge Advocate Office.

d. **INSURANCE:** Liability insurance is mandatory for all POVs in Iceland. Insurance must be purchased in Iceland; no US insurance companies are allowed to underwrite insurance in Iceland. Cost of liability insurance varies with type and year of the vehicle but generally runs from \$400 to \$500 per year. Comprehensive/Collision insurance is not required but is available for an additional cost of \$200 to \$1,000 per year.

**SAFETY REQUIREMENTS:**

(1) **Headrests:** Icelandic laws requires all POV's manufactured after 1 Jan 1983, to be equipped with high-back front seats extending to a minimum of 30 inches from the top of the seat cushion to the top of the back of the seat, or built in adjustable headrests (clip on headrests are not acceptable).

(2) **Tinted windows:** Icelandic law prohibits tint (peel off type) on the drivers side and front passengers side windows. This causes failure of inspections.

(3) **Seatbelts:** It is mandatory safety requirement in Iceland all POVs be equipped with three-point seatbelts (shoulder strap) in the front seats and the rear seats where they can be arranged, or alternatively, lap belts.

(4) **Lights:** All vehicles being operated in Iceland must have low beam headlights and exterior lights/parking lights when the vehicle is driven day and night, 24 hours. Daytime running lights will not be accepted in Iceland and will cause failure of inspection. In order for newer model cars to pass inspection, they must remove the fuses or relay connected to the daytime running lights. Recommend that members have the diagram of the electrical connection of the vehicle in order to disconnect the daytime running lights. (The taillights are not on when running lights are activated, therefore making them illegal in Iceland.) All fog lights must have "E" or "DOT" marking on.

(5) **License Plates:** Front and rear license plates are required. Recommend a license plate holder be installed for front and rear before you arrive in Iceland. Brackets are very hard to purchase in Iceland.

(6) **Side view mirrors:** Two side view mirrors (one on each side) are mandatory on all POVs.

(7) **Warning triangle:** It is a mandatory requirement to have a reflective warning triangle available in the trunk of each POV.

(8) **Mud flaps:** No mud flaps are required on regular vehicles. For certain vehicle types modified for higher ground clearance, four mud flaps are required, for example jeeps and trucks.

(9) **Fender flares:** All vehicles that have tires which extend past the body are required to have fender flares installed.

(10) **Trailer hitch:** Hitch balls must be removed prior to inspection.

(11) **Steering:** Vehicles with steering wheel on the right hand side will not be accepted in Keflavik Iceland.

(12) **Speedometer:** Speedometer must indicate speed in kilometers/MPH. Transparent overlays can be manufactured to satisfy this requirement.

(13) **Turning Signal:** Vehicles manufactured after March 1988 turning signal must be visible from front and side of the car, signal must blink not only from bumper but also the side of front fender headlights, or will cause failure of inspection.

(14) **Exhaust System:** Vehicles manufactured after 01 July 1990, that have the tail pipe ends extending to the right must have pipe end bent down or straight back or will cause failure of inspection.

e. **REPAIRS:**

(1) Tires and minor mechanical repairs are available at the Navy Exchange Service Station on-base. Limited POV parts are available. Parts and repairs off-base are expensive.

(2) Because vehicle repairs in Iceland are expensive and the mandatory inspections are quite strict, it is recommended all POVs shipped be in excellent condition and any required repairs be accomplished prior to shipment.

f. **THE FOLLOWING OPTIONS APPLY TO DRIVING ON SNOW OR ICE-COVERED ROADS:**

(1) Snow tires on all wheels.

(2) Chains on all wheels of the drive axle (front or rear).

(3) Studded tires on all wheels.

(4) Studded tires on wheels of one axle and chains on wheels of the other axle. You may not use two studded tires alone. Chains and studded tires may not be used during the period 16 April through 31 October, unless necessary due to special driving conditions. Should you be observed driving a vehicle on ice and snow covered roads without the proper equipment, you may be issued a citation; furthermore, if you are involved in an accident and your vehicle is not properly equipped, you will automatically be held responsible for the accident.

g. **REGISTRATION:** The initial cost to register a POV is \$270 (varies with exchange rate). This includes registration, safety inspection, plates, and headlight inspection. A POV that fails a safety inspection is subject to \$24 reinspection fee. There is also an annual safety inspection charge of \$67.

h. **MODIFIED/ALTERED VEHICLES:** Vehicles which have been significantly modified or altered from their original factory specifications (e.g., four-wheel drive trucks with raised suspensions) may be subject to a special inspection at the Icelandic Motor Vehicle Supervision Office to ensure they conform with all applicable vehicle rules and specifications. The cost of the inspection is approximately \$200. Additionally, these vehicles are required to carry both a fire extinguisher and a first aid kit at all times.

i. **VEHICLE AVAILABILITY:** Four-wheel drive vehicles are very popular in Iceland. Used POVs, some with four-wheel drive, are available on-base. Additionally, many models of new POVs can be purchased on and off-base, free of Iceland taxes. However, these vehicles cannot be shipped back to the US at Government expense, unless the vehicle is purchased to replace a vehicle lost through fire, theft, accident or similar causes.

9. **SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL:** No restrictions identified.

10. **STUFFED WILDLIFE/ANIMALS/PLANT RESTRICTIONS:** The shipment of plants (with soil) is prohibited. No other restrictions identified. (CH)

13. **OTHER:**

**STORAGE:**

a. Facilities are available in Iceland for storage in transit. NTS is not available.

b. Unaccompanied members should not bring their own furniture items and should "pack light" because excess storage facilities are not available.

c. NTS is not available. Large or excess items will be reshipped to NTS at members expense or disposed of by owner.

d. Bachelor housing does not provide covered parking for POV's. Adequate outdoor parking will be available.

CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS: Irish customs require a full inventory of all incoming shipments be furnished with customs clearance and transfer of residency forms in order for shipping agent to clear all HHG and air freight arriving in Ireland. No exceptions are made. The animal must arrive with a valid shot record, a current rabies shot (administered no more than 30 days prior to arrival), and a certificate of good health. The originals of these documents should travel with the pet but be sure you also have copies. Cost ranges from around 1500 dollars for a cat to over 2200 dollars for a dog, depending on size. Ireland has only one approved quarantine facility which is located on the outskirts of Dublin. You should contact the Irish Department of Agriculture's Veterinary Division for further information.

7. **PRIVATELY OWNED FIREARMS (POFs):**

a. **HANDGUNS:** Local law requires a gun owner must be in possession of a current Irish Firearm Certificate (Gun License) for each firearm prior to importation into Ireland. In the absence of the owner's Irish Firearm Certificate, Irish customs will take possession of the firearms at the port of entry and will hold them until a firearm certificate is shown by the owner, at which time the firearms will be released to the owner. Irish laws governing the use and possession of any type of firearm are strictly enforced with heavy penalties. No person under the age of 16 years may own or use a firearm and will be denied a firearm certificate. A primary requirement of obtaining a Firearms License is the owner's proof of membership in a local gun club (approx USDOLS 45.00 to 55.00 per year) or permission from two local landowners to hunt on their property (no charge). The following are prohibited for importation or purchase throughout Ireland:

(1) Automatic weapons (repeater and automatic shotguns must be adapted so that they carry no more than three cartridges);

(2) Guns exceeding .22/250 (5.6mm) calibre or with a barrel shorter than 24 inches;

(3) Cross bows.

(4) Up to 500 cartridges may be imported with each gun. Cartridges of any bore are generally available in the larger Irish towns. Smaller towns will usually supply 12 bore cartridges, but there may be some difficulty in purchasing ammunition of smaller bore.

b. **RIFLES/SHOTGUNS:** Employees must have the following information for each gun in order to complete the necessary application forms:

(1) For rifle or airgun, air rifle, and shotgun: Applicant's date of birth;

(2) Calibre, manufacturer, and number of gun;

(3) Whether single or double barreled, or repeater;

(4) Bore (calibre);

(5) What type of birds or animals you hope to shoot;

(6) Number of rounds of ammunition to be imported with gun;

(7) details of any firearm certificate now held by you;

(8) ETA of gun into Ireland.

c. Deer hunting requires a Special Firearms Certificate and Hunting License. Rabbits are open season all year round and no hunting license is required. Long bows require a separate license in place of the Firearms Certificate, evidence of membership in a long bow club.

d. **TOY-RELATED GUNS:** No restrictions identified.

e. **OTHER (i.e. AMMUNITION, EXPLOSIVES, ETC):** No restrictions identified.

8. **PRIVATELY OWNED VEHICLES (POVs):**

All vehicles of 4 years or more will be required to pass the National Car Test to obtain a certificate of competency.

b. **MOTORCYCLES/MOPEDS:** No restrictions identified.

c. **GASOLINE/CATALYTIC CONVERTERS:** No restrictions identified.

(3) Vehicles in excess of 2000 C.C.;

(4) Drivers under 30 years of age;

(5) Drivers with no previous insurance record;

(6) Drivers with previous accidents/convictions;

(7) Vehicles with markings indicating a higher performance engine, e.g. turbo, GTI, etc.

e. Inbound military personnel who are coming to Ireland on a transfer of residency basis are permitted to import one vehicle free of local duties provided vehicle has been in their possession for a period of at least six months prior to shipping. A valid certificate of title is required to register the vehicle.

9. **SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL:** No restrictions identified.

- Dogs and Cats younger than three months will not be admitted.

Every Importation of Animals must be notified to the Ramla Quarantine station at least 48 hours prior to the arrival to Israel Fax No. 972-8-922-9906. Animals arriving in good health and properly certified will generally not be quarantined.

For further information please contact the following:

The Director of the Veterinary Services / Import Export Officer  
P.O. Box 12. Beit Dagan 50250, Israel, Fax: 972-3-690-5194 or -  
Ramla Quarantine Station, P.O. Box 63, Ramla, Israel. Fax: 972-8-922-9906 **(CH)**

7. **PRIVATELY OWNED FIREARMS (POF's):** Only certain non-automatic firearms and ammunition may be brought to Israel. **Prior permission from Chief of Mission stating exact type, etc. is mandatory.** They cannot be shipped with personal effects. All firearms must be registered with local authorities and licensed by them in the owner's name. Hunting licenses must be applied for separately. **(CH)**

8. **PRIVATELY OWNED VEHICLES (POVs):**

- a. **POVs:** The Israeli Ministry for Foreign Affairs and Customs Authorities do not authorize the importation of POV's until the owner has arrived in country. Please make sure that the arrival of a POV coincides with that of the owner.

- (1) **VEHICLE DETAILS:** The following details must be forwarded to post: make and model, year, engine size (**very Important**) and VIN No. Before shipping a POV please fax a copy of vehicle title to GSO Shipping, FAX 011-972-9-955-8656. **(CH)**

(2) **REGISTRATION:** All vehicles imported into Israel must comply with European specifications. The main problem encountered is the conversion of headlights from US to European specs. The cost of such conversion can be as much as 1000 USD. Diplomats and AT staff who import non-conforming vehicles face the possibility of having to either store or re-export the vehicle at their own expense. Before shipping any vehicle to Israel please check with the appropriate local transportation office.

(3) **ADDITIONAL INFORMATION:** Employees are exempt from customs duties on bought or imported vehicles. However, such duties will have to be paid when selling a vehicle on the local market and therefore will have a direct bearing on your ability to sell the vehicle upon departure. Customs duties are based on each vehicle and on the current customs regulations in force at the time. **The age of the vehicle does not necessary allow for graded reduction.**

(4) **RESTRICTIONS:** The importation of diesel powered vehicles (older than 4 years) or right hand drive vehicles is not permitted by the GOI.

(5) **SECOND VEHICLE:** Employees, if accompanied by a spouse, are permitted to import or purchase a second POV duty-free.

b. **MOTORCYCLES/MOPEDS:** Motorcycles and mopeds are considered as POV's in Israel.

c. **GASOLINE/CATALYTIC CONVERTERS:** Unleaded fuel is available; therefore catalytic converters do not have to be removed.

d. **INSURANCE/SAFETY REQUIREMENTS:** Insurance costs in Israel are subject to the Dollar rate and Inflation and can vary greatly depending on the type of vehicle. There are 2 basic kinds of insurance in Israel.

(1) **Mandatory Insurance:** This is a statutory insurance set by the Government of Israel (GOI). Its purpose is to cover bodily injury to any person involved in an accident. No vehicle may be registered or driven on Israeli roads without this insurance. This insurance costs between 500-900 USD (depends on the make and model, engine size or weight of the car).

(2) The second kind of insurance, which covers damage to property, can be split into different levels of coverage: I) Third Party/Liability covers damage to the other party's vehicle. II) Comprehensive/collision covers all eventualities e.g., theft, damage to owner's vehicle. The policy may be purchased locally or from the US, however, please note that some US policies do not cover for third party. In addition, please check when purchasing a US policy how you would be represented locally in the case of an accident. Embassy policy requires at least third party coverage for all Embassy POV's.

9. **SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL:** No restrictions identified.

10. **STUFFED WILDLIFE/ANIMALS/PLANT RESTRICTIONS:** No restrictions identified.

11. **TRANSMITTING EQUIPMENT:**

a. **CBs:** Importation or utilization of CB radios is not authorized.

b. **AMATEUR/HAM RADIOS:** Requires local Government authorization prior to shipping.

c. **MARS EQUIPMENT:** Requires local Government authorization prior to shipping.

d. **DISH ANTENNAS:** Requires local Government authorization prior to shipping.

e. **CORDLESS PHONES:** Requires local Government authorization prior to shipping.

12. **SEPARATEES/RETIREEES ENTITLEMENTS/LIMITATIONS:**

a. Personnel moving to Israel incident to retirement or separation are considered new immigrants and/or temporary residents, depending on the type of visas obtained. Local regulations require that in some cases shipments be opened, inspected, and assessed by Customs Authorities, in owner's presence, at port of arrival and any custom duties and/or import taxes be paid before goods are released for onward movement to final destination. Therefore, owner must ensure that if required, they are present at the time of release of their effects. They must also make certain they fully understand any limitations in their Israel Visa category before their arrival in Israel, which might cause unnecessary delays in releasing their shipments.

b. Household effects must be consigned to the owner and shipped by prepaid seafreight only. AMC flights should not be used for this type of shipments. Destination PPSO is TMO, Israel tel. 972-9-956-7081 fax. 972-9-950-1611, E-mail: **(CH)**

(1) **Aviano AB:** Members should contact their sponsors for specific information. Currently the Furnishing Management Office (FMO) provides all major household appliances, wardrobes and transformers to operate the small appliances since there is a difference in wattage.

(2) **Leghorn:** Ranges, refrigerators, washers, dryers, kitchen cabinets, and wardrobes should not be shipped as these items are provided by Central Furnishing Management Office. Non-temporary storage of items shipped is not authorized.

(3) **Naples:** Ranges, refrigerators, freezers, washers, dryers, kitchen hutches, and wardrobes should not be shipped. Partial Full Tour Furnishing (PFTF) provides these items. We advise the service member to check with his or her sponsor for details.

(4) **NAS Sigonella:** It is not recommended to ship major electrical appliances due to the difference in wattage. The Housing Office provides the following items for use in on and off base housing: washer, dryer, refrigerator, stove, microwave, kitchen cabinets, wardrobes, transformers, gas detectors, carbon monoxide detectors, computer desk, standing fan, and medicine cabinet. We strongly advise that the member check with his sponsor before arranging his shipment to Sicily.

Washers, dryers, ranges, refrigerators, kitchen cabinets, and wardrobes are furnished for government and economy quarters. NTS is not authorized OCONUS except under very limited circumstances. (CH)

6. **PETS/QUARANTINE:**

a. There is no quarantine period in Italy. Rabies immunizations all dogs and cats over 12 weeks of age must have a rabies vaccination not less than 30 days and not more than 11 months prior to arrival in Italy. Contact your military or civilian veterinarian and the nearest Italian embassy/consulate for the necessary paperwork and information on shipping your pet to Italy. You will need an Italian health certificate (Health Certificate for Import and Transit Through Italy of Dogs and Cats Accompanying Travelers - form is written in Italian, French, English and German). Forms may be available through your military veterinarian and should be available through one of these offices:

(212) 737-9100

(2) Italian Consulate  
2590 Webster Street  
San Francisco, CA. 94155  
(415) 931-4924

(3) Italian Consulate

b. The following data is required on the veterinary health certificate: personal identification of the owner, a detailed description of the animal attesting to its good health, rabies vaccination information vaccine used, vaccine lot number, date administered and signature of veterinary inspector. The health certificate is good for 10 days (Personal identification of the pet owner and detailed description of the pet, attesting to its health on the date of examination) and must be certified by an official veterinary service. An

entry fee includes debarkation taxes, veterinary certification and customs handling is levied - ranges from \$15 to \$20.

c. Pet owners are advised transporting pets to/from Aviano AB is at members expense and is very costly. Aviano AB is at members expense and is very costly. Aviano has no full time veterinarians but commercial vets are available.

d. Pet owners transporting pets to Naples and Aviano required registering and scheduling identification (ID) implant appointment for their pet at the veterinarian office during their check-in. The implant fee is approximately 20 dollars. It is strongly recommended the pet owner contact their sponsor for additional restrictions regarding the type of pet they may have.

**7. PRIVATELY OWNED FIREARMS (POFS): Shipping of any kind of weapon is prohibited. The Italian Government has imposed a ban on shipment of privately owned firearms to Italy.** POF includes any weapons that is designed for or can be readily converted to be used for attack, defense, sports, games or hunting by driving a projectile through the barrel. This includes air pistols, air rifles and firing replicas of antique firearms. Additionally, it includes spring-opening knives, fixed bowie knives, straight-edge razors, brass knuckles, blackjack devices, cans with sharpened points, pipes, chains, slings, metal spheres, and any other like weapon which may be used for offending a person is forbidden. Italian law states that pocket knives may be carried, but the blade must no exceed two inches in length.

**8. PRIVATELY OWNED VEHICLES (POVS):**

**A. POVS:**

(1) The Italian Ministry of Finance (Customs) authorizes DOD military and civilian employees to import, free of duty taxes, no more than three privately-owned motor vehicles including motorcycles for personal and/or family member's use. However, only one is authorized at government expense. For registration and licensing of a vehicle that exceeds 50cc personnel must be 18 years of age and possess a valid operators permit for the imported automobile or motorcycle. For motorcycles that exceed 350cc personnel registering must be 18 years of age.

(2) Due to customs clearance process, POVs for La Maddalena, IT, should be consigned to KF1 Naples or FFT KG2 La Maddalena, IT. Forward a legible copy of the POV registration with a copy of the PCS orders to NAVSUPACT La Maddalena, same procedures applies to shipping a motorcycle with HHG.

(3) Due to customs clearance process, members shipping a POV to the Port of Naples are advised it is extremely important to forward a legible copy of the POV registration prior to the expected arrival date of POV. Mail to: PPSO S43 NAVSUPACT, PSC 808 Box 42, FPO AE 09618-0042. Same procedures apply to members shipping a MOPED or motorcycle with HHG. (CH)

(4) A POV shipped at owners expense must clear customs at the port of entry. Customs clearance must be arranged through a broker and all associated fees are the owner's responsibility. The fee is approximately 250 US dollars.

**b. MOTORCYCLES/MOPEDS:**

(1) All mopeds, motorbikes, and motor scooters less than 50cc shipped with HHG are entered duty free, but must be licensed and registered with the motor vehicle registration office prior to use on the road. Plates will be issued for those less than 50cc in the name of the sponsor only, however, the vehicle can be operated by all family members 18 years of age or older. TO operate a motorcycle that exceeds 350cc, the registered owner/operator must be 18 years of age. Before registration and licensing all individuals must show evidence of successfully completing an approved motorcycle safety course. (CH)

(2) To effectively clear customs by local port officials, all

mopeds/motorcycles shipped with HHG must be packed in a separate container and listed on inventory with make, model, and chassis number and in Block 27 on the PPGBL or on the TCMD identified with make, model, and chassis number, i.e., "This shipment consists of one lot of household goods with a 1984 Honda 750cc motorcycle chassis/serial number JT2AM21." It is the members responsibility to ensure that no other household goods are packed with the motorcycle. (CH)

(3) **Leghorn:** When motorcycles are shipped as HHG, they should be crated separately and marked on the outside of the crate as they require separate customs clearance and could delay entire shipment.

(4) **NAPLES:** Motorcycles may be shipped as household goods but must be placed in a separate container. To facilitate the customs clearance process, members shipping a motorcycle to Naples are advised it is extremely important to forward a legible copy of the registration, the DD Form 788 and orders prior to the expected arrival date of POV. Mail to: PPSO, NSA-NAPLES CODE 443 PSC 810 Box 42, FPO AE 09619-1042. The motorcycle must be listed on the inventory with make, model, and chassis number in block 27 on the ITGBL or the TCMD. Ensure member retains a legible copy of the inventory. (CH)

(5) **NAS Sigonella:**

(a) Mopeds, mini-bikes, and motor scooters less than 50 cubic centimeters (cc) engine displacement may be shipped with HHG. However, member must be at least 18 years old in order to operate such a vehicle. In addition, before registration and licensing, all individuals must show evidence of successfully completing an approved motorcycle safety course.

(b) Motorcycles may be shipped as household goods but must be placed in a separate container. A copy of the DD Form 788 and the member's orders must be sent to PPSO, NAS Sigonella in advance. A motorcycle must be listed on the inventory with make, model, and chassis number in block 27 on the ITGBL or the TCMD. Ensure member retains a legible copy of the inventory.

(c) We strongly advise that members check with his sponsor before arranging shipment of his motorcycle/moped.

**c. GASOLINE/CATALYTIC CONVERTERS:**

1. There is adequate availability of unleaded gas to accommodate the operation of catalyst-equipped POVs. Members shipping a POV to Italy no longer must remove their catalytic converter to participate in the DOD Importation Control Program. There are no approved facilities for removing/refitting catalytic converters.

**d. INSURANCE:**

(1) Insurance is required to operate all vehicles on Italian highways.

(2) Automobile insurance for the Naples area is expensive. Cost depends on make, model, and year of vehicle with the annual premium for minimum coverage costing up to \$4,000.00 per year. Vehicles cannot be released for registration and use, without proof of valid insurance.

(3) Liability insurance with equivalent dollar minimum of 100,000-50,000-10,000 is currently required. Individuals who retain this coverage with US companies must possess a valid insurance green card. Insurance is available on the local economy.

**e. SAFETY REQUIREMENTS:** There are no restrictions as to color, age, dimensions, or special lighting of POVs imported. Vehicles must be in mechanically safe operating condition and each must undergo a detailed safety inspection. Vehicles that do not conform to the mechanical and safety standards may be denied a decal and/or temporary pass for operation aboard the military installation. Common causes of POV inspection failures in Italy are:

(1) **Brakes:** A POV must have two separate means of applying brakes. The failure of one braking system must not affect the other.

(2) **Horns:** A POV must be equipped with horns capable of being heard at least 200 feet.

(3) **Lights:** All installed lights must be operational. The tail lights or a separate lamp must illuminate the rear license plate. Backup lights must function when the transmission is engaged in reverse gear. All POVs except light motorcycles or mopeds 50cc or less will be equipped with directional signals.

(4) **Tires:** All tires must have at least 1mm tread over the complete tire surface. No re-grooved tires are allowed; the tires must be mounted on the drive wheels of the vehicle, unless the POV is equipped with snow tires. Tires extending laterally beyond the fenders are prohibited.

(5) **Windshield Wipers:** Must be operational and the blades serviceable.

(6) **License Plates Mounts:** All vehicles require front and rear license plate mounts.

(7) **Others:** Faulty exhaust system, exterior condition (missing fenders, broken windows, etc.), missing mirrors, and improper wheel alignment (wheels that cannot be turned from full right to full left without jamming or rubbing part of the vehicle).

f. **POV DOCUMENTATION:** Duty-free clearance of POV and/or motorcycle/moped shipped as a POV is arranged by military terminal personnel at the port of entry. In order to complete this procedure expeditiously, it is imperative that the DD 788 or DD 788-2 clearly states the correct chassis and license of the vehicle imported. To further expedite customs clearance and vehicle registration, ensure that the advance copy of the DD 788 or DD 788-2 is mailed to the destination ITO/TMO prior to shipment arrival. Also ensure member retains a legible copy of the DD 788 or 788-2 for both automobile and/or moped/motorcycle shipped as POV.

9. **SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL:** No restrictions identified.

10. **STUFFED WILDLIFE/ANIMALS/PLANT RESTRICTIONS:** No restrictions identified.

11. **TRANSMITTING EQUIPMENT:**

- a. **CBS:** Importation is strictly prohibited.
- b. **AMATEUR/HAM RADIOS:** No restrictions identified.
- c. **MARS EQUIPMENT:** No restrictions identified.
- d. **DISH ANTENNAS:** No restrictions identified.
- e. **CORDLESS PHONES:** No restrictions identified.

12. **SEPARATEES/RETIREEES ENTITLEMENTS/LIMITATIONS:** Retired personnel who choose Italy as home of selection and wish to ship their household goods should contact the nearest Italian Embassy or Consulate for information concerning customs, taxes, and any other requirement in connection with importation of personal property into Italy or obtain the Certificate of Residence issued by the local Italian area city Municipal Hall officials. When accomplished and prior to shipment arrival, contact the commercial carriers broker with the documents to obtain clearance. Shipments may be made on the PPGBL (SF1203), however, upon shipment arrival the customs clearance process is their responsibility and is not authorized at government expense. The GBL when issued must be annotated in block 25 with the words "retirement or separation shipment".

13. **OTHER:** Strongly recommend that member shipping full JFTR carefully select

those items needed to establish living comfort, considering economy and government lease quarters are in almost all cases, smaller than those found in CONUS. Storage space in these quarters is very limited. Ranges, refrigerators, washers, dryers, kitchen cabinets, and wardrobes should not be shipped as these items are provided by family housing. Except for temporary loan, no other items are available. Non-temporary storage of items shipped is not authorized. |

(4) **Marine Corps personnel, Okinawa, JA:** 25 percent of full JFTR weight allowance or 2,000 pounds, whichever is greater. MCB Camp Butler continues to receive personal property shipments in excess of the JFTR administrative weight restrictions. Improper counseling by ITOs has caused financial hardship for Marine Corps and Navy members attached to MCB Camp Butler. Close examination of the area clearance, which required for accompanied tour personnel, is necessary.

b. **CONTAINER/CRATING REQUIREMENTS:** No restrictions identified.

c. **HARD LIFT AREA:** No restrictions identified.

d. **UNACCOMPANIED BAGGAGE:** No restrictions identified.

e. **ITGBL RATES:** ITGBL rates for Japan cover the principal Japanese Islands of Honshu, Shikoku, and Kyushu. Shipments to or from the Island of Hokkaido will be solicited under the one-time-only (OTO) procedures. This includes Sapporo, Obihiro, Wakkanai, and all other points in Hokkaido. Use TMO, Misawa AB, JA (QEFL), as responsible PPSO; however, shipment MUST be consigned to the destination street, city, on Island of Hokkaido under the OTO rate.

2. **CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS** : Personal property consigned to and for personal use of members of US Armed Forces, civilian component and their dependents will be exempt from customs duties provided the property is imported within 6 months of initial arrival date of members and/or dependents in Japan.

c. **FOODSTUFF AND MEATS:** No restrictions identified.

d. **MEDICATION (NARCOTICS) /PHARMACEUTICAL PRODUCTS:** No restrictions identified.

4. **ELECTRICAL EQUIPMENT:**

a. **HOME COMPUTERS:** No restrictions identified.

b. **TVs/VCRs:** No restrictions identified.

c. **OTHER (i.e. COMPATIBILITY, ETC:** No restrictions identified.

5. **FURNITURE:**

a. **Misawa AB:** Due to shortage of Government-owned essential furniture items, members with pay grade of E5 and above serving an accompanied tour are required to ship privately-owned essential furniture items, i.e., beds, clothes chests, dining set, and living room sets to Misawa AB, JA, in conjunction with their PCS move. They are authorized to ship a restricted weight of 2,000 pounds or 25 percent of full JFTR weight allowance, whichever is greater; 3675 pounds for the member and spouse; 700 pounds for each additional dependent; plus the unaccompanied baggage allowance for the member and dependents. Attention: Please be advised all major appliances such as stoves, refrigerators, washers, and dryers are available and will be furnished by the Government. Exception is a freezer, which is not provided by the Government. Due to small size of on and off-base quarters, contact your local sponsor for additional data concerning size and available floor space of quarters. Consider Non-temporary Storage (NTS) of nonessential items to avoid unnecessary and expensive commercial storage at Misawa area.

b. **Yokota AB:** Effective 1 September 1998, Air Force personnel assigned to Yokota will be authorized concurrent travel. Individuals should contact their sponsors or their gaining command to inquire about housing and the availability/non-availability of government furnishings.

c. **FISC Yokosuka-Yokohama area:**

(1) Members must be counseled on non-availability of government storage facility and inability of most local economy housing to accommodate HHG over 6,000 pounds. To avoid unnecessary and expensive commercial storage. Large furniture items and major appliances such as a washer, dryer, gas range, freezer, refrigerator, couches/sofas and king size bed sets should be placed in NTS at origin for duration of member's overseas tour. Major appliances are furnished in both government quarters and off-base housing (local) economy) on request from the command sponsored member.

(2) Due to small Japanese economy quarters; long waiting list for military family quarters (22-30 months for military/39-46 months for GS-12 civilians and above) and extremely high cost of commercial HHGs storage, member should be counseled on not designating a partial lot HHG shipment. End of SIT entitlement at government expense for items remaining in HHG storage while awaiting assignment to family quarters places the member in an out of pocket expense scenario in order to gap the difference in time. Member should be further counseled on exploring other storage option entitlements in CONUS i.e., NTS or conversion of NTS to SIT before the end of 180 day rule in JFTR U5375 3. C. DOD civilians may request shipment of NTS under a renewal

agreement IAW JTR, Vol II, para C8002, 3.c.(1).

d. **FISC Det, Sasebo:**

(1) Members should be counseled on non-availability of government storage facilities. Most off-base dwellings can only accommodate HHGs up to 5,000 pounds. NTS should be utilized for personal property not needed during tour of Japan. Average waiting time for on-base housing is 12-18 months. Government appliances (washer, dryer, refrigerator, cooking stove, air conditioner, and kerosene heater) are provided by housing office both for on base and off-base residents. Loaner furniture (tables, chairs, chest of drawers, and beds) are also available upon request for members waiting their HHGs to arrive.

(2) Advise counselors to encourage members inbound to this activity to designate items and locations for partial withdrawal items. The items designated for partial withdrawal out of SIT must be separated at origin, packed separately, and all copies of the inventory clearly marked to reflect which inventory items are to be withdrawn.

e. **NAF Atsugi:**

(1) Washer, dryer, and refrigerator are provided by the housing office both for on-base and off-base residents. Loaner furniture consisting of chairs, tables, and chest of drawers are also available upon request for members waiting for their HHG to arrive. Waiting time for on-base housing is 7-20 months for officers and 12-24 months for enlisted.

(2) Members should be advised and counseled on non-availability of government storage facilities. Most off-base dwellings can only accommodate HHG up to 5,000 pounds. Large furniture are highly discouraged due to the size of doorways and windows in Japanese style house. NTS should be utilized for personal property not needed during tour in Japan.

f. **MCAS Iwakuni:**

(1) Due to limited amount of space in on and off base quarters it is recommended member's consider non-temporary storage of non-essential items. Temporary storage facilities are limited and expensive.

(2) Advise counselors to encourage members inbound to this activity to designate items for partial withdrawal due to duration of stay in temporary lodging facilities. These items designated must be identified on the inventory as partial removal items and placed in the number one container.

6. **PETS/QUARANTINE:**

a. Shipment of pets as excess baggage accompanying the member in PCS travel may be accomplished by requesting category "Y" or "B" travel. Advance (90-120 days) reservations are required for pets and should be requested at the same time PCS port call is being requested. There is no entitlement for shipment of pets at Government expense.

b. Personnel who choose to bring pets may bring them into Japan via commercial air or AMC's Category B (Patriot Express) flights. The only authorized AMC military ports for importing/exporting pets are Yokota, Kadena, and Misawa AB (Misawa export only). Whether arriving at a commercial or AMC port, MDJ Form 270, Pet Quarantine and Examination Certificate is required. An MDJ Form 270 will be issued upon arrival at the point of entry - commercial or military port. The original rabies certificate must accompany the animal. Rabies vaccines need to be older than 30 days and less than one year old upon entry into Japan. The original health certificate must also accompany the animal. Health certificates issued in the US are valid for ten days only. **If**

**either the rabies certificate or health certificate was issued by a civilian veterinarian, it must have the raised seal of the USDA.** Members must comply with instructions on the MDJ Form 270, to include a 14 day home quarantine. If a pet is shipped separately as freight, it will be customs cleared using USFJ Form 380EJ provided by the transportation office in Japan. Contact a local veterinarian about detailed medical requirements for shipment of pets into Japan. Additional information can be found on US Army Japan's website: <http://www.usarj.army.mil/organization/vet>.

7. **PRIVATELY OWNED FIREARMS (POFs)**:

a. US Forces Japan (USFJ) personnel must meet the requirements of Japanese law. Japanese Government has **PROHIBITED** local agents in Japan from line-hauling HHGs shipments containing firearms on Japanese highways. USFJ members are **NOT AUTHORIZED** to import or possess handguns, rifles, pellet, air or bb guns in Japan, including Okinawa. All shotguns will be mailed by the member through the US Postal System, consigned to the Commander, unit of assignment, of the gaining command. USFJ members who own shotguns and reside off-base must store their shotgun(s) in the armory on-base and can only be checked out as needed for approved use. Service commanders are authorized to impose more stringent requirements than those outlined herein regarding privately owned firearms (POFs). Members need to contact the local (Japan/Okinawa) Commander/TMO/ITO to determine if POFs can be shipped into Japan including Okinawa.

b. **All US Naval Installations in Japan (FISC Yokosuka, Sasebo, and Atsugi)**: Importation of firearms into Japan is prohibited. US military members, or US Civilian components, assigned to duty either on a permanent basis, or extended temporary duty, shall not import by mail, or household good shipments, any type of handgun, rifle, shotgun, pellet, air or bb guns.

c. **For Okinawa**: Importation of handguns, rifles, pellet, air and bb guns to Okinawa is strictly prohibited. Possession of these types of firearms on Okinawa is not authorized. Shotguns, may be imported, however, it is strongly discouraged. Use of parcel post only (subject to postal regulations). Members must mail shotgun(s) to their gaining unit Commander, marked for member. Shotguns MUST be stored in the armory and can only be checked out as needed for approved use. DOD members must have a current Japanese gun permit prior to transporting, using, storing, or otherwise possessing firearms outside military installations on Okinawa. DOD members planning to ship shotguns must coordinate with their sponsors or gaining unit before proceeding with the shipment.

d. **TOY-RELATED GUNS**: No restrictions identified.

8. **PRIVATELY OWNED VEHICLES (POVs)**: POV shipments are subject to embargo or waiver requirements. Effective 1 April 1996, the Assistant Secretary for Defense (for Management Policy) has granted limited case-by-case, waiver authority to Commander USFJ for shipment of post 1976 type vehicles to Mainland Japan only. Okinawa continues to be under an embargo status and is not included under this waiver authority. The waiver authority for Mainland Japan has been further delegated by USFJ to Component Commanders. When requesting a waiver the following information should be included: make/year/model of vehicle and vehicle identification number (VIN), if equipped with California emission. All DoD/military members/employees must obtain prior approval from their respective service authority in Japan named in para 8e. All imported motor vehicles must be registered by the Government of Japan.

(1) All DoD/service members must be counseled on the following items: the high cost of initial registration of their POV in Japan (\$3000 to \$5000 dollars per vehicle based on 100 Yen to \$1.00 US dollar), availability of

parts and qualified maintenance, and emission testing (\$3,000 to \$5,000).

(2) POVs shipped to Japan are either category A or B.

(a) **Category A** are POVs manufactured prior to 31 March 1976. Category A POVs will have to meet the insurance, taxes, registration fees and local vehicle emission standards and safety requirements (headlights, color of bulbs, MPH to KPH speedometer, etc.). This category will not require a waiver. Category A POVs may be shipped to Mainland Japan or Okinawa, Japan as appropriate. Estimated cost per vehicle is between \$500 to \$1000 based on 100 Yen to \$1.00 US dollar.

(b) **Category B** are POVs manufactured after 31 March 1976. Category B POVs will have to pass the Japanese Vehicle Emission Standards (JVES), plus the above mention items (insurance, tax, and registration requirements). This category will require a waiver (component services) and is authorized for shipment to Mainland Japan **ONLY!** Estimated cost per vehicle is between \$3000 to \$5000 based on 100 Yen to \$1.00 US dollar.

(c) Due to the remote locations and size of the installations of US Naval Base Sasebo, MCAS Iwakuni and Misawa AB, there are no on-base facilities authorized to modify or inspect vehicles to meet Japan emission and safety standards. The estimated cost per vehicle may be \$2,000 to \$5,000 based on 100 Yen to \$1.00 US dollar regardless of vehicle category A or B.

(d) Oversized vehicles, i.e., special purpose vehicles, campers, motor homes, recreational vehicles, exceeding 12 meters in length 2.5 meters in width and 3.8 meters in height will not comply with Japanese registration standards. Modifications, including installed camper shells, cannot protrude more than 15cm from each side of the vehicle. Total vehicle weight cannot exceed 20 tons: axle weight-10 tons; and wheel weight-5 tons.

(e) Members should contact their sponsors and/or transportation offices concerning the current cost of owning and operating POVs in Japan.

(3) Diesel passenger vehicles shipped to the Kanto plain: "Government of Japan vehicle regulations concerning some diesel-powered vehicles are in effect in the Tokoyo, Nagoya and Osaka metropolitan regions. U.S. Forces must abide by these regulations. The Tokoyo region includes Yokosuka NB, NAF Atsugi, Yokoto AB and Camp Zama. The new regulations are designed to reduce pollution in these heavy-traffic areas. Owners of older model diesel vehicles must determine if this law applies to their POV prior to shipping to an affected area. If they are shipping intra-Japan, they can check with their local Land Transportation Office (LTO). The newcomer can also request that his/her sponsor check with the local LTO. Members moving to the affected areas should consider these regulations when purchasing older model diesel vehicles. Information on vehicle registration can be obtained from local (Japan) installation vehicle registration offices." (CH)

b. **MOTORCYCLES/MOPEDS:**

(1) The Government of Japan (GOJ) has imposed requirement for motorcycles/mopeds over 250cc manufactured 1 July 1999 or later must comply with GOJ brake standards. In addition to the brake standard requirement, motorcycles/mopeds over 250cc manufactured 1 April 2001 or later must pass GOJ emission testing and meet engine exhaust emission control standards.

(2) The estimated minimum costs for mandatory engine exhaust emission testing is approximately \$800. Cost to bring a noncompliant motorcycle to standards depends on type/model. If a motorcycle does not meet brake standards, cost to bring into compliance could run \$2000-\$4000. (Brake testing cost depends on type/model). These are separate requirements (subject to manufactured dates) and failure to meet compliance places the owner in an

even costlier situation. The additional cost of meeting GOJ's standards is subject to the various equipment types and models and degree of difficulty in meeting compliance. There is only one brake testing facility in Tokyo; two emission testing facilities located in Tokyo and one in Osaka. There are no brake or emission testing facilities on Okinawa. Furthermore, there are no brake or emission testing facilities near Misawa, Sasebo, or Iwakuni (mainland Japan).

**The following paragraphs outline current DoD policy on importing motorcycles/mopeds over 250cc:**

(a) **Manufactured prior to 1 Jul 99:** No import restrictions.

(b) **Manufactured 1 Jul 99 to 31 Mar 01:** The motorcycle must meet brake standards. No import restrictions to **mainland Japan**, however, member should have a manufacturers certificate stating the motorcycle meets Japanese brake standards.

**Mainland Japan:** Members assigned to military installations outside the Kanto Plain (Tokyo area) will face high costs and extreme inconvenience transporting the motorcycle to a brake testing facility, if testing is required. The member (all mainland bases) should contact the motorcycle manufacturer and ask for a certificate that specifically states the vehicle meets Japan brake standards. If the member has any doubt about meeting the brake standard, he/she may send the manufacturer's brake certificate to the sponsor in Japan and ask him/her to check with the local Land Transportation Office (LTO). The sponsor can then advise the member (before shipment) if the motorcycle meets standards.

**Okinawa:** May only import to Okinawa if the owner obtains a certificate from the Okinawa LTO, before shipment stating the bike passes brake standards. To accomplish this, the member should request the sponsor in Okinawa to take the ORIGINAL COPY of manufacturer's brake certificate to the Joint Forces Vehicle Registration Office at Camp Foster for assistance. That office will provide a memo that must be taken to the LTO. After the LTO signs the memo (certifying compliance with brake standards), it should be mailed to the member, who must in turn, give to the origin TMO/ITO. The TMO/ITO can then arrange shipment.

(c) **Manufactured 1 Apr 01 or later:** Both brake and engine exhaust emission standards must be met. Members assigned to military installations outside the Kanto Plain (Tokyo area) will face high costs and extreme inconvenience transporting the motorcycle to an engine exhaust testing facility, and to a brake testing facility if required. Member must sign a memo (prepared by origin TMO/ITO) acknowledging costs/inconvenience if he/she chooses to ship to mainland Japan. A copy of this memo will be included in advance shipping documents sent to the destination TMO/ITO. **Motorcycle is prohibited from importation to Okinawa due to no brake and emission testing facilities.**

(3) Motorcycles/mopeds must be insured with a temporary registration tag in order to be driven to a testing facility.

(4) It is critical that counselors brief members of the extremely high GOJ compliance costs when shipping motorcycles/mopeds into Japan. Counselors should advise members as an alternative to place their motorcycles/mopeds into nontemporary storage as household goods for the duration of their tour in order to avoid the compliance expense. Service members may also use their POV storage entitlement (if a POV is not shipped) to store their motorcycle as a POV in the POV storage program where it will receive proper care.

(5) IAW Japanese Customs requirements, all motorcycles to include mopeds shipped as HHGs must be properly inventoried. The make, model, chassis number, and engine size must be noted on the inventory and shipping documents. Motorcycles may also be shipped as POVs. **(NOTE: motorcycles/mopeds do not require POV waivers)**. Motorcycles/mopeds shipped as part of HHGs that fall in the above manufactured date category [b.(1)] must still comply with GOJ's requirements.

(6) Motorcycles shipped as HHGs to Japan: All ITOs/TMOs are required to identify the inclusion of a motorcycle with make, model, chassis number, and engine size in block 27 of the PPGBL and as trailer card data on applicable TCMDs. Personal property carriers must show the same information on the inventory.

(7) **Diplomatic Personnel:** Department of Defense personnel on diplomatic assignment to the American Embassy, Tokyo must contact their sponsor or the Transportation Section of the Embassy for specific guidelines with respect to shipping a motorcycle.

c. **GASOLINE/CATALYTIC CONVERTERS:**

(1) Gasoline purchased on military installations is 89 octane. Off-installation gasoline is minimum 89 octane. Prices off base start at approximately \$4.00 per gallon for 89 octane. Higher grade gasoline off base is more expensive.

(2) Member should be counseled on extremely stringent emission standards imposed.

d. **INSURANCE/SAFETY REQUIREMENTS:** Effective 01 Jan 1997, each POV shall have insurance required by the Japanese Motor Vehicle Damage Compensation Guaranty Law. POV owners must secure and maintain supplemental coverage of no less than 30,000,000 Yen or \$300,000 for bodily injury, and 3,000,000 Yen or \$30,000 for property damage. Military and family members, and civilians assigned to US Navy commands, shall not operate private or rental vehicles unless the proper insurance provisions have been met.

e. **WAIVERS:** All DOD/military members/employees must obtain prior approval from their respective service authority in Japan as indicated below for shipment of POVs. The following are the POC's for POV Waivers:

(1) **For all Army:** Chief, Transportation and Services Division DCSLOG US Army Japan/9th TAACOM, Unit 45005, ATTN: APAJ-GD-TSD, APO AP 96343-0054, phone number DSN 263-3503/FAX number DSN 263-3414.

(4) **Diplomatic personnel:** All DOD military members ordered to Japan under diplomatic assignment are exempt from the 01 April 1996, Assistant SECDEF case-by-case waiver authority identified herein. DOD military members may ship POVs in accordance with guidelines established by appropriate authority at the Embassy to which they have been assigned.

f. **POV Consignment and Ports:**

(1) **Misawa AB:** If shipment of POV is authorized to Misawa AB, consign the POV shipment to 836th Transportation BN, Yokohama, JA (UM1), for transshipment to Hachinohe, JA (UH2), which is 20 miles from Misawa AB via highway. Four snow tires are required during 1 Dec through 31 Mar. Actual arrival date of the service member to Misawa should be annotated on DD Form 788 due to non-secure storage area at the Hachinohe fuel terminal.

(2) **FISC DET Sasebo:** Consign the POV shipment to 836th Transportation BN, Yokohama, JA (UM1), for transshipment to Sasebo, JA (UQ2), via Hakata Port, JA (UQ5). POV shipped to Sasebo, JA, by US Forces personnel must be cleared by Japanese Customs at port of discharge. To initiate clearance, owner must complete USFJ Form 380 at personal property office upon arrival in Sasebo, JA. Member should be counseled on extremely stringent emission standards imposed.

9. **SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL:** The importation of pornographic material is a violation of Japanese law. Any exposure of the public area is considered pornographic. Those items determined to be pornographic will be confiscated and destroyed.

10. **STUFFED WILDLIFE ANIMALS/PLANT RESTRICTIONS:** No restrictions identified.

11. **TRANSMITTING EQUIPMENT:**

- a. **CBs:** Use of Citizen Band (CB) is prohibited.
- b. **AMATEUR/HAM RADIOS:** No restrictions identified.
- c. **MARS EQUIPMENT:** No restrictions identified.
- d. **DISH ANTENNAS:** Personally-owned satellite dishes are prohibited.
- e. **CORDLESS PHONES:** No restrictions identified.

12. **DOD PERSONNEL ASSIGNED TO THE U.S. EMBASSY TOKYO :** Personal property shipments both inbound and outbound for DOD personnel assigned to the U.S. Embassy Tokyo will be processed/handled by their respective service.

- a. FISC Yokosuka is responsible for Navy and Marine personnel.
- b. Camp Zama is responsible for Army personnel.
- c. Yokota AB is responsible for Air Force personnel.

13. **SEPARATEES/RETIREES/ENTITLEMENTS/LIMITATIONS:** Personnel contemplating retirement, separation or relocating dependents to Japan should be counseled that all customs entry requirements to include payment of duties and taxes remain the responsibility of the member and is a personal matter between the member and the Government of Japan.

14. **OTHER:**

a. **JAPAN NATIONAL HOLIDAYS:** Japanese Customs offices close 29 Dec through 03 Jan. Also, many commercial companies including transportation and port operations close between 29 Apr through 05 May for golden week. RDDs should not be assigned later than 28 Dec or earlier than 05 Jan or between 29 Apr through 05 May. For planning purposes when scheduling RDDs, Japanese National Holidays are:

b. **BOATS:**

(1) Sailboats, motorboats, jet ski's and wave runners may be imported to Japan duty-free subject to the following provisions:

(a) Boats must be included in personal property shipments and imported within 6 months of sponsor's arrival in Japan.

(b) Sponsor must declare boat as unaccompanied personal property at the time of his/her entry in Japan and possess evidence of ownership (title/registration papers) and date of purchase.

(c) Properly completed USFJ Form 380EJ, which is required to authorize duty-free customs clearance, must be pre-entered at port of entry (POE) for personal property shipment. NOTE: This action will be accomplished for sponsor by the cognizant US Forces representative at POE.

(d) If boat is subsequently sold/transferred to non-SOFA personnel, consumption tax of 5 percent of boat's value will be charged by the Government of Japan.

(2) All DOD members should be counseled on the following items: (Note approximate dollar amounts shown).

(a) Initial registration, Japanese emissions clearance and Japanese insurance costs average \$300 to \$500.

(b) Insurance cost average \$1000 annually.

(c) Operator must obtain a class 4 boating license. The license cost is about \$400, and the test is only given twice a year.

(d) Parking is very limited at the marina, as well as in off--base housing areas. Ball type hitches are very rare and should be shipped in with the water craft, or trailers must be converted for a pintle hook connection.

(3) **For Okinawa:** Members requesting shipment of boats should be made aware of the following information (subparagraphs (a) through (e)):

(a) Considering all the expenses involved and limited weight entitlement allowed, this activity discourages the importation of boats to Okinawa.

(b) Boats cannot be shipped to Japan duty-free under the SOFA agreement. The Government of Japan will charge a 30 percent commodity tax based on the market value of the boat.

(c) It is difficult and expensive to obtain a license for the boats. There are only 2 boat licensing classes per year costing approximately \$300.

(d) Boat registration fee is approximately \$80 per year.

a. Authorized personnel may import goods duty-free if, at the time of importation, they are employed as members of the civilian component, invited contractors, technical representatives of other authorized United States Forces Korea (USFK) supported organizations or activities. Additionally, your duty-free import privilege is good only for 6 months after the date you arrive to serve with USFK, or the date your authorized dependents arrive for reunion with you, whichever is later. Shipments arriving after this 6 month period are subject to duty/taxes (up to 250 percent of the fair market value), or the shipment must be returned to the sender, or shipped out of Korea, abandoned, or sold at public auction. Requests for importation permits, with all particulars should be forwarded to: Commander, 8th MP-BDE, ATTN: SOFA Spt Div/USFK Customs, APO AP 97205. The following information applies to all personnel covered under the Status of Forces Agreement (SOFA) between the United States and Republic of Korea (ROK).

a. **Port of Entry/Shipping:** The entry point for all pets entering the Republic of Korea is Kimpo International Airport, Seoul, Korea. Osan Air Base is not an entry point due to the non-availability of Korea's customs personnel at this facility. Pets should be shipped directly to the ROK without any layover in Japan or Hawaii in order to preclude possible delay, due to Japanese or Hawaiian quarantine requirements. Attach the following documents to your pet's shipping cage: one copy of the health certificate, one copy of the rabies certificate, one copy of the flight itinerary, one copy of your PCS orders to Korea, and a feeding schedule (if your pet is on a special diet).

b. **Kennels:** Kennel/boarding facilities are available at Yongsan and Osan AB, Korea, for military and DOD civilians personal pets. Incoming personnel should have their sponsor contact the appropriate facility to coordinate kennel space and ground transportation for pets upon arrival in the ROK.

(1) Yongsan Pet Care Center is located in building 5256, near gate 17, telephone numbers are: 011-822-7916-6426, DSN: 736-6426, hours of operations are: Monday to Friday 1000 to 1900 and Saturday 1000 to 1700 hours. The pet care center is closed on Sundays and holidays.

(2) Osan AB Pet Center is located in building 766, telephone numbers are: 011-82-333-661-6614/8004, DSN: 736-6426, hours of operations are: Monday to Thursday 0830 to 1630 hours.

c. **Customs Clearance/Quarantine:** Health and rabies certificates are required for all pets entering the ROK.

(1) Documents required to clear customs and quarantine are: Health Certificate, less than 10 days old, the original plus two copies. Rabies certificate, the original plus two copies. The bill of lading, air waybill, or certificate of excess baggage, with original signature, if the animal is traveling unaccompanied. Rabies vaccinations must be current and at least 30 days old. Pets less than 90 days old are not required to have a rabies certificate. After clearing Korean customs pets with current health and rabies certificates will not undergo quarantine but will be released to their owners.

(2) Pets arriving without a current (expired) rabies vaccination or one that is less than 30 days old, will be quarantined at the owner's expense for up to a maximum of 30 days. Dogs and cats will be placed in quarantine at the National Quarantine Station in Seoul, Korea. Upon arrival in Korea pet owners must go to the Yongsan Pet Care Center and prepare the necessary forms for your animal to be picked up from the National Quarantine Station. The pet center will need the following documents: original health certificate; original rabies certificate; the bill of lading, air waybill, or certificate of excess baggage (if the animal is traveling unaccompanied); one copy of your PCS orders to Korea, and a Power of Attorney (forms are available at the pet center).

(3) When released from quarantine, you will need to register your animal with the 129th Medical Detachment, Veterinary Hospital within 14 days. The Yongsan Veterinary Hospital is located in building 4278, telephone numbers are: 011-822-7618-5144/5145 or DSN 738-5144/5145.

d. The pet owner is responsible for arranging and payment for housing and transportation cost for their pets. Most Korean hotels do not allow pets. Recommend having your sponsor make arrangements with the Yongsan or Osan Pet Care Center and to provide any additional information.

7. **PRIVATELY OWNED FIREARMS (POFs):**

a. **HANDGUNS/RIFLES/SHOTGUNS:** DOD personnel may bring nonautomatic firearms in "reasonable" quantities, i.e., a number/type normally found in the home for private use by the owner/and or his/her dependents. When arriving at Korean POD, weapons/ammunitions may be seized whether or not an individual is on travel orders. Individuals who have weapons/ammunition seized should contact the USFK Customs Officer immediately upon arrival in the ROK. All firearms, other weapons, to include any weapon which fires/ejects projectiles of any kind, by means of an explosive force (except for children's toys that eject a plastic projectile) and ammunition, will be stored in a unit arms room, rod and gun club, or Korean National Police Armory only. No weapons or ammunition will be stored in government or private housing - on or off post. Weapons will be registered within 3 working days of receipt with the MP/SP unit of your assigned area. Military personnel on leave and US civilians on leave to Korea have no Status of Force Agreement(SOFA) rights to import weapons and ammunition. They must comply with ROK domestic law, i.e., obtain import permits through a Korean Embassy/Consulate or the Korean Government prior to importation. These weapons/ammunition, once imported, will be registered/stored as outlined above.

b. **TOY-RELATED GUNS:** No restrictions Identified.

c. **AMMUNITION, EXPLOSIVES ETC:** Explosives of any kind are prohibited. No more than one standard box of ammunition per weapon is authorized.

d. **ARCHERY WEAPONS (includes crossbows):** This item is considered a Category A weapon. Item will be annotated on official transportation documents (unaccompanied baggage/household good shipment) on member's inventory list. Archery weapons brought into Korea via commercial airlines or by military aircraft will be declared on a Customs Declaration Form (USFK Form 96, 1 May 97) and confiscated upon arrival. The item(s) may be released within thirty (30) days after filing/completing proper documentation. Archery weapons must be registered at area (local) Provost Marshal Office within three (3) working days and stored in the unit arms room. All Category A weapons will not be stored in government or private housing, on or off-post. It's recommended that service member's store their archery weapons in Non-Temporary Storage (NTS). (CH)

8. **PRIVATELY OWNED VEHICLES (POVs):**

a. **POVs:** (includes information on prohibited vehicles, colors, etc.)

(1) USFK defines a POV as any motorized vehicle, excluding motor driven cycles with an engine combustion chamber of 49cc or less, including but not limited to, automobiles, trucks, station wagons, jeeps and motorcycles owned or operated for personal use. Additionally, USFK policy restricts operation and registration to one POV per family without regard to whether the vehicle was shipped as a POV or as household goods (HHG). Exceptions to the one POV limitation must be directed to the member's gaining unit for approval by the appropriate authority. USFK policy prohibits the registration and operation of a POV by unaccompanied personnel in the grades of E-5 or GS-4 and below; however, those accompanied personnel with authorized dependent travel at government expense to the ROK are exempt from the grade restriction. Unaccompanied personnel contemplating shipment of a two-wheeled motorized vehicle in their HHG should contact their gaining unit regarding registration and operation procedures. Registration and operation of a POV is restricted in many geographical areas. This is due to mission constraints as well as physical location. Due to these restrictions, all personnel not authorized to ship a POV are requested to contact their gaining command prior to shipping a two wheeled motorized vehicle with their HHG. No storage of POVs is available. For service restrictions and authorizations, see the applicable paragraph below. Unleaded fuel is available at all major installations in the ROK and is generally available at most service stations on the local economy. Catalytic converters do not need to be removed. If the catalytic converter is not removed, unleaded fuel must be used. Removal of the catalytic converter will be at the member's option and expense. There are no specific ROK safety requirements for POVs; however, USFK requires a local safety inspection as part of POV registration procedures. AAFES is the primary source of general automotive repair in the ROK. Very little automotive repair is available on the local economy. The AAFES repair facilities service all makes and models of POVs; however, AAFES does not always have the capability to deal with technological advancements that are in the newer models. The problem of servicing newer models is intensified due to the lack of mechanic experience, equipment and part availability.

(2) **Army Active Duty Personnel:** Shipment of one POV as defined in para 8a(1) above is authorized for persons whose travel of dependents at government expense is authorized, joint domicile couples scheduled to serve a 24 month tour and eligible personnel who elect and are authorized to serve the equivalent of a command sponsored (24 month) tour. Unaccompanied personnel must comply with the provisions of para 8a(1) above when contemplating shipment of a POV in their HHG.

(3) **Air Force Personnel:**

(a) Grades E-6, GS-5 and above assigned to the ROK are entitled to ship one POV regardless of the type of tour (accompanied/unaccompanied/DLM). Advance approval is not required unless member is assigned to specified units below:

(1) **Camp Red Cloud:** 604th Direct Air Support Sq. (DASS); OL-A, 30th Weather Sq.; Det. 1, 5 TAIRCG, OL-T, 6 MASG (AMC).

(2) **Camp Casey:** Det 1, 604th DASS; Det 20, 30th Weather Sq.

- (3) **Camp Howze:** DL-A, Det 1, 604th DASS.
- (4) **Camp Page:** DL-A, Det 18, 30th Weather Sq.
- (5) **Camp Stanley:** OL-A, Det 20, 30th Weather Sq.
- (6) **Camp Laguardia:** Ol-E, Det 20, 30th Weather Sq.

(b) A request to possess and operate a POV in these areas will be forwarded through CBPO channels to the commander of the parent unit (604th DASS, 30WS, or 83ALD). Approval to ship POV must be stated in the member's orders and cite approval authority's correspondence.

(c) **Authorized POV shipment by grades E-5/GS-4 and below, assigned to the ROK:** Members assigned position on the command-sponsored position listing (CSPL) and will serve the accompanied tour length (24 months) are authorized shipment of POV; regardless if the command-sponsored dependents are at or in the vicinity of the duty station in the ROK. Advanced approval is not required unless member is assigned to one of the units listed above. This shipping entitlement cannot be denied.

(d) **Controlled POV shipment by all others in grades E-5/GS-4 and below, assigned to the ROK:** Members must have advance approval from the gaining installation commander to ship, possess and own a POV while assigned to the ROK. This includes members with an approved designated location move (DLM) for dependents to the ROK and members who will serve an unaccompanied tour. Requests for exception will be forwarded through CBPO/CPO channels to the base commander of the gaining installation. Requests for policy exceptions are considered for the most compelling reasons based upon military necessity. Approval to ship a POV must be stated in the member's orders and cite approval authority's correspondence.

(e) When dependents are allowed to reside in the ROK, under a DLM, but the sponsor is not assigned to the ROK, POV shipment is not authorized. The SOFA between the US/ROK and USFK regulations do not permit duty-free importation, registration, or licensing of POVs unless the member is actually residing in the ROK.

(4) **Navy Personnel:** Shipment of POV is authorized for personnel E-4 and above who will have minimum of 12 months to serve in the ROK at the time the vehicle is delivered to the loading port.

(5) **DOD Civilian Personnel:** Queries concerning POV entitlements should be IAW the JTR, Vol. II, Chapter 11 and addressed to one of the following addresses:

(a) **Department of the Army and Navy Civilian Employees:** Seoul Civilian Personnel Advisory Center, Attn: EANC-SA-CPAC, Unit 15333, APO AP 96205-0177.

(b) **DOD Dependent Schools:** Contact the DOD Education Activity, Arlington, VA, as listed in the member's orders.

b. **MOTORCYCLES/MOPEDS:** Although not considered a POV, mopeds or motor driven cycles can only be registered and operated by personnel authorized to possess a POV. Personnel in the grade of E-6 or above desiring to register or operate a two-wheeled motorized vehicle (including mopeds) in the ROK must have in their possession proof of completion of a "hands-on" riding course. The following courses are acceptable: Better Biker Program (BBP), Experienced Rider Course (ERC), Motorcycle Riders Course (MRC) and Riding and Street

Skills (RSS). Upon completion of one of the above courses, members must obtain and keep in their possession a Motorcycle Safety Foundation (MSF) Course Completion Card. The MSF Course Completion Card must be presented along with a valid inspection sticker for your vehicle to be registered and operated. These courses are not offered in the ROK and must be completed prior to arrival. ROK law prohibits the travel of two wheeled vehicles on all expressways (no exceptions). In order for two-wheeled vehicles shipped in HHG to properly and expeditiously clear through the ROK customs the following information must appear on the inventory: year, make, price, model, body number, cc capacity, mileage, serial number and price.

c. **GASOLINE/CATALYTIC CONVERTERS:** Unleaded fuel is available at all major installations in the ROK and is generally available at most service stations on the local economy. Catalytic converters do not need to be removed. If the catalytic converter is not removed, unleaded fuel must be used. Removal of the catalytic converter will be at the member's option and expense.

d. **INSURANCE/SAFETY REQUIREMENTS:** No restrictions identified.

9. **SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL:** Pornography (excluding magazines such as Playboy) is prohibited.

10. **STUFFED WILDLIFE/ANIMALS/PLANT RESTRICTIONS:** No restrictions identified.

11. **TRANSMITTING EQUIPMENT:**

a. **CBs:** Entry/shipping is prohibited.

b. **AMATEUR/HAM RADIOS:** No restrictions identified.

c. **MARS EQUIPMENT:** No restrictions.

d. **DISH ANTENNAS:** Entry/shipping is prohibited.

e. **CORDLESS PHONES:** No restrictions identified.

12. **SEPARATEES/RETIREEES ENTITLEMENTS/LIMITATIONS:** Personnel contemplating retirement, separation or relocating dependents to Korea should be counseled that all customs entry requirements to include payment of duties and taxes remain the responsibility of the member and is a personal matter between the member and the Government of Korea.

13. **OTHER:**

a. **Communist Propaganda:** Prohibited.

b. **Propane Tanks:** There are no facilities within the ROK to properly purge these tanks for shipment out of Korea. Highly recommend these tanks not be shipped to Korea.

c. **Scales:** Certified government scales are available for reweighing HHG shipments destined for Yongsan, Taegu and Kunsan only. Shipments may be reweighed on local agent scales, which have been verified for use by the QA program.

CHAPTER 74

74-1 MALAYSIA(MY) - GENERAL INSTRUCTIONS

REVIEW DATE: 07 MAY 98

1. SHIPMENT INSTRUCTIONS:

a. **WEIGHT RESTRICTIONS: Air Force personnel - Kuala Lumpur (Security Assistance Office (SAO) personnel only):** 25 percent of JFTR weight allowance or 2,000 pounds, whichever is greater.

b. **CONTAINER/CRATING REQUIREMENTS:** No restrictions identified.

c. **HARD LIFT AREA:** Hard lift area for Army (UB only). Air clearance, when required, will be obtained from the appropriate Air Clearance Authority (ACA).

d. **UNACCOMPANIED BAGGAGE:** No restrictions identified.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS:

a. The Government of Malaysia (GOM) requires the original commercial bill of lading airway bill and/or PPGBL, to include detailed inventory, prior to receipt of shipment in order to initiate customs clearance. Paperwork should be mailed to destination as soon as possible to avoid heavy demurrage and storage charges.

b. Malaysian law requires all items brought into the country be exported on the members departure. If items are to be sold in the country, they require the prior approval of the Malaysian Government.

c. UB, HHG, and POV shipments should not arrive in Malaysia more than 30 days prior to members arrival. Customs will turn away such shipments and return to place of origin. UB clearance procedure takes about 2 weeks after shipment arrival, HHG clearance take about 3 weeks and POV clearance takes about 2 months.

3. CONSUMABLES:

a. **ALCOHOLIC BEVERAGES/TOBACCO:** Neither product may be shipped in personal property shipments.

b. **COSMETICS:** No restrictions identified.

c. **FOODSTUFFS/MEATS:** No restrictions identified.

d. **MEDICATION (NARCOTICS)/PHARMACEUTICAL PRODUCTS:** No restrictions identified.

4. ELECTRICAL EQUIPMENT:

a. **HOME COMPUTERS:** May be imported.

b. **TVs/VCRs:** Standard American-Made television and video cassette systems (National Television Standard Committee-NTSC) will operate in Malaysia but will not play locally recorded tapes. American made TV sets will pick up the video portion of local broadcasts but not the sound. Local systems (Phase Alternate Lines-PAL) are available, and there is an abundance of shops which rent video tapes. A multiple system TV and or VCR will work with no problem. While there is a mixture of tapes available, most Embassy personnel currently have VHS systems.

c. **OTHER (i.e. COMPATIBILITY, ETC):** The electrical current is 240 voltage and 50 cycles. Transformers may be provided to those assigned to Embassy housing. Suggest contacting the GSO prior to departure.

5. **FURNITURE, OVERSIZED:** No restrictions identified.

6. **PETS/QUARANTINE:** A 30-day quarantine period is required for all pets. If you plan to ship a pet, you must contact the American Embassy Kuala Lumpur, General Service Officer (GSO) 30 days prior to shipping. Member must submit a request to the American Embassy, ATTN: GSO and provide the following information: quantity, name of pet/s, species, age, sex, breed and color; in addition to the name of the air carrier, flight number, time of arrival, and air waybill number. Upon receipt, the GSO will initiate action to reserve kennel space and upon confirmation will provide member with approval to ship. Do not ship your pet until you receive confirmation kennel space is available. If planning to ship other than a dog or cat, follow procedures as outlined above requesting advice on GOM restrictions. Inoculation and health certificate must accompany the pet and be attached to the outside of the shipping container. Please note any overtime costs associated directly with the arrival of a pet and associated quarantine processing will be at the member's expense.

7. **PRIVATELY OWNED FIREARMS (POFs):** Not authorized.

8. **PRIVATELY OWNED VEHICLES (POVs):**

a. **POVs:** (includes information on prohibited vehicles, colors, etc.)

(1) Vehicles more than 5 years old are not permitted to enter into Malaysia, however vehicles more than 5 years old may be considered by GOM if an undertaking letter provided by the owner to re-export the vehicle upon conclusion of the tour is sent with the advance request to Ministry of Foreign Affairs of Malaysia with full description of the vehicle: model, year, make, engine no., chassis no., engine capacity, etc. Ship in sea container to Port Kelang.

(2) Consign to: Name of member, c/o GSO, American Embassy PO Box 10035, 50700 Kuala Lumpur.

(3) The bill of lading for POV should provide complete description of vehicle including, make, type, year model, engine capacity, engine number, chassis (serial) number, and color. This information MUST also be sent IMMEDIATELY to the GSO by message for prior approval to import a vehicle.

(4) The average time required to process the paperwork for the POV is two months. POV procedures are longer because another agency, the Road Transport Department, is involved in the registration and licensing.

(5) The original car title, or a certified true copy is required for the import permit to be issued.

b. **MOTORCYCLES/MOPEDS:** May not be shipped in personal property shipments. The Government of Malaysia considers motorcycles to be POV's and separate custom declarations are required. Customs requires they be shipped as a separate shipment; customs will open this type of shipment. They are considered POVs and can be imported duty-free. However, an individual may only import one duty-free vehicle be it a car/motorcycle/moped. If both are shipped, individual will be required to pay importation fee for one of the two vehicles. Import duties and registration fees are high.

c. **GASOLINE/CATALYTIC CONVERTERS:** There is no requirement to remove catalytic converters. Leaded and unleaded gasoline are available locally.

d. **INSURANCE/SAFETY REQUIREMENTS:** Third party insurance is required and can be obtained upon arrival. With a letter from your previous/current car insurance company stating how long you have had no claims, reduced insurance rates may be obtained. The following is a basic listing of POV inspection standards required:

(1) Serial numbers of motor and chassis must be the same as stated on vehicle registration.

(2) All tires must have at least 1mm tread over the complete tire surface.

(3) **Exhaust system:** No rusted out or leading exhaust system components allowed. Exhaust systems with cutouts, fiberglass-packed, or straight through exhaust system are not allowed.

(4) **Brakes:** A mismatch of 20 or more between wheels, as measured on the brake wheel drag machine. Hand brake must hold vehicle on incline.

(5) **Wheel Alignment:** Wheels must be able to be turned to full right or full left without jamming or rubbing any part of vehicle. Tierod steering arm assemblies must not be damaged or worn.

(6) **Lights:** All installed lights must be operational. All automobiles must have a third brake light mounted inside the rear window. All automobiles must have a center high-mounted brake light.

(7) **Exterior Condition:** Missing fenders, broken windows, extensive body damage, deterioration, broken springs, or oil leaks are not allowed.

(8) **Horns:** Must be equipped with a horn and it must be operational. Horns must not be extremely loud or be confused with emergency vehicles or police.

(9) **Seat Belts:** Required for the front seat of the vehicle.

(10) **Tinted Windows:** Vehicles with windows and windscreens tinted more than fifty percent visibility are not allowed in Malaysia.

(11) Traffic in Kuala Lumpur is heavy and disorganized and it moves on the left with the steering on the right, i.e., cars are right-hand drive (RHD). Motorbikes are abundant and generally do not follow traffic rules. For these reasons small or medium-size cars are more practical. Japanese and European automobiles may be ordered locally from their manufacturers. Many employees have ordered reconditioned cars from Japan with good results.

(12) Left-hand drive cars are permitted in Malaysia but are not recommended due to the traffic conditions in Kuala Lumpur. They also have limited resale value.

(13) If you plan to import an American car, bring along extra belts, plugs, windshield wipers, oil and fuel filters, etc., as spare parts are often expensive or difficult to find. Parts, for most foreign makes and service are readily available. While service is relatively inexpensive, parts are expensive.

(14) Members who will drive in Malaysia must obtain a Malaysian drivers license after arrival. If you possess a Foreign driver's license, please bring it, as you may be issued a Malaysian driver's license without waiting for the written exam. Driver's with a US license only will be required to take the test. If your license is less than two years old, please bring your former license, to avoid the probationary license issued to new drivers.

9. **SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL:** Importation is prohibited.

77-1 MEXICO (MX) - GENERAL INSTRUCTIONS

REVIEW DATE: 06 APR 01

1. SHIPMENT INSTRUCTIONS:

- a. **WEIGHT RESTRICTIONS:** In accordance with governing regulations.
- b. **CONTAINER/CRATING REQUIREMENTS:** No restrictions identified.
- c. **HARD LIFT AREA:** No restrictions identified.
- d. **UNACCOMPANIED BAGGAGE:** No restrictions identified.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS:

DOCUMENTATION:

a. The Government of Mexico requires a detailed item listing of the contents of each container. To satisfy this requirement, the Embassy GSO must be provided a legible copy of the inventory which is translated into Spanish and included with the request for free entry.

b. It is **imperative** origin ITOs forward this legible copy of the inventory and a copy of the PPGBL showing the number of outer containers, total weight of shipment (either net or gross), estimated value of shipment, and port of entry to the Embassy GSO as soon as available. It takes approximately 5-6 weeks after receipt of this data to obtain the import permit and nonreceipt of the above documentation or omission of any of the required information will cause delay and serious hardship for member and family.

c. Although the initial destination is to a point in CONUS (Laredo, Texas), this is only a transfer point for onward movement to Mexico. Shipments must be packed for overseas delivery. Shipments remain in Laredo until the Mexican Government processes and approves this request for free entry.

d. After approval, it normally takes 2-3 weeks for delivery of HHG to owner. New arrivals should anticipate spending 5 to 9 weeks in temporary quarters without HHG and should plan accordingly.

e. In order to avoid storage charges, please ship HHG, UAB and POV to coincide with the arrival at post of the member. The GOM will not issue any import permits, nor release any shipments until member is country and has been accredited.

3. CONSUMABLES:

a. **ALCOHOLIC BEVERAGES:** No restrictions as long as no excessive quantities are shipped.

b. **CIGARETTES/TOBACCO PRODUCTS:** Shipments of cigarettes/tobacco products between CONUS and overseas or within overseas countries may be shipped subject to host country requirements/restrictions identified. 5. **FURNITURE, OVERSIZED:** No restrictions identified.
6. **PETS/QUARANTINE:** Veterinarian's certificate of good health and rabies vaccination certificate are required. These documents must be certified, for a fee, by a Mexican Counsel. To avoid duty fees, a free entry permit, which takes from 4 to 6 weeks to secure, is required. This permit may only be requested when member is in country and has been officially reported to Mexican Government. We recommend member bring pet in POV or as excess baggage in order to avoid customs brokerage fees and the need to leave it in customs overnight.
7. **PRIVATELY OWNED FIREARMS (POFs):** Firearms must be included with HHG. A special permit from the Mexican Government is required for use of firearms in Mexico. Procedures to follow when applying for the permit are available from the Regional Security Officer. Because of firearms restrictions and limited hunting opportunities, firearms may be of little use.
- a. **HANDGUNS AND RIFLES/SHOTGUNS:** The following quantities and types of nonautomatic firearms may be imported by each person over 18 years of age: 2 each of pistols and revolvers--not to exceed 38 caliber special 1 rifle--not to exceed 30 caliber 2 shotguns--not to exceed 12 gauge (barrel length must be at least 635 MM-25).

    - (1) Following are the Government of Mexico's (GOM) laws concerning importation of privately-owned and official vehicles. These laws were implemented on January 1, 1992, and are still current.
      - (a) Within certain dollar limitations, all types of vehicles can be imported and sold.
      - (b) POV's for the Chief of Mission can be imported for the term of assignment, but the value cannot exceed 60,000 US dollars. Additionally, these employees are allowed to buy two Mexican made vehicles which are exempt from value added taxes (IVA). (CH)

(c) All other accredited US personnel are allowed to import one US vehicle of any model or make, as long as the value does not exceed 30,000 US dollars. Also, these employees are allowed to purchase one Mexican made vehicle, which is exempt from value added taxes (IVA). According to GOM law, it is illegal to import vehicles under a Temporary Import Permit and keep them in country.

(d) Vehicles should be shipped and consigned to: American Embassy Warehouse, 620 Logan Street, Laredo, TX 78040; telephone: 956-725-6803; FAX: 011-525-207-5080. (CH)

If the vehicle was purchased through a credit union or bank, these institutions must issue a letter stating that the original document is being held by them. The price must appear in the letter. The letter must be signed and notarized by a notary public and attested to by a Mexican Consulate in the United States. (CH)

(4) Proof of Mexican third party Liability insurance.

(f) Once all the necessary and completed documents have been turned in to GSO, Customs and Shipping will begin the process to register your vehicle. Expect to wait four to six weeks to receive your diplomatic license plates. During the Christmas and Easter holidays, this process can take considerably longer as the SRE is closed for business during these times.

(2) **Vehicle Purchased in Mexico:** The following documents are necessary to register a vehicle purchased in Mexico.

## CHAPTER 79

### 79-1 MOROCCO (MO) - GENERAL INSTRUCTIONS

REVIEW DATE: 20 OCT 03

#### 1. SHIPMENT INSTRUCTIONS:

a. **WEIGHT RESTRICTIONS:** This is a weight restricted area HHG's weight allowance is limited to 2000 lbs or 25 percent of full JFTR which ever is greater, anything more will be at members expense.

b. **CONTAINER/CRATING REQUIREMENTS:** Containers of 20-foot and 40-foot are accepted in Morocco.

c. **HARD LIFT AREA:** Hard lift area for Army (UB only). Air clearance, when required, will be obtained from the appropriate Air Clearance Authority (ACA).

d. **UNACCOMPANIED BAGGAGE (UB):** A shipping notice must be cabled to American Embassy Rabat within two days of shipment giving the air waybill number, number of pieces, gross weight, flight number, and ETA. Size and weight restrictions are 2m length X 1m width X 1m height, 330 pounds, or 150 kg. UB shipments must not be shipped to Rabat prior to arrival of employee. If UB shipment cannot be held at post of origin until employee's arrival in Rabat, then it should be shipped to Elso Antwerp for temporary storage.

#### 2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS:

a. HHG and POV should not be sent to arrive in advance of the employee, since customs clearance cannot be arranged unless the employee has arrived at Post. If necessary, please arrange temporary storage at Elso Antwerp. Post will advise Elso Antwerp when employee is ready to receive his effects and POV; surface shipments from Antwerp generally arrive within two to three weeks of the request. If all the documentation is in order, local moving company normally clears and delivers HHG and POV from port within 10 working days.

b. Original ocean bill of lading and complete packing list should be sent to the Embassy Rabat, ATTN: GSO, as soon as possible, preferably by air courier, since duty free entry requests from the Moroccan authorities cannot be initiated without them. Inbound customs clearance arrangements for all DOD shipments to Morocco have been coordinated and effected with American Embassy, Rabat, Morocco.

c. **DUTY-FREE IMPORTATION:** Shipments of personnel not on the diplomatic list must be shipped sufficiently far in advance to ensure arrival in Morocco within 6 months from date of employee's anticipated arrival in country. Staff members are only allowed one duty-free HHG, one UB. Shipments must arrive in Morocco during first 6 months of tour. Duty-free clearance of subsequent shipments is not routinely granted by the MFA, even if authorized by new orders (i.e., home leave and return to post orders). Staff members who need to ship separate shipment of HHGs (i.e., from post of origin and from permanent storage) should instruct Elso Antwerp to consolidate shipment prior to forwarding to Rabat.

d. **DIRECT SHIPMENTS:** POVs and HHGs may on occasion be shipped direct to Rabat rather than via Elso Antwerp provided employee will arrive before shipment and routing and costs are advantageous to the Government. Advise Embassy in advance with proposed routing. Also POVs and HHGs may be shipped directly as long as they are really shipped directly. Past experience has been that such shipments from CONUS are transferred to other ships, usually in Spain, and the shipment arrives on an unknown vessel, such shipments often remain at Casablanca Port for long periods of time before being located. However, if accurate timely trans-shipment information on such shipments is provided, the Embassy has no objection.

e. **RESTRICTED ITEMS:** Shipments containing restricted items cannot be declared until employee has arrived in country, been declared to the MFA and been issued a Moroccan ID Card (process can take 4 to 6 weeks). Employee should be instructed not to ship restricted items in UB shipments. This will avoid prolonged delays in customs clearance upon arrival in Rabat. Restricted items: firearms, and video tapes; will be removed by customs official for inspection and further delay clearance process. (CH)

3. **CONSUMABLES:**

a. **ALCOHOLIC BEVERAGES:** Alcoholic beverages should not be shipped with UB but can be combined with HHG. The Foreign Ministry stated, informally, quantities imported should not exceed a reasonable amount for personal use and specified one case was considered reasonable.

b. **CIGARETTES/TOBACCO PRODUCTS:** Shipments of cigarettes/tobacco products between CONUS and overseas or within overseas countries may be shipped subject to host country requirements/restrictions identified. When undefined or in doubt, the TMO will request clarification by message from the responsible transportation authority at destination.

c. **COSMETICS:** No restrictions identified.

d. **FOODSTUFFS/MEATS:** No restrictions identified.

e. **MEDICATION (NARCOTICS)/PHARMACEUTICAL PRODUCTS:** No restrictions identified.

4. **ELECTRICAL EQUIPMENT:**

a. **HOME COMPUTERS:** No restrictions identified.

b. **TVs/VCRs:** No restrictions identified.

c. **OTHER (i.e. COMPATABILITY, ETC):** Power in Morocco is generally 220 volts, 50 hz. However, some older houses have both 220 and 137. Adapter plugs are necessary for items that convert easily to 220 (i.e. lamps). A limited number of step down transformers are supplied to the employee.

5. **FURNITURE, OVERSIZED:** No restrictions identified.

6. **PETS/QUARANTINE:** Entry of pets is authorized. No quarantine period is required. Health certificate issued not more than 10 days prior to departure is required. Certificate must be signed by a registered veterinarian and state animal is free from infectious/contagious diseases, particularly rabies. A rabies certificate not older than 6 months but not more recent than 1 month is also required and should include owner's name, complete description of pet, actual departure time and a statement the pet has not bitten anyone within 15 days prior to departure to Morocco. A valid shot record and a veterinarian health certificate not more than 10 days old before departure are required by Moroccan customs.

7. **PRIVATELY OWNED FIREARMS (POF):**

a. **HANDGUNS:** Prohibited.

b. **RIFLES/SHOTGUNS:** Shotguns for hunting are the only firearms which may be imported legally into Morocco. Member is limited to 12-, 16-, and 20-gauge shotguns--not to exceed a total of three. Firearms must be packed and itemized separately on packer's inventory since they will be retained by customs authorities until the owner has obtained a license. It is recommended they be sent as a separate shipment and not co-mingled with other household effects.

c. **TOY-RELATED GUNS:** No restrictions identified.

d. **OTHER (i.e. AMMUNITION, EXPLOSIVES, ETC):** No restrictions identified.

8. **PRIVATELY OWNED VEHICLES (POVs):**

a. **POVs:** (includes information on prohibited vehicles, colors, etc.)

(1) POVs are required to have current and valid CONUS registration. Ship via Bayonne or Norfolk to Casablanca, Morocco. (CH)

(2) Post requires previous title or ownership or registration card and/or invoice copy in the name of the employee to register a POV. In case POV documents are in the dependent's name, they must be changed to the name of the employee by the manufacturer or the authority in charge. The Moroccan Foreign Ministry does not accept POV title or registration card in the name of a dependent even if authorized by the latter with a certified authorization.

(3) Staff member are only allowed one duty-free POV. Shipment must arrive in Morocco during first 6 months of tour. Unaccompanied Diplomatic or Counsel Officers may only import or purchase one vehicle duty-free.

b. **MOTORCYCLES/MOPEDS:** Motorcycles over 50cc are restricted. No restrictions exist on mopeds as they are not considered vehicles.

c. **GASOLINE/CATALYTIC CONVERTERS:** No restrictions identified.

d. **INSURANCE/SAFETY REQUIREMENTS:** No restrictions identified.

9. **SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL:** No restrictions identified.

10. **STUFFED WILDLIFE/ANIMALS/PLANT RESTRICTIONS:** No restrictions identified.

b. **MARS EQUIPMENT:** No restrictions identified.

c. **DISH ANTENNAS:** No restrictions identified.

12. **SEPARATEES/RETIREEES ENTITLEMENTS/LIMITATIONS:** Personnel contemplating retirement, separation, or relocating dependents to Morocco should be counseled that all customs entry requirements to include payment of duties and taxes remain the responsibility of the member and is a personal matter between the member and the Moroccan Government.

The vehicle also must have a Euro I compliant certification from the manufacturer to be able to clear Nepalese customs. This new mandatory regulation came into effect from December 23, 1999.

(2) POVs must be shipped to Calcutta, India. Consign to American Embassy, Katmandu, Nepal. Notify party on the bill of lading(B/L) should read: Shaik and Pandit, 1/3 Bankshall Street, Calcutta, India. b. **CONTAINER/CRATING REQUIREMENTS:** No restrictions identified.

c. **HARD LIFT AREA:** No restrictions identified.

d. **UNACCOMPANIED BAGGAGE:** No restrictions identified.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS: There are no restrictions on personal property shipments. PPTY shipment will be cleared through customs by the destination ITO. No special documentation is required.

3. CONSUMABLES:

a. **ALCOHOLIC BEVERAGES:** One litre of an alcoholic beverage and four bottles of wine can be imported in personal property.

b. **CIGARETTES/TOBACCO PRODUCTS:** Shipments of cigarettes/tobacco products between CONUS and overseas or within overseas countries may be shipped subject to host country requirements/restrictions identified. When undefined or in doubt, the TMO will request clarification by message from the responsible transportation authority at destination.

- c. **COSMETICS:** No restrictions identified.
- d. **FOODSTUFFS/MEATS:** No restrictions identified.
- e. **MEDICATION (NARCOTICS)/PHARMACEUTICAL PRODUCTS:** No restrictions identified.

4. **ELECTRICAL EQUIPMENT:**

- a. **HOME COMPUTERS:** No restrictions.
- b. **TVs/VCRs:** No restrictions identified.
- c. **OTHER (i.e. COMPATIBILITY, ETC):** No restrictions identified.

5. **FURNITURE, OVERSIZED:** No Government owned housing is available in the Netherlands. Government controlled housing and other economy available housing might be smaller than American houses and can have narrow stairways and/or small windows. Therefore, houses may have restricted accessibility for king/queen size beds and mattresses, or other equivalent in size property. A common bedroom dimension for the largest (master) bedroom is 15 x 12 feet. Large appliances are impractical and recommended to store in NTS in the US.

6. **PETS/QUARANTINE:**

a. Animals must be vaccinated with a live virus rabies vaccine at least 30 days, but not more than 1 year, prior to departure from old duty station.

b. A valid US Department of Agriculture (USDA) certificate of health signed by a veterinarian and notarized by a USDA Regional Office within 10 days of departure from CONUS (USDA Export Licenses).

c. There is no general quarantine period or entrance fees. If rabies and health certificates are not valid, however, a 30-day quarantine is required and costs approximately DG 25 per day. A military veterinarian is available, but you might need to drive to another supporting unit/base. Veterinarian care is also available through the economy. **NOTE: USDA Regional Offices are located in major US cities and may be found in telephone directories under US Government.**

7. **PRIVATELY OWNED FIREARMS (POFs):**

a. Personnel who reside on the economy must register weapons with local police authorities. Failure to register firearms may result in confiscation of weapons. The use of firearms in the Netherlands is uncommon because of hunting formalities, availability of shooting ranges and stringent laws governing their use.

b. Host nation policy is to absolutely minimize the import of weapons. Although there is no restriction on import quantities, the need for having a weapon must be proven to local authorities. Military installations might have restricted storage facilities for POFs, due to lack of adequate storage facilities.

c. Membership with a local (Dutch) rod and gun club is mandatory. Firearms must be fired (at least 8 times a year) at an authorized range.

d. Firearms may be shipped in HHG or UB. However, they must be clearly identified on the carrier's descriptive inventory.

8. **PRIVATELY OWNED VEHICLES (POVs):**

a. **POVs:** (includes information on prohibited vehicles, colors, etc.)

(1) **General information:** Local customs permit registration of more than one POV, tax/duty free. Other than AFCENT eligible registration of POVs might encounter to pay more registration fees than used to in the US to license and register a POV. AAFES auto service will reduce service to light maintenance (sample: oil change, etc.) Heavy duty maintenance is no longer available through AAFES, only local economy vendors/dealers/garages. Large American vehicles can and may be operated in the Netherlands, but member may encounter challenges when parking.

(2) **Eligibility for licensing:** Driver must have a valid US driver's license in possession. Minimum age to drive a moped is 16 years. Minimum age to drive a motorcycle or automobile is 18 years. Special requirements are applicable for members who have no valid US driver's license in possession.

(3) **Long Term Lease Vehicles:** Because a leased vehicle is not registered nor owned in the member's name, import is not allowed by Netherlands customs as a tax-free vehicle. It is recommended that the member's destination sponsor contact the Military Base Vehicle Registration Office for update information and requirements.

(4) Automobiles, Mopeds, and Motorcycles must be registered at local military authority, and a drivers license must be obtained prior to operation of the vehicle.

b. **MOTORCYCLES/MOPEDS:** Mopeds/motorcycles can be imported in personal property shipment duty-free. There is no restriction on the number of vehicles imported.

c. **GASOLINE/CATALYTIC CONVERTERS:** Unleaded gas is available, however, not in all European communities. Members no longer have to remove catalytic converters from their POV prior to shipping. However, members must have their catalytic converter systems tested annually to ensure their POVs have not been run on leaded fuel while overseas. In addition, a final test will be required 10 calendar days prior to the POV being turned in for shipment back to the Customs Territory of the United States. This requirement is to confirm the POV is in conformity with EPA Federal and Regulatory Emission Control Standards.

d. **INSURANCE/SAFETY REQUIREMENTS:**

(1) All vehicles must be in sound mechanical condition, have no protruding parts, and tires must have sufficient tread; i.e., automobiles may not have tread less than 1.6 millimeters.

(2) If a car is intended to be used, or could be used, to pull a trailer, it must have two outside mirrors (1 left/1 right) and a directional signal on each side of the vehicle.

(3) Vehicles equipped with tinted windows are accepted if installed by vehicle manufacturer. Vehicle windows equipped with folies-tinted windows by others than the vehicle manufacturer, the folies must be removed prior to registration.

9. **SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL:** No restrictions identified.

10. **STUFFED WILDLIFE/ANIMALS/PLANT RESTRICTIONS:** No restrictions identified.

11. **TRANSMITTING EQUIPMENT:**

a. **CBs AND MARS EQUIPMENT:** Importation or utilization of CB radios is not prohibited. However, maximum transmittal power may not exceed 4 watt, and only on the 27MC channel.

b. **AMATEUR/HAM RADIOS:** No restrictions identified.

c. **DISH ANTENNAS:** No restrictions identified.

d. **CORDLESS PHONES:** No restrictions identified.

12. **SEPARATEES/RETIREEES ENTITLEMENTS/LIMITATIONS:** Retiree/separatees are not authorized US Government arranged customs clearances/duty-free import of personal property or POVs into The Netherlands. Retirees/separatees are personally responsible for arranging clearance through the appropriate Dutch Customs Office.

13. **OTHER, BOATS:** Prior to shipping a boat to the Netherlands, it is recommended the member contact Netherlands customs to inquire import restrictions. Furthermore, a special license must be in possession to operate a boat in the Netherlands. The operator's license has various categories and can only be obtained in the Netherlands.

They may be prohibited depending on origin and packaging. Additional information can be obtained at [www.maf.govt.nz](http://www.maf.govt.nz). (CH)

4. ELECTRICAL EQUIPMENT:

- a. **HOME COMPUTERS:** No restrictions.

b. **TVs/VCRs:** No restrictions identified.

c. **OTHER (i.e. COMPATIBILITY, ETC):** New Zealand voltage is 230 volts at 50 cycles. Transformers are required for American appliances of 110 volts.

**NOTE:** Electronic digital clocks or washer/dryers which are designed to function at 60 cycles will not keep time properly in New Zealand.

5. **FURNITURE, OVERSIZED:** No restrictions identified.

6. **PETS/QUARANTINE:**

a. Importation regulations change often. Members considering importing their cat or dog must contact the Ministry of Agriculture and Fisheries (MAF) Import Management and Quarantine office AT LEAST SIX MONTHS prior to intended importation date. The commercial number for the Ministry of Agriculture and Fisheries (MAF) is 011-64-4-498-9624. Current standards are as follows:

b. The animal must have a microchip inserted or a tattoo implanted by a veterinarian for identification purposes (the chip that is currently preferable is the Trovan Destron Fearing chip and MAF can provide names and phone/fax numbers of suppliers. This must be done at least six months prior to export.

c. Primary rabies vaccination must have taken place not less than six months and not more than one year prior to shipment. **NOTE:** The microchip/tattoo identification number should be on the rabies certificate. OR: Booster vaccination must have taken place not more than one year prior to shipment.

d. Rabies Neutralizing Antibody Titration test results, showing antibodies of greater than 0.5IU/ml must be performed at least six months prior to the first day of quarantine in New Zealand. Time limit may vary depending on rabies vaccination history. Additional information is available at [www.maf.govt.nz](http://www.maf.govt.nz). (CH)

e. A second Rabies Neutralizing Antibody Titration Test is also required to be performed within the 30 days preceding the first day of quarantine in New Zealand. To be permitted entry into New Zealand, animals must be issued with an Import Health Permit (application forms available from the MAF point of contact). You must already have CONFIRMED space arranged at a MAF approved quarantine facility, there are currently two in the Auckland area. Rates range from NZ\$35.00 - \$45.00 per day for a dog and the required period of confinement is 30 days. These facilities currently have a six month waiting list. There is only one quarantine facility in the Christchurch area. Additional information is available at [www.wumba@extra.co.nz](mailto:www.wumba@extra.co.nz). Also accompanying your completed application must be: (CH)

(1) A check or money order for NZ\$135.00.

(2) Letter from the operator of the quarantine facility, co-signed by the supervising MAF Veterinarian confirming availability of space for the animal at the time of importation.

(3) Rabies antibody titration test results. This needs to be greater than 0.5IU/ml, taken at least six months prior to the first day of quarantine in New Zealand.

(4) Letter from the animal's veterinarian stating the date blood was taken from the animal for the laboratory testing above. The pet owner must also contact the airlines they are traveling on, domestically within CONUS and international. This should be done well in advance of the planned travel dates. The cost is high and is based on excess baggage costs which go by

size and/or weight of the animal, this varies from domestic to international flights. Once an animal has been in quarantine in Auckland for the required 30 days, further transportation costs are involved to get the animal to its final destination, again at the member's expense.

7. **PRIVATELY OWNED FIREARMS (POFs)**: Owners of guns must acquire a firearms license from a New Zealand Police Arms Office at a cost of NZ\$123.75. The owner must then apply to the same office for a permit to import their gun. The New Zealand Police hold a list of approved makes and models of guns, so members should apply before shipment to see if their gun is approved and to obtain a copy of the Firearms Code. The commercial phone for the New Zealand Police Arms Office for Christchurch is 011-64-3-379-3999.

a. **HANDGUNS**: Strict requirements exist for ownership of handguns in New Zealand. Contact the New Zealand Police Arms Office for specific information.

b. **RIFLES/SHOTGUNS**: Sporting rifles and shotguns may be imported but must be inventoried as a separate item on the household goods inventory. Member must have their original U.S. firearms license/permit for registration in New Zealand. Contact the New Zealand Police Arms Office for specific information.

c. **TOY-RELATED GUNS**: No restrictions identified.

d. **OTHER (i.e. AMMUNITION, EXPLOSIVES, ETC)**: No restrictions identified.

8. **PRIVATELY OWNED VEHICLES (POVs)**:

a. **POVs**: All POVs must be cleared through New Zealand Customs. Members ordered PCS to New Zealand may import two POVs duty free, however, the cost of shipping the second vehicle is borne by the member.

(1) Active duty military and civilians assigned to Air National Guard Det 13, Christchurch, and tenant activities. Approval from, Air National Guard Det 13, Christchurch, is not a requirement prior to release of POV for shipment. Member should hand carry to New Zealand (not place in HHGs) title and bill of sale as proof of ownership, purchase price, purchase date, POV identification number, etc. Member should also know cubic inch measurement of engine. Consignment of vehicle should be to Port Lyttelton, NZ, water port code (VE5). Importation is duty-free, with the provision the vehicle cannot be sold before 2 years in country and it would be converted to right-hand drive before sale. Member also must declare POV will be reshipped if they are posted before a 2 year tour is fulfilled.

(2) Active duty military and civilians assigned duty with the American Embassy, Wellington, New Zealand. Shipment of POV should be coordinated through the American Embassy, Wellington, NZ. Consignment of vehicle should be to Wellington, NZ (VE2). Importation is duty-free, with the provision the vehicle cannot be sold before 3 years in country and it would be converted to right-hand drive before sale.

b. **MOTORCYCLES/MOPEDS**: Motorcycles/mopeds are considered POVs and may be shipped in personal property. Motorcycles should also be steam cleaned prior to shipment and member hand carry steam cleaning certificate to facilitate agriculture clearance.

c. **GASOLINE/CATALYTIC CONVERTERS**: New Zealand has recently converted to unleaded fuel only. Catalytic converters need not be removed.

d. **INSURANCE:** Any member under the age of 25 importing an American vehicle with engine power over 2 liter should know insurance companies in New Zealand will only insure them for third party cover at very high premiums. Member will have great difficulty getting an insurance company to insure them. Cost of insurance on a left hand drive vehicle ranges from NZ\$250.00 a year, with a NZ\$1000.00 deductible, to NZ\$1000.00 a year, with a lower deductible (NZ\$500.00). A statement of record from a previous insurer shows an accident free and no claim history will greatly assist in obtaining insurance at a more reasonable price.

e. **SAFETY REQUIREMENTS:** Part of the clearance process is the requirement to apply to the Land Transport Safety Authority (LTSA) for a permit to Import a left hand drive vehicle. Once this is obtained a physical safety and road worthiness check is performed by the same authority at a minimum cost of NZ\$120.00, costs go up if modifications are required. After the safety inspection, a Warrant of Fitness (WOF) is issued. Generally, any vehicle meeting local state vehicle inspection criteria will pass a Warrant of Fitness inspection in New Zealand. Regulations covering seat belts require lap and shoulder restraints for the two front seats, i.e., the driver and passenger nearest to the door. Shoulder restraints must be the dual sensitive emergency locking retractor (Inertia reel) type. To replace these could cost NZ\$485.00 to NZ\$585.00. Also required are the same belts including shoulder restraints for back seat passengers nearest either door. All other seats require approved lap belts. Another requirement is at least one high-mounted stop light at driving eye level at the rear of the vehicle. On a convertible, this is to be no lower than 152 millimeters below the lower edge of the rear window. On other cars, no lower than 77 millimeters below the lower edge of the rear window. Once satisfying all of these requirements the member must register their POV. Fees are based on horsepower rating or cubic inch engine size and for the first time registration in country can cost from NZ\$190.10 to NZ\$368.60 for six months or NZ\$265.20 to NZ\$444.45 for one year (approx. US\$129.27 - \$250.65 and \$180.33 - \$302.25) Subsequent registrations cost NZ\$82.65 for six months or \$157.75 for a year (approx. US\$56.20 or \$107.27). The member should now have their Left Hand Drive (LHD) Import Consent, WOF, and Registration certificate. They must now apply to the LTSA for a Permit to Operate a LHD vehicle on the road. There is no cost for this permit. New Zealand Ministry of Agriculture and Fisheries may also require the vehicle be steam cleaned at port of entry if found to have excess dirt or bugs in wheel wells or about the engine. The cost is NZ\$106.87 and is payable by the member. Recommend POVs be steam cleaned prior to shipment and receipt or certificate to verify cleaning be placed in the window of the car. There are many safety restrictions, therefore before shipping your POV, recommend a visit to [www.ltsa.govt.nz](http://www.ltsa.govt.nz). Second hand vehicles are affordable and may be cheaper than shipping your own in the long term. (CH)

9. **SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL:** No restrictions identified.

10. **STUFFED WILDLIFE/ANIMALS/PLANT RESTRICTIONS:** The New Zealand Ministry of Agriculture and Fisheries require all cane, bamboo, rattan, and associated products entering New Zealand to undergo inspection in New Zealand. Fumigation will be required if any evidence of infestation is found. Rates for fumigation range from NZ\$6.65/item to a maximum of NZ\$112.50 for loose loads, through to NZ\$420.00 for a forty foot container load (Code 4). For additional information visit [www.maf.govt.nz](http://www.maf.govt.nz). (CH)

11. **TRANSMITTING EQUIPMENT:**

a. **CBs AND MARS EQUIPMENT:** No restrictions exists for shipment of electronic equipment. In order to use CB Radios, registration is required at an approximate annual fee of NZ\$18.00. Single side band radios are allowed but are subject to New Zealand Post Office approval. American made CB radios require modification prior to use in NZ. Registration of Mars equipment is required at no cost to the member.

b. **AMATEUR/HAM RADIOS:** No restrictions identified.

c. **DISH ANTENNAS:** No restrictions identified.

d. **CORDLESS PHONES:** No restrictions identified.

12. **SEPARATEES/RETIREEES ENTITLEMENTS/LIMITATIONS:**

a. **Personnel Shipping to NZ for Separation or Retirement:** Consignment of vehicle should be made to port closest to home of selection. **NOTE:** Returning New Zealanders do not qualify for the above concession unless they can demonstrate personal ownership and use of vehicle prior to 21 Jun 79.

(7) Personnel importing POVs that do not qualify for duty free importation are liable for a minimum customs duty of NZ\$1500.00. They also pay 12.5% GST on the value for duty plus duty payable, plus cost of shipping vehicle to New Zealand and insurance. Information is contained in NZ Customs Notice Number 6. The commercial phone and fax numbers for the Christchurch office of New Zealand Customs are 011-643-358-0600 and 011-643-358-0606.

**b. Personnel shipping to New Zealand upon separation or retirement.**

**c.** When selecting the method of shipment for a member having to pay the cost over and above their entitlement, for example, someone choosing New Zealand as their home of selection upon retirement, the least expensive mode should be chosen and surface mode is acceptable.

### 13. **OTHER:**

**a. BOATS:** Boats imported into New Zealand fall under the same customs provisions as paragraph 8 above. Boats do not require registration; however, the boat trailer has to be registered and warranted at the owner's expense. As New Zealand is a hard lift area, HHGS are authorized air shipment; however, AMC regulations may limit the size of boats to be shipped.

**b. HOUSING:** Floor plans of New Zealand homes are different from those found in most US homes. Long hallways with rooms leading off are standard. Most homes do not have a basement. Many of the homes lack storage space and sufficient electrical outlets. Also rooms and closets are small by US standards. Few homes have central heating, relying instead on space heaters, wood stoves, or fireplaces. In rental properties, cooking ranges are provided by the landlord. Refrigerators, washers, and dryers are provided by the tenant. However, refrigerators, washers, dryers, are available to active duty service members on a first come, first serve basis from the command. Personnel should check for availability through their sponsor. (CH)

**c. STORAGE:** There are no DOD approved commercial storage facilities in New Zealand. Non-temporary storage (NTS) is available in the command's small Government warehouse on a space available basis. Storage of household goods in the command's non DOD approved warehouse is at the member's own risk. Recommend utilizing CONUS NTS to greatest possible extent.

In the case of ocean shipments, two originals of the carriers ocean bill of lading must arrive in the post 3 weeks before the vessel. Delay vessel booking to ensure this 3-week customs processing time to avoid demurrage charges pending customs clearance and member arrival. (CH)

c. Member should arrive in country 1 week before the goods, as Foreign Ministry will not accept document until member is at post. Goods should not be shipped prior to member arriving in country and arrival message sent. Temporary storage of goods may be required to ensure member is in country and registered with the Nigerian Ministry of Foreign Affairs prior to shipment. (CH)

## CHAPTER 93

### 93-1 PERU (PE) - GENERAL INSTRUCTIONS

REVIEW DATE: 23 JAN 03

#### 1. SHIPMENT INSTRUCTIONS:

a. **WEIGHT RESTRICTIONS:** In accordance with governing regulations.

b. **CONTAINER/CRATING REQUIREMENTS:** Due to the use of commercial narrow-body aircraft, external shipping containers for Code T shipments moving to/from South and Central America in accordance with PPP-B-601, style A or B, are required, not to exceed 60 inches in height. In accordance with Item 508, Personal Property International Rate Solicitation, special packing arrangements will be authorized by the PPSO for oversize items which will not fit into the restricted height container.

c. **HARD LIFT AREA:** Hard lift area for all military services. Air clearance, when required will be obtained from the appropriate Air Clearance Authority (ACA).

d. **UNACCOMPANIED BAGGAGE:** To facilitate prompt customs clearance in Peru, it is important that the words unaccompanied baggage appear on shipping containers containing unaccompanied baggage.

#### 2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS:

a. **UAB, HHG, and POV:** **Unaccompanied baggage (UAB), Household Goods (HHG) and Privately Owned Vehicles (POV) must be planned so as to arrive in Peru at the time of employee's arrival.** UAB and POV must not/not arrive at Post prior to employee's arrival. Paperwork for liberation of UAB, HHG, and POV cannot be processed until employee is accredited to the Peruvian Ministry of Foreign Affairs. Due to cumbersome Peruvian bureaucracy, clearance of all three shipments (UAB, HHG and POV) takes from 3 to 4 weeks approximately. Essential documents, medicines, and clothing should be packed in accompanying baggage.

b. The Peruvian Ministry of Foreign Affairs (MFA) allows duty free entry for a maximum of three shipments: One UAB and two HHG, or two UAB (up to total allowable weight) and one HHG. Additional personal effects shipments will be subject to each employee's limited annual quota of duty free importation's (the quota varies depending on the diplomatic title). Employee's specific quota can be obtained from Customs and Shipping Unit, and 80 percent of this quota is normally assigned for an employee's commissary importation's. In any event, the quota is very limited, and therefore, should not be used for UAB and HHG shipments. It is critical employees know what they are shipping to Post and provide the exact information regarding HHG and UAB shipments and copies of inventory lists to the Customs and Shipping Unit of GSO upon their arrival.

c. Additionally, employees should be aware the Peruvian MFA only grants duty free importation for the first six months from the date of arrival of employee. All shipments arriving after that time are subjected to the yearly quota.

d. In those cases where air movement is recommended, ITOs must follow the appropriate military service procedures for air approval.

3. **CONSUMABLES:**

a. **ALCOHOLIC BEVERAGES:** Personnel, regardless of rank, are no longer authorized to import alcoholic beverages in personal effects shipments.

b. **CIGARETTES/TOBACCO PRODUCTS:** Shipments of cigarettes/tobacco products between CONUS and overseas or within overseas countries may be shipped subject to host country requirements/restrictions identified. When undefined or in doubt, the TMO will request clarification by message from the responsible transportation authority at destination.

c. **COSMETICS:** No restrictions identified.

d. **FOODSTUFFS/MEATS:** No restrictions identified.

e. **MEDICATION (NARCOTICS)/PHARMACEUTICAL PRODUCTS:** No restrictions identified.

4. **ELECTRICAL EQUIPMENT:**

a. **HOME COMPUTERS:** No restrictions identified.

b. **TVs/VCRs:** No restrictions identified.

c. **OTHER (i.e. COMPATIBILITY, ETC):** No restrictions identified.

5. **FURNITURE, OVERSIZED:** No restrictions identified.

6. **PETS/QUARANTINE:** No restrictions identified.

7. **PRIVATELY OWNED FIREARMS (POFs):**

a. Shipment of firearms in the HHG and UAB is prohibited by the GOP. Please do not, repeat do not, include firearms in UAB and HHG shipments.

b. Employees must receive authorization from the Ambassador prior to shipping firearms to Post. Firearms must be of the types the Government of Peru permits diplomatic personnel to possess, i.e., no larger caliber than 9 MM. normally, only one hand gun and one shotgun or rifle will be authorized.

8. **PRIVATELY OWNED VEHICLES (POVs):**

a. **POVs:**

(1) Requirements for Customs Clearance: Post requires the commercial invoice, title, and the Ocean Bill of Lading(OBL) for the customs clearance of vehicles. The Ocean Bill of Lading (OBL) must be prepared as follows at the port of origin: (CH)

**CONSIGNEE:**

Employee's Name  
American Embassy  
Lima, Peru (CH)

**NOTIFY PARTY:**

American Embassy Lima, Peru  
Telephone: (511) 434-3000  
FAX: (511) 434-3066 or (511) 434-(3037)

**PORT OF DISCHARGE:**

Callao, Peru (CH)

**MARKS AND NUMBERS:**

Container Number and Seal Number (CH)

**DESCRIPTION OF CARGO:**

Vehicles Characteristics: Make, Model, Year, Color, VIN or engine serial number (CH)

(2) A notification of the shipment en route must be sent to post via message, FAX or e-mail as soon as the vessel has departed the port of origin. This notification must contain the following information: (CH)

- Owner's Name
- Military Agency (USDAO, MAAG, NAMRCDR, etc.)
- Name of vessel and voyage number
- Port of origin
- Departure date
- Shipping line
- Ocean Bill of Lading Number
- Container number (CH)

Copy of the Ocean Bill of Lading must be sent to post in advance to FAX number (511) 434-3066 or the alternate (511) 434-3037. The shipping line must be instructed to issue the original OBL in Peru. (CH)

(3) **RESTRICTIONS:** Mission policy precludes importation of POVs that are large, flashy, or ostentatious. Newly assigned employees must obtain advance approval from the Administrative Counselor prior to shipping models of personally owned vehicles (POVs) which fall in the above category. Also there are engine size limitations to import personally owned vehicles (POVs) established by the GOP as follows: (CH)

(a) Military, Naval, Air and Police Attaches: one vehicle up to 3.0 liters engine size every three years. (CH)

(b) Military, Naval, Air and Police Assistant Attaches one vehicle up to 2.5 liters engine size every three years. (CH)

(c) Military, Naval, Air and Police Assistants one vehicle up to 1.8 liters engine size. For this category vehicles must be imported within six(6) months after the member has arrived in country and is accredited to the Ministry of Foreign Affairs (MFA). (CH)

(d) Vehicles imported by accredited military members can be sold locally tax-free after three years in country. If the member is transferred or finishes his/her official tour before three years, he/she will need to pay the import taxes for the remaining time to complete the three-year period. That amount will be calculated by the MFA dividing the import taxes by thirty-six (36) and the result will be multiplied by the number of months remaining

to complete the three year-period. If a military member arrives in Peru with orders for two years of duty only and is accredited accordingly to the Peruvian Ministry of Foreign Affairs (MFA), he/she can sell the vehicle tax free at the end of his/her official tour. But for this two-year exemption to apply the member's tour must end without fail in exactly two years. Otherwise, the three-year rule applies. (CH)

(4) Under current GOP regulations, vehicles exceeding the engine size authorized can be brought into Peru under a temporary importation permit for a period not to exceed one year. After one-year period the vehicle must either leave the country or the appropriate import taxes (97 percent of the C.I.F. value of the vehicle) must be paid. Post will request, but cannot be certain of obtaining, extensions to the one-year time limitation imposed upon vehicles imported under the Importation Permit. Vehicles imported under temporary **importation cannot repeat cannot** be sold locally tax-free. (CH)

(5) Vehicles brought into Peru under temporary importation which are five (5) years old or more cannot be sold locally even if the owners are will to pay the import taxes. (CH)

Post discourages the importation of sports utility vehicles and flashy sedans, particularly newer models loaded with upgrades. These vehicles attract attention and carry a higher risk of car-jacking and theft. In past years, there have been numerous car-jackings in Lima, though few mission personnel have been victims. Personnel are therefore discouraged but not prohibited from importing such high profile vehicles. (CH)

(6) **PROCESSING:**

(a) All personnel bringing a vehicle to post must send a copy of the vehicle's commercial invoice (bill of sale for second hand vehicles and ownership title. These documents **must repeat must** contain the following information: Make, model, year, type of vehicle, engine number, serial number, number of cylinders, color, capacity of engine in cubic centimeters, cost of the vehicle in US dollars. It is imperative that the engine number of the vehicle be mentioned in the vehicle documents. If this information is not provided by the employees before the vehicle arrives in Peru, the employee would be required by the Peruvian Customs to obtain this information by himself at the customs warehouse before the vehicle is cleared out of customs. Also, the Ministry of Foreign Affairs and the Ministry of Transportation will request the engine number when the license plates are requested. For GOP authorities, the engine and serial numbers of vehicles are different. If the two members are the same, a certification from the proper authority or dealer is required. (CH)

(b) Schedule shipment of the vehicle to arrive after you are in country. Cars must be consigned in the employee's name. Automobiles are not boxed for shipment to Lima so remove pilferable items before shipment. Theft of windshield wipers, floor mats, radios, etc., occurs. It is a good idea to have a locking gas cap. (CH)

b. **MOTORCYCLES/MOPEDS:** Motorcycles/mopeds can be imported in personal property shipments; however, they are considered POVs. Only one POV can be imported duty-free. The GSO requires an original ocean bill of lading (OBL) as soon as possible after it has been issued to speed up the processing of paperwork in order to clear the vehicle from the Port of Callao. The OBL can best be sent through the APO or with an overnight courier such as DHL so that paperwork may be initiated ASAP.

CHAPTER 94

94-1 PHILIPPINES (RP) - GENERAL INSTRUCTIONS

REVIEW DATE: 12 JAN 99

1. SHIPMENT INSTRUCTIONS:

- a. **WEIGHT RESTRICTIONS:** In accordance with governing regulations.
- b. **CONTAINER/CRATING REQUIREMENTS:** No restrictions identified.
- c. **HARD LIFT AREA:** No restrictions identified.
- d. **HOUSEHOLD GOODS:** Ship via OTO Code 4. Consign to the American Embassy, Manila, Philippines, M/F: member and unit of assignment. Shipments for active duty military and DOD civilians assigned for duty in the Philippines must show Manila port (SA1) as the WPOD.
- e. **UNACCOMPANIED BAGGAGE:** Ship via OTO Code 8. Consign to the American Embassy, Manila, Philippines, M/F: member and unit of assignment. Shipments for active duty military and DOD civilians assigned for duty in the Philippines must show Ninoy Aquino International Airport, Manila, MNL as the APOD. For UB shipments originating from Diego Garcia ship via DPM/AMC to Andersen AFB, Guam. Andersen AFB has been designated as the intransit aerial port for shipments to the Philippines. TMO Andersen AFB will request a one-time-only solicitation for onward movement to the Republic of the Philippines. All advance documents must be forwarded to: TMO, 36 TRNS/LGTT, Unit 14005, APO AP 96543-4005.
- f. **DOCUMENTATION/CONSIGNMENT:** The origin Transportation Office must ensure advance shipping documents for HHGs, UB, and POVs are mailed to the GSO/Transportation Unit, American Embassy Manila, FPO AP 96515-1500. The advance documents must include the ocean bill of lading (OBL), airway bill (AWB), or government bill of lading (GBL) and packing list. For non-US flag carriers the OBL is a pre-requisite. The Philippines Department of Foreign Affairs (DFA) requires legible copies of advance documents and AWB/BL for clearance and certificate of tax exemption. All shipments including the POV must be consigned as stated in paragraphs 1d and 1e above. Consignment **MUST BE SHOWN ON THE AIRWAY BILL (AWB)/BILL OF LADING (GBL)**. Shipment must be properly declared/described on the airway bill or bill of lading as: Unaccompanied baggage/personal effect for UB and household goods/personal effects for HHGs. Any description other than the above are considered misdeclared and the Embassy must file an amendment to correct the consignment before the shipment can be released from customs. Misconsigned shipments, misdeclared shipments, and consolidated shipments may require ITOs/TMOs to issue amendments or bill of lading correction notices and cause a delay in the customs clearance. The Embassy discourages consolidation of shipments (shipment consigned to two different owners). Do not consolidate UB, HHGs, and POV shipments for DOD members assigned with the Embassy with other shipments, e.g. for retirees, separatees, and DLDs. The release of the shipments for Embassy members are often delayed caused by non-Embassy shipments in the container. This is because of the different process involved in the release of the consolidated shipments. Do not consign any shipments to the local agent or broker. The above consignment is the only acceptable consignee on the AWB or BL for Embassy shipments to clear through customs.

2. **CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS:**

a. US military personnel and DOD civilian employees on official assignment to the Philippines are authorized duty-free importation of personal property and POV. The member must be present and accredited with the Department of Foreign Affairs (DFA) to clear UB, HHGs, and POV through the Philippines Bureau of Customs (BOC). The member must have the appropriate 9e(1) visa for diplomat and 9e(2) for staff not on the diplomatic list (administrative and technical staff members) to be accredited with DFA. DFA requires legible copies of advance documents for clearance and certificate of tax exemption.

b. All personnel without diplomatic titles on PCS orders will have 6 months to import their household goods, unaccompanied baggage and POVs tax and duty-free. The 6 month period starts on member's arrival date in the Philippines. This restrictions also applies to the importation of a second POV at the member's expense. The member is responsible to pay the corresponding duties and taxes for any type of shipment arriving after the 6 month period.

c. Origin Transportation Offices must ensure advance shipping documents for UB, HHGS, and POV are mailed to the Transportation Officer, American Embassy, Manila, in advance of the shipment arrival. Without the member and the proper shipping documents, shipments cannot be cleared and will cause a delay in clearance through Philippine Customs, with additional cost incurred by the US Government. It may also be declared abandoned or auctioned by customs if not cleared within one month after arrival. Ideally, the shipment would arrive about a week, two weeks, and three weeks for UB, HHGs, and POV, respectively, after the member arrives in country.

3. **CONSUMABLES:**

a. **ALCOHOLIC BEVERAGES:** The only restrictions on the importation of alcoholic beverages within personal property shipments is that the quantities commensurate the personal consumption (reasonable quantity without specific) of the member.

b. **CIGARETTES/TOBACCO PRODUCTS:** Shipments of cigarettes/tobacco products between CONUS and overseas or within overseas countries may be shipped subject to host country requirements/restrictions identified. When undefined or in doubt, the TMO will request clarification by message from the responsible transportation authority at destination.

c. **COSMETICS:** No restrictions identified.

d. **FOODSTUFFS/MEATS:** No restrictions identified.

e. **MEDICATION (NARCOTICS)/PHARMACEUTICAL PRODUCTS:** No restrictions identified.

4. **ELECTRICAL EQUIPMENT:**

a. **HOME COMPUTERS:** No restrictions.

b. **TVs/VCRs:** No restrictions identified.

c. **OTHER (i.e. COMPATIBILITY, ETC):** No restrictions identified.

5. **FURNITURE, OVERSIZED:** No restrictions identified.

6. **PETS/QUARANTINE:** A "permit for entry into the Republic of the Philippines (RP)" must be obtained prior to importation. The letter requesting this permit must include the species, breed, sex, color, age, weight, and name (optional) of the pet, arrival information, name of owner, and specified if accompanied or unaccompanied (cargo). The permit may be obtained by writing to the American Embassy Manila, GSO-TU, Republic of the Philippines, APO AP 96515-5000. The Embassy will request the permit from the Philippines Bureau of Animal Industry. Import Permit Fees: P50.00 - Import Permit (regardless of number of pets); P165.00 - Inspection and issuance of landing permit for the first two (2) pets and P220.00 for each additional pet; P225.00 - Taxi Fare (Transportation for processing the import permit with the Bureau of Animal Industry (BAI)). Actual dollar amount varies depending on the peso/dollar conversion rate. Please note the Embassy does not allow use of government-owned vehicle for this purpose. Rabies vaccination has to have occurred not less than 1 month and not more than 6 months prior to importation. A veterinary health certificate (original and one copy) issued within 10 days before pet's arrival, stating the animal is free from, and has not recently been exposed to any dangerous communicable disease is required. Local veterinary service is available within the Metro Manila area. For exotic pets, write or contact the GSO, American Embassy at 63-2-523-1001 local 2796 or 2815 for specific information.

If the vehicle exceeds these specifications, you may either export or sell to a privileged buyer (with tax-free status). Mopeds must be shipped as a POV to be authorized use on the local highways/streets and must be registered with Philippine Land Transportation Office. Mopeds shipped as HHGs cannot be registered and are restricted for use on the American Embassy compound only.

c. **GASOLINE/CATALYTIC CONVERTERS:** POVs should enter the Philippines under the DOD Revised Import Control Program. The catalytic converters should be removed at origin, shipped with the POV, and put back on the POV incident to shipment back to the US. While participation in the DOD Revised Import Control Program is voluntary on the member's part, shipment of POVs utilized in the Philippines with the catalytic converter intact are subject to being redlined upon shipment back to the US. If leaded gasoline was used the owner must drain and refill the fuel tank with unleaded gasoline and replace the catalytic and oxygen sensor, if necessary, after importation. No action is required for motorcycles and mopeds.

**2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS:**

a. **Administrative Weight Restriction Area:** Saudi Arabia is an administrative weight restricted area for all DOD personnel. Contact local gaining commander in Saudi Arabia for specific information if not included in PCS orders.

b. All personal property shipments for DOD personnel on PCS orders are cleared through Saudi Arabia customs under a special exemption (**EMBASSY ONLY**), All other shipments are subject to inspection and/or examination at the point of entry into the Kingdom. Saudi Arabia is a strict Muslim country and items shipped which are offensive to the Muslim religion may be confiscated and may subject the entire shipment to confiscation without retribution.

c. **Shipment of UAB/HHG/POV:** For shipments of HHG, UAB and POV, inform your outbound counselor when your actual arrival date will be into the Kingdom of Saudi Arabia, in order for your property to be available upon your arrival. The Personal Property Shipping Office cannot obtain clearance until you have arrived on station with a copy of your Passport and VISA. Also, you will receive your Saudi ID card (IGAMA) for the Ministry of Foreign Affairs. Heat damage can be extensive if property sits in the sun for weeks before your arrival.

d. **Shipping papers:** Saudi customs officials do not, repeat, not release shipments as duty free when they are misconsigned or when shipping papers identify the commercial agent as "notify party." Place member's PCS orders inside member's personal property shipping containers.

e. **Shipping Documentation Pouch Requirements:** Ensure PCS orders and DD1299's and related documents are placed inside the shipping containers.

f. **Responsible Transportation Office:** Transportation Office, USMTM, APO AE 09803 is responsible for the overall personal property shipment program, letters of intent, and shipping information in Saudi Arabia.

g. **Mail:** Saudi customs officials may open and inspect packages coming into the Kingdom. This includes packages coming through APO. It is illegal to import alcoholic beverages, pork products, firearms, non-Muslim religious material, or material deemed pornographic. Videocassettes sent through APO mail are subject to screening and confiscation. If considered unacceptable,

tapes may be partially or completely erased, or destroyed. Books and magazines are also checked for "pornographic" pictures or politically sensitive material. Pages may be destroyed or removed if considered unacceptable. Record jackets, cassette labels, and compact discs may also be confiscated. To avoid confiscation, you may mail certain items via State Department pouch or include them in your HHG. (While HHG are subject to inspection, customs officials rarely open HHG shipments. You may send the following items by state department pouch: videocassettes (maximum ten per package, clearly labeled "video tapes"), DVD's, CD's, cassette tapes, prescription medications, and religious materials. Quantities should be limited. Pornographic material may not be sent through the pouch.

h. **Size Requirements:** The U.S. Postal Service has issued a size restriction on all parcel mail addressed to Saudi Arabia. It must fit in a mail sack. Therefore priority mail may not exceed 70 lbs. or 108 inches, measuring length and girth combined. Space available mail (SAM) may not exceed 70 lbs. or 100 inches, measuring length and girth combined.

i. **Restricted Items:** Saudi officials may restrict the importation of the following items: Books, printed materials, communication equipment, audio cassette tapes, video cassette tapes, DVD's, CD's and computer diskettes.

c. **COSMETICS:** No restrictions identified.

d. **FOODSTUFFS/MEATS:** Pork products are prohibited.

e. **MEDICATION (NARCOTICS)/PHARMACEUTICAL PRODUCTS:** Saudi Arabia recently increased the penalties for violating narcotic laws. Clearly labeled prescription drugs, in small quantities, should pose no problems. However, difficulties may arise if prescription drugs are shipped in large quantities, lack of clear labels or proper documentation (such as a copy of the prescription), or are considered illegal by Saudi authorities. You may wish to send prescription medications via pouch.

f. **OTHER:** Non-Muslim religious material or material of a sexual nature are prohibited.

### 4. **ELECTRICAL EQUIPMENT:**

a. **HOME COMPUTERS:** No restrictions identified.

b. **TVs/VCRs:** The Embassy Recreation Association (USERA) currently offers the following channels free of charge: CNN international; AFN Atlantic; AFRTS spectrum; AFRTS news/sports; and two local Saudi channels. Orbit satellite service is also available for a monthly fee. Programs are broadcast in several different system formats, including, PAL, SECAM, and NTSC 3.58. Therefore, multi-system televisions are required to take full advantage of the program selection- USERA also operates an extensive VHS Video Club.

c. **OTHER (i.e. COMPATIBILITY, ETC):** No restrictions identified.

### 5. **FURNITURE, OVERSIZED:** No restrictions identified.

6. **PETS/QUARANTINE:**

a. You must have approval from the Saudi Ministry of Foreign Affairs to bring a pet into the Kingdom. Therefore, at least one week prior to the animal's arrival, you must notify GSO of the following information: breed, sex, color and weight of animal. (Dogs should be listed as "guard dogs"). You may send this information by e-mail to David Simons or Ali Jama Haid, or through front channel cable. With this information, GSO will prepare a diplomatic note for the foreign ministry. While this is normally sufficient, the note may be held by the foreign ministry until the actual processed documents are faxed (see paragraph 6.f.).

b. You should update your pet's vaccinations and obtain a USDA health certificate. (Rabies shots should be administered 30 days prior to your pet's arrival.) You may place several pets on one 3 certificate if you wish. Vets in the Washington, DC metropolitan area can be expensive, so you may wish to do this at your home leave address. If your pet has health problems or needs dental work, it is best to treat them as early as possible. You should do this at least 30 but not more than 10 days before arrival at post.

c. Before you can authenticate your pet's health certificate, it must be certified by the USDA. If you are not in the Washington, DC Area, check with your vet for the nearest USDA office. If you are in the Washington area, the locations are as follows:

USDA-APHIS

4700 River Road, Unit 39  
Riverdale, MD 20737-1231  
301-734-8383 or 8170

(This office is located off the beltway, use Kenilworth Ave. Exit).

OR

2568A Riva Road, Room 207  
Annapolis, MD 21401  
410-962-7726

OR

Washington Bldg., Suite 600  
1100 Bank St.  
Richmond, VA 23219  
804-771-2774

d. After the health certificate is certified by the USDA, the State Department Office of Authentication's must authenticate it. That office is located at Colombia Plaza on 23rd Street (SA-1, phone: 1-800-688-9889 or 647-5002 or 663-3868). The office is located on the plaza or ground floor next to the drugstore. The office attaches a letter of authentication to your health certificates. Cost is \$4.00.

e. You must take the certified health certificate and letter of authentication to the visa entrance of the Saudi Embassy. It is located at 601 New Hampshire Ave., NW, a short walk from the authentication office, across from the Watergate plaza. You must obtain an official Saudi stamp on the health certificate. It may be necessary to leave the documents overnight. There is an \$8.50 fee, which you may pay in cash if you have the correct change. Otherwise you will need a money order or cashier's check made out to "the Royal Kingdom of Saudi Arabia" or "the Embassy of Saudi Arabia." Be aware that the Saudi Embassy closes for extended periods of time for the Eid and Hajj religious holidays.

f. After your USDA certificate is authenticated by the State Department and stamped by the Saudi Embassy, fax copies of all these documents to the GSO/customs & shipping section in Riyadh, 011-966-1-488-7939. The section will prepare a diplomatic note for the Ministry of Foreign Affairs. The MFA will endorse the diplomatic note, directed to the Director of Airport Customs. This can take up to four days.

g. If you do not follow the process described above, airport authorities will not release your pet until checked by a Saudi veterinarian. You may want to avoid arriving on the Saudi weekend, which is Thursday and Friday, as the vet does not work on these days. If your pet is not accompanied, it will be held at the airport for up to four hours until a vet can check it. There is no charge for this service.

h. Reminder: Your pet must have reservations with the airline and you must bring all their documents with you to the airport. Be prepared to pay for your pet's passage when you arrive at the airport. Currently, you may only pay for pet travel at the counter -- it cannot be prepaid. Most airlines require that your pet travel in a sturdy cage with strong bolts and air ventilation on three to four sides of the cage. All cages must have a water dish. A piece of old carpet fixed to the bottom of the cage allows your pet to dig in claws and hold on tight when transported.

i. If you plan to book your pet inside the cabin, please check well in advance with the airline. The availability of this option is normally limited and the airline may have additional requirements concerning the date of the health certificate and other documentation.

j. If the pet is sent by airfreight, the shipment should be consigned as follows:

American Embassy  
Riyadh, Saudi Arabia  
Contact Tel: 488-3800, EXT 1512/1500

k. If you send a dog by airfreight, the description of the shipment in the airway bill should state that it is a "guard dog."

l. If shipping a pet by airfreight, please notify GSO, as soon as transportation arrangements are made, of the following: airline, flight number, and airway bill number assigned to the shipment.

7. **PRIVATELY OWNED FIREARMS (POFs)**: It is illegal to import or possess weapons.

8. **PRIVATELY OWNED VEHICLES (POVs)**:

a. **POVs**: (includes information on prohibited vehicles, colors, etc.)

(1) Active duty personnel, other than Defense Attache Office personnel and the US Embassy Marine Security Guard Detachment Commander, are prohibited from importing privately-owned vehicles. Open bed pickup trucks cannot be registered to non-Saudi and should not be shipped. Do not ship a pickup truck as a POV. If a yellow sedan is shipped, Embassy guidance should be sought prior to shipment as this color is reserved for taxis in Saudi Arabia, so it is discouraged. All types of vehicles can be shipped, but spare parts are still difficult to obtain for pre 1988 vehicles. There are no specific safety standards imposed by Saudi Arabian Government.

(2) Shipments of POV should not, repeat, not be scheduled to arrive at Post prior to employee's arrival. Post cannot obtain clearance until employee arrives and is granted an identification card by the Saudi Ministry of Foreign Affairs. Saudi Arabian Customs do not, repeat, do not release

shipments as duty free shipments when shipments are misconsigned.

(3) **Drivers License:** Women may not repeat not legally drive in Saudi Arabia. Therefore, Saudi police will only issue diplomatic driver's licenses to men. Prior to applying for a drivers license, you must obtain your Saudi ID card (IGAMA). To qualify for a diplomatic driver's license, you must have a valid, repeat, valid driver's license, preferably one issued in the United States. When applying for your driver's license, you must submit four (4) non-glossy, non-Polaroid black/white or color photos (1 x 1 in). If you do not have a valid driver's license, but would like to obtain one in Saudi Arabia, you should be prepared to take driving courses and/or driving exams. While women are not permitted to drive in Saudi Arabia, they may import and register a vehicle. However, hiring a driver is expensive, so most female employees rely on the embassy's extensive motor pool operation for transportation.

(a) Surface shipments of POV should be sent directly to Riyadh dry port via Port of Dammam. Freight should be prepaid through to Riyadh dryport.

(b) For surface shipments please note the following:

(1) Do not pack motor vehicles and HHG in the same containers.

(2) Dammam Port and Riyadh dry port handle 20 foot and 40 foot containers.

(d) Post request that all shipments destined for Riyadh are sent directly through to Riyadh. To do this, please follow these instructions precisely:

(1) The consignee block of the OCB/L must be completed as shown in para 8.a.3(3) above.

(2) The notify party block of the OCB/L must remain blank or show "same as consignee."

(3) The port of discharge block of the OCB/L must show "Dammam."

(4) The place of delivery block of the OCB/L must show "Riyadh dry port."

(4) Embassy HHG and POV shipments should be marked and consigned as follows:

American Ambassador  
c/o American Embassy  
Diplomatic Quarter  
Riyadh, Saudi Arabia  
ATTN: GSO; Tel: 488-3800, EXT 1512/1500  
FOR ()

(5) **USMTM Personnel:** Units/personnel sponsored by USMTM (AFELM-TAFT, AFELM SECURITY AST JD, AFELM SECURITY AST JA-DHAHRAN-AFM ADM, USCENCOM USMTM, DCMA, USMC TAFT (Marines), DCAA, WR-ALC, Peace Shield, AAFES, Det. 1, 83, DECA, Eskan Security Forces Detachment, and 550<sup>th</sup>. Personal property must be shipped to King Khalid International Airport-RUH, Riyadh, Kingdom of Saudi Arabia. HHG are not authorized via Surface Mode. POV's are prohibited.

**ATTN: OUTBOUND BOOKING, IF YOU ARE NOT SURE, PLEASE SEND US AN E-MAIL: tmo@usmtm.sppn.af.mil FOR PROPER ROUTING INSTRUCTIONS. (CH)**

- **Important instructions for CONUS locations:** Use DPM International Commercial Air Rates (DPM Code HF or BF).

- **Important instructions for Overseas locations:** Use OTO Code 8 or Code 6 as an alternative mode of shipment.

- **Markings:** See General Instructions pg 103-1, para 1d(2).

(6) The shipment should be routed through Port of Dammam to Riyadh dry port. Means of transportation from Dammam Seaport to Riyadh dry port must be stated on the OCB/L as "via railways customs terminal (RCT)."

(7) Forward original OCB/L directly to: (CH)

General Service Office  
U.S. Embassy, Unit 61307  
APO, AE 09803-1307

Or via registered international airmail to:

General Service Office  
U.S. Embassy  
P.O. Box 94309  
Saudi Arabia  
ATTN: Customs & Shipping

(8) **Neighboring posts:** Posts in neighboring countries (Jordan and GCC countries) may send shipments of HHG and POVs overland. If a post decides to send shipments overland, it should submit the following information at least three workdays prior to release.

(a) Full description of the truck designated to carry the shipment.

(b) Truck license plate number.

(c) Driver's name and nationality.

(d) Driver's passport number.

**NOTE:** This information will help post obtain customs clearance approvals and border crossing permits in a timely manner. Post suggests caution in sending shipments overland, as the shipments are more likely to be opened and inspected.

(8) **Customs clearance process:** It normally takes two to four weeks for UAB shipments to arrive in country, while HHG shipments generally take two to four months, depending on the origin of the shipment, routing, and other factors. Post can not, repeat, not pre-clear UAB, HHG, or POV shipments before they arrive in country. Nor can post begin the clearance process until after the member has arrived and received their ID card. (ID cards, or IGAMA, are usually received about two weeks after arrival.) It normally takes two weeks to finalize customs formalities, following receipt of the IGAMA. GSO will contact you to schedule delivery once your shipments clear customs. For military and DOD members, a clear copy of the passport, visa, and a Mission Relations Letter is required prior to clearing customs for HHG's and UAB thru King Khalid International Airport.

(9) **Vehicles:** No age or manufacturer restrictions apply to mission vehicles.

(10) Motor vehicles manufactured by American motors, previously on the boycott list, can now be imported. Also, Ford motor vehicles can be

imported and are locally available, but spare parts are as yet difficult to obtain. General motors vehicles and services are available, as are Chrysler products, but the latter are in less plentiful supply. Also do not, repeat, m not import a POV with tinted glass windows. Vehicles with tinted glass windows cannot be registered unless the tint-is removed. The Saudi Arabian Customs may require proof of ownership upon clearance. Copies of vehicle titles translated into Arabic or English should be sent to Post.

b. **MOTORCYCLES/MOPEDS:** If you wish to send a motorcycle (**EMBASSY ONLY**), do not include it in your HHG shipment. Motorcycles must be shipped separately and described in the bill of lading. Particulars required are: year/type/make, engine number, and chassis number.

c. **GASOLINE/CATALYTIC CONVERTERS:** Unleaded gas is now available in the Kingdom of Saudi Arabia. There is no longer, repeat, no longer any need to remove the catalytic converter.

d. **INSURANCE/SAFETY REQUIREMENTS:**

(1) **Motor Vehicle Insurance:** Motor vehicle insurance coverage is not mandatory in Saudi Arabia. However, post strongly recommends that you carry insurance on your motor vehicle. Motor vehicle insurance may be purchased locally at reasonable rates.

(2) **Motor Vehicle Service and Spare Parts:** Service and spare parts are available for most popular vehicle brands. However, spare parts for vehicles more than fifteen (15) years old may be difficult to find.

(3) **Motor Vehicle Inspection:** There are two types of vehicle inspections.

(a) **Standard Conformity Inspection:** Imported motor vehicles should be inspected soon after clearing Customs. The Saudi Arabian Standards Organization (SASO) inspects vehicles to ensure that they meet Saudi specifications. The inspection is simple and almost all vehicles pass. Technicians check safety belts, lights, exhaust pipes, and other areas of the vehicle. When a vehicle passes inspection, SASO issues a certificate of inspection for use in registering the car. SASO does not charge a fee for inspecting mission vehicles.

(b) **Road Safety Inspection:** Annual motor vehicle safety inspections are mandatory in Saudi Arabia. The inspection fee is about \$20.00. (New vehicles, in the current year of manufacture, are exempt.) When a vehicle passes inspection, a circular sticker is placed on the windshield and a computer-generated, one-year certificate is issued. Saudi police require vehicle owners to have a valid copy of the inspection certificate when applying for issuance/renewal of vehicle registration, ownership transfer, or export permit.

e. **OTHER:**

(1) **Pickup Trucks:** Do not, repeat, not ship a pickup truck as a POV. Pickup trucks can not be registered to non-Saudies.

(2) **Motor Vehicle Color:** Do not, repeat, not ship a yellow vehicle. Yellow is reserved for taxis. If you import a yellow vehicle, it will be repainted at your expense.

(3) **Vehicles With Tinted Glass:** Do not, repeat, not ship a vehicle with a tinted windshield or with tinted front side windows. Motor vehicles that have tinted glass on either the windshield or the front side windows can not be registered with the Saudi police until the tint is removed. Rear

windows and rear side windows may be lightly tinted, as long as the tinting does not interfere with the driver's ability to see objects behind him or with Saudi security concerns. To determine if your tinting is acceptable, stand 15 to 30 yards behind the vehicle. If you can see well inside the car, then your rear window tinting is okay. If you cannot see into the car, the vehicle will most likely fail the Saudi inspection.

(4) **Vehicle Titles:** Saudi officials require proof of ownership before clearing vehicles through customs. Please send or bring a copy of your vehicle title to post. The title must be in English or Arabic. If your title is not in English or Arabic, please have it translated before coming to post.

(5) **Vehicle Registration and License:** The process of licensing a vehicle with diplomatic (CD) tags normally takes two weeks. You must pay the registration fee, which is about \$8.00.

9. **SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL:**

a. Religious or sexually related material. Video cassettes sent through the regular APO mail or shipped as HHG's or UAB will be confiscated and viewed to ensure they are morally acceptable. If unacceptable, they will be erased entirely or in part and then are usually returned to the addressee. If mailing tapes to post, either send via registered APO or send a maximum of two tapes per package via state department pouch clearly marked "video tapes" to avoid confiscation. Books and magazines are also checked for "pornographic" pictures or politically sensitive material and pages may be destroyed or removed if determined to be unacceptable. Record jackets, cassette labels, and compact discs are also subject to confiscation.

b. **Public Behavior:** Anyone entering Saudi Arabia should be aware that Islamic Law is the foundation of the Kingdom's conservative customs and practices. Pork products, alcohol and items deemed pornographic are strictly forbidden. The norms for public behavior and dress are extremely conservative. For example, Saudi women are veiled and must wear a full-length black covering known as an Abayya. Guidance issued by the Saudi Embassy in Washington states that non-Muslim women are not required to wear an Abayya, but should dress conservatively (loose-fitting dresses that cover well below the knee, with long sleeves and a high neckline). The embassy echoes this guidance and embassy women do not, repeat, not wear Abayyas when out on official business. However, many western women, particularly those living in the Riyadh area and the more conservative central region, choose to wear an Abayya and carry a head scarf in order to avoid harassment by the religious police (known as the mutawwa'in). Even with the Abayya and scarf, harassment may still occur. When in public, embassy personnel and dependents should dress conservatively. Men should wear long pants and avoid shorts or sleeveless shirts. Women should wear dress in accordance with the above guidance and avoid trousers when out on official business.

10. **STUFFED WILDLIFE/ANIMALS/PLANT RESTRICTIONS:** No restrictions identified.

11. **TRANSMITTING EQUIPMENT:**

a. **CBs, AMATEUR/HAM RADIOS AND MARS EQUIPMENT:** Importation of any item containing a transmitter, including remote control airplanes is prohibited.

b. **DISH ANTENNAS:** It is illegal to import dish antennas and receivers (they are locally available).

c. **CORDLESS PHONES:** It is illegal to import cordless phones (clearance must be obtained in advance from Ministry of Communication of Saudi Arabia.)

12. **SEPARATEES/RETIRES ENTITLEMENTS/LIMITATIONS:**

a. Retired/separated personnel are responsible for customs clearance of their personal property and POVs with the Saudi Arabian custom officials at the port of arrival prior to onward movement. The US Embassy, Riyadh, cannot assist with customs clearance for other than assigned Embassy personnel. Shipments for retired/separated personnel should not be consigned to the Embassy.

b. Retired/separated personnel's shipments should be shipped via ITGBL Code 6 OTO for HHG; Code 8 OTO for UB. Consign to member at final destination. Annotate PPGBL: "Carrier contact PPSO, USMTM Riyadh, Saudi Arabia, prior to delivery or placing in storage." PPGBL for all Code 6 and 8 shipments should list name of carrier's destination agent, address, and telephone numbers in Saudi Arabia. Member must provide local address and telephone contact to the appropriate PPSO immediately upon arrival in Saudi Arabia.

c. Retirees may import privately owned vehicles. Private arrangements for customs clearance and payment of duty must be made after coordination with the appropriate PPSO. POVs should be shipped, containerized if possible, to the Port of Dammam or Jeddah.

13. **OTHER:**

a. **VISAS:** You must have a visa to enter Saudi Arabia. When you apply for your Saudi visa, please request a Diplomatic Visa annotated as an assignment visa, repeat, an assignment visa. Dependents require diplomatic visas annotated as resident visas. Neither you nor your dependent(s) should be issued a visitor's visa. Please check your passport before traveling to ensure that you have the correct visa. If you are not certain that you have the correct visa, please fax a copy of it to Human Resources for review. The fax number in Human Resources is 011-966-1-488-7765. If possible, bring with you a copy of the visa request submitted to the Saudi Embassy. An incorrect visa may cause long delays in customs processing of unaccompanied air baggage (UAB) and household effects (HHG). Also no resident ID (IGAMA), multiple exit reentry permits, or driver's license can be issued to you or your dependents unless you have, the correct visa.

b. **VISAS FOR DOMESTIC HELP:** Domestic workers in Saudi Arabia require a work visa. To obtain a work visa, domestics must be "sponsored" by their employers. According to Saudi regulations, the Embassy cannot arrange sponsorship for your domestic worker prior to your arrival. When you arrive in Riyadh, the Human Resources Office will first obtain resident permits (IGAMAs) for you and your family. Only when you have your IGAMA will Human Resources be able to apply for your domestic's work visa. Processing time for the work visa ranges from two to four weeks. To facilitate processing of the work visa, you should bring a copy of your domestic's passport and two passport size photos of him/her (black/white matte). Generally, the Saudi Government does not grant work visas for single female domestic help under the age of thirty years. The Ministry of Foreign Affairs allows entry of one domestic for each direct-hire American employee.

c. **PHOTOS:** Please bring four(4) non-glossy, color photos (2 x 3 in) for your Saudi residence permit (IGAMA). Children 17 years of age and under must be photographed with their mother. Men who wish to obtain a Saudi driver's license should also bring four(4) non-glossy, non-Polaroid black/white or color photos (1 x 1 in). The photos employees obtain at the Department of State during consultations are usually not, repeat, not acceptable for the IGAMA, but may be used for the driver's license and other documentation requirements. Photos may be obtained locally in Riyadh, if you prefer. Photo expenses may be claimed on your travel voucher.

d. **EMBASSY COMPUTER SOFTWARE APPLICATIONS:** The embassy uses a Windows NT local area network for its unclassified computing needs. The PC client

operating system is Windows NT 4.0 for workstations on both the unclassified PCs and classified PCs. The software, Microsoft Office PRO 97, includes Word 97 for Word Processing; Excel 97 for spreadsheet applications. Outlook 97 for e-mail, contacts and scheduling; Accesses 97 for databases; and PowerPoint 97 for presentations. Post recommends you have training on this system before arrival in Riyadh.

e. **HOUSING:** All embassy personnel reside in the diplomatic quarter, within one half mile of the Chancery. You will occupy either an FBO townhouse (American designed and built) or a government leased townhouse. All housing is furnished and is assigned by post's interagency housing board on the basis of rank, family size and availability. Ordinarily, you should move directly into your assigned housing upon arrival at post. All residences are air conditioned and are furnished with the following: Refrigerator, freezer, range, oven, microwave oven, water dispenser, washer/dryer, vacuum cleaner, and a complete set of basic furniture, including one set of plastic patio furniture. Post does not provide computer stands, microwave carts, reclining chairs, card tables, or other specialized furniture. Please plan for your individual needs accordingly. Storage space is limited. Post does not provide extra storage space for personal effects that will not fit in your assigned housing. Upon arrival, you will receive a hospitality kit containing basic household items, such as dishes, cooking utensils, iron, ironing board, and linens. The welcome kit should be returned to GSO upon arrival of your UAB shipment.

f. **SCHOOL:** The American International School - Riyadh (AIS-R) is a private school with an application and registration process similar to that of a private school in the United States. The Community Liaison Officer will inform the school in advance of the number of new students to expect and their approximate grade, but children must be physically present in Riyadh to register. Applications are not accepted through the mail or from a second party. All records and transcripts from schools previously attended must be presented in person to the registration office. Post recommends all documents be hand carried. Entrance testing to determine grade placement is required. In addition to AIS-R, Riyadh has a Multinational School and schools that offer British, French, and German curricula.

g. **STORAGE SPACE:** As previously indicated, storage space is limited. Be advised that storage areas are limited in post housing and no commercial storage facilities are available. Discretion should be used in selecting which HHE items you send to post.

h. As per Department's recommendation (State 178721) and post policy, Embassy Riyadh is a smoke free work place.

The evidence will be required when the firearms are returned to the CONUS. Upon receipt of firearms in Spain, they must be registered with the security department in order to obtain a Spanish Firearms Permit. Civilian personnel employed by private contractors working on the Naval Station must obtain an official firearms permit from Spanish authorities prior to shipment. #### 8. PRIVATELY OWNED VEHICLES (POVs):

a. **POVs:** (includes information on prohibited vehicles, colors, etc.)

(1) Ruling of the SOFA between the Kingdom of Spain and the United States stipulates members of the US Military Forces and civilian employees ordered to Spain for duty, are authorized to import and retain one POV of non-Spanish manufacture free of all types of Spanish duties. The vehicle must be for the exclusive use of the military member, civilian employee, or a dependent and must arrive in Spain within 6 months, repeat, 6 months from the initial date of arrival of the military member or civilian employee. Members of the force and civilian component can neither import nor register a second non-Spanish manufactured POV. A second POV, shipped commercially, will be impounded at the POD and all storage and related handling fees, including reshipment will be at member's expense. If a second POV arrives via OPTLIFT, it will be held aboard the station pending reshipment via OPTLIFT to CONUS. In addition to this imported vehicle, the military member or civilian employee also may own and maintain one Spanish-manufactured vehicle purchased in Spain in accordance with special arrangements and free of the Spanish value added tax. Dependents over the age of 18 may own and maintain one vehicle of Spanish manufacture.

(2) POVs/motorcycles are picked up at the vehicle-processing center in the city of Rota and members should have a current registration that was issued at member's previous duty station. If the registration has expired, members can still pickup the vehicle, however, it will take ten to twelve days to complete the process for Spanish registration and license plates. It takes 2 to 4 days to complete the Spanish registration process if members have a current registration from a previous duty station. Spanish laws governing importation into Spain require that POVs/motorcycles be registered to members in the country where member was assigned prior to PCS to Spain; that is, PCS Germany to Rota, the POV/motorcycle must have been registered in Germany. It is recommended registration be good for at least 90 days from the date the vehicle is turned in for shipment at the CONUS or overseas VPC. Members must have a POV/motorcycle registration, even if it is expired, in order to register the vehicle with Spanish traffic authorities. (CH)

(3) Bumper stickers, decals on windows and windshields must be removed before the vehicle can be picked up by members. Suggest this be done prior to turning in the POV for shipment.

(4) Members must possess a valid US or foreign driver's license and members arriving in Spain must successfully complete a Spanish driver's test and obtain a Spanish Driver's license. Spanish license processing takes approximately 10 working days. Members can drive during the period with either an international license, or a Spanish translation of their US or foreign driver's license obtained from the Security Department, NAVSTA, Rota.

(5) Members who are not ordered to Spain for duty are not eligible for customs clearance of their POV, under the rules governing members of the US Forces. Members who ship their POV to Spain on PCS orders which assigned them to another country, or on retirement orders with a home of selection other than Spain, and with the intent of picking up the vehicle at the Spanish port and driving it to their final destination, must be advised:

(a) Customs clearance cannot be effected by Commanding Officer, NAVSTA Rota.

(b) The POV must be properly manifested and shipped for discharge at the designated commercial port of Algeciras, Cadiz, Spain. Preferably Cadiz inasmuch as the port is 35 miles from the Naval Station and Algeciras is 90 miles South.

(c) Commercial customs clearance and all costs involved must be effected by the member, and customs clearance can take a week or more.

(d) All documents for the vehicle must be current and after effecting clearance, the POV must be picked up by the owner.

(e) Shipping a POV contrary to above information will result in personal delay, expenditure, and frustration.

b. **MOTORCYCLES/MOPEDS:** Motorcycles/mopeds must be shipped as a privately-owned-vehicle (POV). Do not ship as HHGs. A non-Spanish manufactured motorcycle/moped/motorized bike 50cc or larger is considered a POV and must be registered and shipped as a POV. The Spanish Ministry of Industry prohibits registration/operation of non-Spanish manufactured mopeds with less than 50cc engine capacity. They cannot be imported into the country as HHG or POV. Failure to comply with above information will result in hardship on member, personal expenditures, and severely strain Spanish customs/US Forces relations. ATVs and Motorcross vehicles, provided they remain on-base and off-road, are not considered POVs and may be imported into Spain as HHGs. Possession of these types of vehicles for off-road use will not count against the limitation of tax-free vehicles members may import and

own.

c. **GASOLINE/CATALYTIC CONVERTERS:** Members shipping POVs to Spain are not required to remove their catalytic converters. Unleaded fuel is readily available.

d. **INSURANCE/SAFETY REQUIREMENTS:** POVs which have been modified or altered in a manner affecting the original design, safety, stability, performance or operating characteristics of the vehicle are prohibited. Therefore, POVs which have been changed by the installation of reversible wheel disc, oversized tires, or any other mechanical device that would enlarge the original tract width of the vehicle, cannot be operated on Spanish highways. Tires cannot protrude beyond fender wells. Additionally, the Spanish Traffic Code stipulates all vehicles registered in Spain must meet the following standards:

(1) Seat belts installed in front seat.

(2) Anti-theft device (on steering column or secure lock through steering wheel so vehicle cannot change directions when moved).

9. **SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL:** No restrictions identified.

10. **STUFFED WILDLIFE/ANIMALS/PLANT RESTRICTIONS:** No restrictions identified.

11. **TRANSMITTING EQUIPMENT:**

a. **CBs:** Importation or utilization of CB radio is prohibited.

b. **AMATEUR/HAM RADIOS AND MARS EQUIPMENT:** Can be imported in HHG. However, prior to operating in Spain, members must obtain a license from the Postal and Telegraphic Administrative Director's Office in Madrid. To obtain the license, a certified copy of the US Federal Communication Commission Permit, listing the type of equipment to be used, must be included with the application. Final determination on the application takes 2 to 4 weeks. Members who do not have a US operator's license must satisfactorily complete all required examinations in order to receive a permit from Spanish Communications Officials. The equipment cannot be used until the proper Spanish authorization is obtained. Reshipment to non-temporary storage at Government expense is not authorized.

c. **DISH ANTENNAS:** No restriction when used for TV reception.

d. **CORDLESS PHONES:** No restrictions identified.

12. **SEPARATEES/RETIRES ENTITLEMENTS/LIMITATIONS:**

a. Shipments incident to separation, retirement, or as a designated location for dependents must move preferably by Code T or Code 4 as an alternative. Shipments must be consigned to member at destination address. If specific address is unknown, consign to specific locality with carrier instructions to notify destination transportation office. Ship unaccompanied baggage(UB) via Code J or DPM/AMC. Containers and documents must be marked "retirement shipment, separation shipment or designated location shipment".

b. Members who elect to reside in Spain upon retirement or separation from the service must obtain a Spanish resident visa from Spanish Consulate or Embassy. This visa must be obtained prior to arriving in Spain and must be stamped in the member's passport. Based on the visa, approval for residency will take approximately a month from the date member submits the application for residency. If the visa is not obtained prior to arrival in Spain, member cannot apply for resident permit. Resident permit must be obtained prior to clearance of personal property shipments. Personal property shipments should be placed in NTS at origin until resident permit is obtained by member. Clearance through Spanish Customs is the member's responsibility and member must be in Spain and obtain the services of a Spanish Customs Broker to effect the clearance. Commercial warehousing, documentation, handling and related charges while pending clearance are payable by the member and vary depending on the type items shipped. To effect clearance, member must present customs the resident permit, passport, customs clearance documents, orders, and copy of inventory in Spanish of the property being imported. The personal property office does not provide translation services. Shipments forwarded via DPM must be cleared personally by the member. The DD 1299 must include the statement: "Members advised clearance through Spanish customs and any related fees levied are personal responsibilities and property will not be released until all fees are paid and customs formalities completed".

c. Dependents residing in Spain while their sponsor is assigned for duty elsewhere are not authorized privileges as US Forces members under the current Status of Forces Agreement (SOFA) between the US and Spain and are not eligible for customs/duty-free importation of HHGs/POVs. Spanish authorities may levy appropriate duty importation and other taxes.

13. **OTHER, Jet Skis:** No restriction on importation provided the vehicle is for sporting purposes and the personal use of the military member, civilian employee and/or dependent.

b. **CIGARETTES/TOBACCO PRODUCTS:** Tobacco is duty-free when shipped together with HHG. Declaring these items should be avoided, especially in instances where HHG shipments arrive prior to the arrival of the member and shipment has to be placed in storage-in-transit (SIT). c. **COSMETICS:** No restrictions identified.

d. **FOODSTUFFS/MEATS:** No restrictions identified.

e. **MEDICATION (NARCOTICS)/PHARMACEUTICAL PRODUCTS:** No restrictions identified.

#### 4. ELECTRICAL EQUIPMENT:

a. **HOME COMPUTERS:** Home computers are duty-free when shipped together with HHG. Declaring these items should be avoided, especially in instances where HHG shipments arrive prior to the arrival of the member and shipment has to be placed in storage-in-transit (SIT). Declaring these items in the shipping documents will involve opening all boxes for customs examination.

b. **TVs/VCRs:** No restrictions identified.

c. **OTHER (i.e. COMPATIBILITY, ETC):** No restrictions identified.

5. **FURNITURE, OVERSIZED:** No restrictions identified.

6. **PETS/QUARANTINE:** Dogs and cats brought into Sweden are subject to a 4-month quarantine. The quarantine kennel charges are approximately \$2,807 for dogs and \$2,456 for cats. An advance deposit of \$175 is required at the time of reservation is made or \$1,053 one month prior to the arrival of the pet. The balance is required when the pet is released from quarantine. Space in the quarantine kennel must be requested several months in advance. Pets arriving in Sweden without reserved space will not be permitted entry into Sweden and will be sent back upon arrival. **NOTE:** Always contact GSO before shipping animals.

7. **PRIVATELY OWNED FIREARMS (POFs):**

a. License may be obtained after customs entry.

b. Firearms are duty-free when shipped together with HHG. Declaring these items should be avoided, especially in instances where HHG shipments arrive prior to the arrival of the member and shipment has to be placed in storage-in-transit (SIT). Declaring these items in the shipping documents will involve opening all boxes for customs examination. **NOTE:** Always contact GSO before Shipping firearms.

8. **PRIVATELY OWNED VEHICLES (POVs):**

a. **POVs:** (includes information on prohibited vehicles, colors, etc.)

(1) They may be shipped unboxed. Difficulties and high costs are often encountered in modifying POV to meet stringent Swedish safety requirements. Therefore, we suggest you contact the Embassy General Services Officer (GSO) before initiating shipment of POV. Customs entry of HHG and POV of non-diplomatic staff members must be made within 4 months from date of member's initial arrival. Ensure airway bill(AWB) number is shown on GBL and advance shipping documents. A married member with accompanying spouse may import two privately-owned vehicles (POVs) duty-free.

(2) Shipping/Transaction Costs: Each individual that PCS to Sweden is authorized to ship one vehicle at US Government expense. Private shipment of a vehicle to Sweden averages \$1,200-\$1,400; a 17-foot boat averages \$1,200. These costs are recoverable if the vehicle is sold in Sweden. A US-manufactured vehicle does not meet Swedish specifications and can only be converted under the provisions outlined. If the vehicle is imported under diplomatic privileges, waivers can be obtained. However, such waivers are valid only for the individual importing the vehicle. This means the vehicle must be taken out of Sweden upon completion of tour of duty or alternatively sold to a person with diplomatic privileges. In addition to taking advantage of the possibility of importing a vehicle under diplomatic privileges, it is also possible to import a vehicle duty-free for personal use under the following provisions. The vehicle must have been owned and used by the imported at least 1 year prior to date of importation. If the vehicle is

imported under these provisions, only minor modifications are required in order to meet Swedish specifications (outside rear view mirrors are required on both sides, speedometer scale must show kilometers only, stamping vehicle identification number into the trunk, and other minor modifications may be required). It is not possible to give an exact figure for these modifications as this can vary considerably to make and model of vehicle. However, the estimated cost is \$500. If you intend to import a new or used vehicle, please contact the General Services Officer (GSO) for further details. **NOTE:** Always contact GSO before shipping POV.

CHAPTER 116

116-1 THAILAND (TH) - GENERAL INSTRUCTIONS

REVIEW DATE: 19 APR 00

1. SHIPMENT INSTRUCTIONS:

a. WEIGHT RESTRICTIONS:

(1) Air Force personnel - Bangkok (JUSMAGTHAI personnel only): 25 percent of JFTR weight allowance or 2,000 pounds, whichever is greater.

(2) Navy personnel - JUSMAG (O5 & below): 25 percent of JFTR weight allowance or 2,000 pounds, whichever is greater.

b. CONTAINER/CRATING REQUIREMENTS: No restrictions identified. Recommend crates be lined with plastic, if possible.

c. HARD LIFT AREA: Hard lift area for Army (UB only). Air clearance, when required, will be obtained from the appropriate Air Clearance Authority (ACA).

d. UNACCOMPANIED BAGGAGE: Commercial air is preferred method of shipment for baggage.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS: Personal property is cleared through customs duty-free only within 6 months after date of member's arrival. Six months applies to POVs also. Restrictions do not apply if the member will have Diplomatic status.

3. CONSUMABLES:

a. ALCOHOLIC BEVERAGES: No restrictions identified.

b. CIGARETTES/TOBACCO PRODUCTS: No restrictions identified.

c. COSMETICS: No restrictions identified.

d. FOODSTUFFS/MEATS: No restrictions identified.

e. MEDICATION (NARCOTICS)/PHARMACEUTICAL PRODUCTS: No restrictions identified.

4. ELECTRICAL EQUIPMENT:

a. HOME COMPUTERS: No restrictions identified.

b. TVs/VCRs: No restrictions identified.

c. OTHER (i.e. COMPATIBILITY, ETC): No restrictions identified. Electricity is 220 volts/50 cycles.

5. FURNITURE, OVERSIZED: No restrictions identified, however, quarters may have limited space.

6. **PETS/QUARANTINE:**

a. If a member will go directly into permanent housing it is convenient to bring a pet as excess baggage. Sending a pet as unaccompanied baggage will incur additional clearing costs which must be paid by the member. Local veterinary services have VERY limited boarding facilities. Cats and dogs require a valid/current health certificate and rabies vaccinations certificate. Health certificate should be issued within 15 days of arrival in Thailand.

b. Pets other than cats and dogs require special pre-clearance. Arrangements should be made in advance. Notify GSO/Customs and Shipping Unit, American Embassy Bangkok, APO AP 96546-0001, (facsimile number 011-662-255-2913) at least one month in advance if bringing birds, reptiles or animals other than cats and dogs. Also, it is the owner's responsibility to comply with CITES (endangered species) regulations and have a valid CITES certification. The Customs and Shipping Unit will perform pre-clearance and obtain information on Thai requirements if provided with the scientific name of an endangered pet.

7. **PRIVATELY OWNED FIREARMS (POFs):** Importation of personal firearms into Thailand is authorized. Thai law prohibits the importation/registration of police/military type weapons, including war trophy firearms. In accordance with American Embassy and JUSMAGTHAI Directives, all US Armed Forces personnel and DOD civilians desiring to bring firearms into Thailand must request, in advance of shipment, the approval of the Chief, JUSMAGTHAI. Requests for approval must be addressed to HQ JUSMAGTHAI/MAGTAP-CAS, who has been delegated the authority to approve or disapprove requests. The request must specify the type, model, caliber, make, and serial number of each firearm, and requestor's full name, rank, current official address, and unit of assignment in Thailand. Forward requests by mail or electrical message. JUSMAGTHAI will send copies of written approval to the American Embassy, ATTN: Customs and Shipping Unit, and the Regional Security Office, and other appropriate law enforcement agencies. A copy of JUSMAGTHAI Directive No. 600-6, Importation, Possession and Control of Privately-Owned Firearms, will be forwarded to the member along with the approval for importation of personal firearms.

8. **PRIVATELY OWNED VEHICLES (POVs):**

a. **POVs:** (includes information on prohibited vehicles, colors, etc.) The Ministry of Foreign Affairs, Kingdom of Thailand, requires the following information on POVs to clear customs: make, model, year, engine number, serial number (VIN), color, cylinders, horse power, radio, air conditioner, approximate date of member's arrival in Thailand. Without this complete information, processing of POVs through Thai customs cannot commence until the vehicle is on Thai soil and pick up of POV will be delayed 10-15 working days. There are no restrictions on age, color, lighting, or other requirements necessary for registration. However, tinted windows with more than 40 percent tinted films are prohibited.

b. **MOTORCYCLES/MOPEDS:** Motorcycles/mopeds may be imported and are considered to be POVs. Only one POV can be imported duty-free. Under no circumstances should motorcycles/mopeds be included as part of the HHG shipment.

c. **GASOLINE/CATALYTIC CONVERTERS:** Catalytic converters and seatbelts are required.

d. **INSURANCE/SAFETY REQUIREMENTS:** POV must be inspected by Thai traffic officials prior to licensing. Vehicles should be in top mechanical condition. Spare parts for most American-made cars are either unobtainable or expensive. The following are suggested for inclusion in HHG: extra spark plugs, oil/air filter, fan belt, extra points, condenser and heavy duty shock absorbers. Royal Thai Government requires all vehicles to be covered by third party liability insurance which MUST be purchased locally from a Thai company. As this policy provides minimum benefits and no property damage coverage, the Embassy strongly recommends additional insurance which may be purchased locally or through a US company licensed to provide coverage in Thailand. USAA no longer insures POVs in Thailand. Avoid insurance that may invoke a diplomatic defense.

9. **SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL:** No restrictions identified.

10. **STUFFED WILDLIFE/ANIMALS/PLANT RESTRICTIONS:** Items are inspected upon arrival. Plants requires a health certificate and import license. Several plants from many countries are prohibited. Inquire in advance at the nearest Thai Embassy or Consulate.

11. **TRANSMITTING EQUIPMENT:**

a. **CBs AND MARS EQUIPMENT:** The Thai Government requires advance description of items as follows: wave, size, weight and cube, what items are to be used for, and reason for importation to Thailand. American Embassy and JUSMAGTHAI require the above information in advance in order to request import approval from the Post and telegraph department prior to arrival of shipment in country.

b. **AMATEUR/HAM RADIOS:** Permission is required prior to import. Recommend notifying the GSO/Customs and Shipping Unit, American Embassy Bangkok, APO AP 96546-0001, (facsimile number 011-66-2-255-2913) prior to shipment. Certain restrictions apply.

c. **DISH ANTENNAS:** The Thai Government requires a permit for antennas over 10 milli-watts.

d. **CORDLESS PHONES:** The Thai Government requires a permit for telephones over 10 milli-watts. Items must be shipped in UAB, not in hand-carried or checked luggage.

12. **SEPARATEES/RETIREEES ENTITLEMENTS/LIMITATIONS:**

a. Personnel contemplating retirement/separation in Thailand should be counseled all customs entry requirements remain a personal matter between the member and the Thai Government. The member should contact the nearest Consulate or Embassy for information regarding customs and quarantine entry requirements prior to shipment. Computation methods to determine import taxes are complex and variable. It may be advantageous for the member to hire a local customs brokerage agent to process shipments. HHG for retired personnel must be cleared using member's passport and it must contain a current resident visa issued by Thai immigration department. Member must contact Customs and Shipping Unit at the American Embassy, Bangkok, as soon as possible for importation documents.

b. Consign personal property directly to the member at their address in Thailand.

c. **POV:** Consign directly to the member. One copy of the member's orders must be attached to the Private Vehicle Shipping Document (DD Form 788) and be forwarded via certified mail to the US Embassy. Documents will be held until the member calls for them upon arrival in Bangkok. To import a POV, member must request permission to import from the Ministry of Commerce at least 1 month before the vehicle arrives in country. A resident visa is also required. All charges to clear the POV must be borne by the member. POV storage is not authorized for personnel retired/separated in Thailand.

TDY personnel are allowed to receive personal property only via mail. Use this paragraph as authorization for reimbursement of postage fees if member mails property to Turkey.

b. Personnel must ensure the following items with serial numbers as appropriate, are listed on carrier's inventory at origin.

Color Television (Screen size 26 inches and over) (CH)  
Stereos (as sets or pieces - receiver, cassette deck, CD player,  
amplifier and speakers)  
Video Cassette Recorder Unit  
DVD Unit  
Computer Set (as sets and pieces - CPU, monitor, printer)

Air Conditioner  
Washers and Dryers  
Dishwasher  
Refrigerator  
Deep Freezer  
Microwave Oven

These items are customs-controlled and require recording on the USAFE Form 554 official NATO Beyanname. Recommend member obtain a current list of "Beyanname" items from their sponsor or gaining unit. Personal property must be accurately identified and complete documentation provided including transshipment manifests furnished by processing activities. Insufficient or erroneous documentation will delay customs clearance. (CH)

c. Property must arrive in Turkey not earlier than 2 months prior or 6 months after the arrival of the DoD member. Personal property arriving after 6 months requires permission from the Turkish Ministry of Customs. Obtaining this permission may take an additional 6 to 8 weeks after the property arrives. Turkish Ministry of Customs will not accept any request for permission to allow delivery of personal property that arrives after the 6-month period until after the property has physically arrived in country. In accordance with Turkish Customs regulations, individuals will be authorized to import their HHGs if such shipments arrive within 6 months of the special occurrences (like marriage or divorce) after arrival to Turkey. (CH)

d. It is very important that TMOs use extreme prudence when determining shipment RDD. Any shipment that will arrive based on constructive RDDs either more than 2 months prior or later than 6 months after the member arrives should be afforded the opportunity to be placed in SIT at origin. Household goods or unaccompanied baggage are stored in customs bonded warehouses. Turkish Customs laws allow unchallenged storage for the first 90 days. If any shipment needs to be extended, TMO will submit an "Extenuation Request" letter to the Customs Office to obtain permission from HQ Customs "for another 90 days" which can take a few months to receive approval. Therefore, shipments must be placed into SIT at origin if members' reporting dates will be delayed because of TDY enroute or other extenuating circumstances, in order to avoid excessive waiting time for permission from Customs and even possible seizure of the property. (CH)

e. **Joint Spouse Assignments:** Combine household goods as one shipment and combine baggage shipments also as the same shipment under the ranking members' name due to "Beyanname" problems with Turkish Laws.

f. Turkish customs law states shipment must arrive not later than 6 months after the arrival of the DoD member. If dependents do not travel concurrently with the member, any personal property shipments transported, whether under dependent travel orders or member's PCS orders, must be shipped in the DoD members' name. Strict compliance will prevent customs clearance problems, avoid possible shipment seizure, and eliminate unnecessary delays and hardship on the family. Also, all documentation must be in the name of the sponsor.

g. All members inbound to Turkey must have a copy of the inventory of each shipment and be aware that all "Beyanname" items being shipped into Turkey must either be shipped out when PCSing outbound regardless of its condition, transferred to another Dod member that is authorized duty-free import, or turned-in to the Turkish Customs.

h. Because of recent changes in Turkish laws, it is strongly advised that members be thoroughly briefed to not ship the following items to Turkey. Turkish Customs does not recognize these items as household articles nor privately owned vehicles; as such, they have not been allowing them duty-free entry into the country. To avoid additional handling and cost of returning these items to the states for storage, it is advised that these items be

identified to go into NTS:

Jet Skis  
Snowmobiles  
Golf Carts  
Hang Gliders/Para Gliders  
Ultra Light Vehicles  
Boats  
Associated Trailers

6. **PETS/QUARANTINE:** A passenger can bring along the following pets on condition that they are kept under control: cat, dog, bird and/or 10 aquarium fish. (They must have veterinary health certificate, origin and vaccine documents to include identification card, if any. Entry of pets (accompanied by the passenger) is authorized. A combined certificate of health and rabies vaccination is required. No pet care is provided at the airports/entry points; therefore, shipping pets through cargo is not advised. It is advisable to check with the sponsor on latest restrictions.

7. **PRIVATELY OWNED FIREARMS (POFs)**: Prohibited from shipping or hand carrying any firearms into the country due to Turkish "Beyanname" Law.

8. **PRIVATELY OWNED VEHICLES (POVs)**:

a. **POVs**:

(1) Single unaccompanied members assigned to Turkey under NATO-SOFA (Status of Forces Agreement) are only authorized to have one POV on their Turkish Customs records (USAFE Form 554-NATO Beyanname) for the duration of their tours in Turkey. Motorcycles and mopeds are considered as a vehicle for Turkish Customs, but those can be shipped as HHG. Accompanied members assigned to Turkey under NATO-SOFA are allowed to have a second POV on active duty member's Turkish Customs records (USAFE Form 554-NATO Beyanname) for use by spouses or dependents during the active members' tour length in Turkey. Dependents must be over 18 years old to benefit from this privilege. According to Turkish Customs rules of the unity of family, joint spouse assignments to Turkey are considered one family unit and each family unit is only allowed a maximum two vehicles on their Turkish Customs records (USAFE Form 554-NATO Beyanname). Joint spouses may have the vehicles put on their separate Turkish Customs records (USAFE Form 554-NATO Beyanname) and use their separate entitlements to ship their vehicles in and out of Turkey at government expense. Except motorcycles/mopeds shipped as HHG, second POV shipments of all other accompanied members are not entitled at government expense. Individuals who ship second vehicles to/from Turkey are required to comply with all Turkish Customs requirements concerning shipment of a POV at their own expense (such as hiring a commercial customs representative, paying transit, storage and port fees, etc). **Any additional POVs including motorcycles and 4-wheelers will have to be reshipped to the place of origin at the members expense.** (CH)

(2) **Selling POVs in Turkey**: Turkish Customs "Beyanname" laws state the Turkish Government retains the right to approve or disapprove the sale and/or transfer of POV's. Members anticipating doing so while assigned to Turkey are required to submit a request to the Turkish Ministry of Customs. The decision process takes approximately 6-8 weeks at a minimum. For this reason, members must start the process a minimum of 3 months prior to their departure, otherwise, the member can anticipate delays when clearing "Beyanname." (CH)

(3) Members shipping a vehicle that does not meet US Environmental Protection Agency (EPA) and the Department of Transportation (DOT) standards in addition to the above requirements are informed of the following options to consider when members are unable to sell and/or transfer their vehicles: dispose of their vehicle by obtaining a Customs Broker who's fees can be very expensive or ship the vehicle back to CONUS, and pay the cost of conforming the vehicle back to US EPA/DOT standards which is also very expensive.

(14) **Windows should not be filmed.** Factory tint(smoke or light tone) is permitted.

9. **SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL:** Special considerations and appeals are not permitted under Turkish Customs laws. Turkish Customs law prohibits pictures, engravings, publications, advertisements, photographs, movie pictures, or other obscene documentation against decency and shame. b. **NOTE 2: Avoid Delayed or Misconsigned Shipments:** In order to expedite the in-country movement of Turkey shipments, the AF Air Clearance Authority will no longer approve Turkey destined shipments without complete and specific ATCMD information. If shipments are sent to the APOE without clearance, the shipment will be frustrated until proper documentation can be obtained. All inbound shipments must be consigned to the appropriate destination city or duty station. Use **Note 4** to determine correct destination city for Block 18 of the GBL. For TOPS generated shipments, it is imperative that the delivery city field contains the customer's actual duty station, location or city/country name. This will ensure the correct destination of the shipment is printed in Block 18 of the GBL. For separation or retirement shipments (refer to Country Instructions for customer counseling and direction), Block 18 must also include the numerical postal code for the destination city/country.

c. **NOTE 3: Code 8 UB shipments destined for Izmir, Turkey:** Should be consigned to Izmir, DODAAC FB5531. Shipments originating in Europe should be sent directly to Izmir. Further, commercial shipments should be used as a last resort due to the customs process in Turkey.

## CHAPTER 122

### 122-1 VENEZUELA (VE) - GENERAL INSTRUCTIONS

REVIEW DATE: 14 FEB 03

#### 1. SHIPMENT INSTRUCTIONS:

a. **WEIGHT RESTRICTIONS:** In accordance with governing regulations.

b. **CONTAINER/CRATING REQUIREMENTS:** Due to the use of commercial narrow body aircraft, external shipping containers for Code T shipments moving to/from South and Central America in accordance with PPP-B-601, style A or B, are required, not to exceed 60 inches in height. In accordance with Item 508 in the International Personal Property Rate Solicitation, special packing arrangements will be authorized by the PPSO for oversize items that will not fit into the restricted height container.

**NOTE:** All military/DOD personnel HHGs and UAB shipments must be sent DPM/AMC and addressed to: Commander/Transportation Officer, US Military Group, Venezuela, APO AA 34037-0008. Consign to: C/O La Union Internacional, Inc., Chapellin, La Florida, Caracas, Venezuela, Tel: 011(582) 730-9908/3976; Fax: 011(582) 730-7290; E-mail: [launion@cantv.net](mailto:launion@cantv.net). All military/DOD HHGs and UAB will be shipped by Military Aircraft.

c. **HARD LIFT AREA:** Hard lift area for all military services. Air clearance, will be obtained from the appropriate Air Clearance Authority (ACA) or USMILGP Small Terminal Operator (STO)/Transportation Officer (TO).

d. **UNACCOMPANIED BAGGAGE:** No restrictions identified.

e. **OTHER:** Origin ITO/Shipper must provide name of member, TCN No., pieces, weight & cube, gross weight, required delivery date, and date property was released from station in order to schedule airlift and pick up of personal property upon arrival. For all Military/DOD shipments, Station Manager is also required to present inbound documentation, i.e. manifest, TCMDs, etc, to local customs officials at least 12 hours prior to aircraft arrival. Cleared military shipments are released to ASM/STO/TO upon arrival. Send to USMILGP-VE, Unit 4980, APO AA 34037-0008, ATTN: \_\_\_\_\_, by fax at 011(58-212)682-5844, 681-8775, or fax to Station Manager at 011(582) 355-2514 or e-mail at [uvccs@telcel.net.ve](mailto:uvccs@telcel.net.ve). Documents are required to effect transshipment of HHG/UB and to obtain customs entry clearance from the Government of Venezuela.

#### 2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS:

a. Venezuelan Government grants clearance for duty -free importation of household goods, unaccompanied baggage, and personally -owned vehicles of personnel assigned to Venezuela. Shipments arriving before the member's arrival are held at the port of entry in a bonded warehouse. Although the Government of Venezuela will not grant final clearance until member is in the country and has been accredited with Government, paperwork can be put in process before his/her arrival. The Foreign Ministry requires a copy of the packing list translated into Spanish. Therefore:

(1) When possible, schedule all shipments to arrive on or shortly before the member's expected date of arrival in Venezuela.

(2) Provide GSO, American Embassy, a legible copy of the packing lists for all shipments well in advance of the member's expected arrival date in order to permit time for translation. Address to American Embassy, General

Services Office, APO AA 34037-0008.

b. Allow approximately 6-8 weeks for HHG and 4 weeks for UB.

c. Customs clearance cannot be effected until member has arrived in country. HHG should be scheduled to arrive on or shortly before the member's arrival date. A legible copy of the packing list/inventory, orders, weight tickets and DD 1299 must be forwarded to the STO/TO USMILGP-VEN, Unit 4980, APO AA 34037-0008, immediately after pickup of shipment. Documents are required to effect transshipment of HHG/UB and to obtain customs entry clearance from the Government of Venezuela.

### 3. **CONSUMABLES:**

a. **ALCOHOLIC BEVERAGES:** Importation is prohibited.

b. **CIGARETTES/TOBACCO PRODUCTS:** Shipments of cigarettes/tobacco products between CONUS and overseas or within overseas countries may be shipped subject to host country requirements/restrictions identified. When undefined or in doubt, the TMO will request clarification by message from the responsible transportation authority at destination.

c. **COSMETICS:** No restrictions identified.

d. **FOODSTUFFS/MEATS:** No restrictions identified.

e. **MEDICATION (NARCOTICS)/PHARMACEUTICAL PRODUCTS:** No restrictions identified.

### 4. **ELECTRICAL EQUIPMENT:**

a. **HOME COMPUTERS:** No restrictions identified.

b. **TVs/VCRs:** No restrictions identified.

c. **OTHER (i.e. COMPATIBILITY, ETC):** No restrictions identified.

### 5. **FURNITURE, OVERSIZED:** No restrictions identified.

6. **PETS/QUARANTINE:** All pets entering Venezuela require a health certificate issued by a veterinarian within the last 12 months certifying that the animal is free from infectious or contagious diseases, including rabies. Certificate must be accompanied by a letter from the US Department of Agriculture certifying that the person signing the health certificate is a veterinarian. A Venezuelan Consul must stamp and sign the certificate and letter. There is a \$50 fee per pet for this service. Documents must accompany the pet when shipped. Pet owners should also check with the airlines to ensure US health certificates are current and meet country and airline requirements. There are presently no quarantine requirements for pets arriving in Venezuela.

7. **PRIVATELY OWNED FIREARMS (POFs):** Firearms authorized shipment in UB/HHG must be packed separately from other personal property in the shipment, and positioned in the container such that they are readily accessible for examination by Customs when required. We do not recommend routine importation of firearms unless specific use is anticipated. To import firearms into Venezuela, the Embassy must be notified as far in advance as possible. Prior approval by American Embassy, Regional Security Office (RSO), and Chief of Mission is required. Give full details of weapons to include owner's certificate showing when and where firearm(s) was purchased and intended use. Based on this information, the Embassy will apply for an import permit. If the permit is approved, the Embassy will arrange customs clearance. The following firearms qualify for importation:

- a. **HANDGUNS:** Automatic pistols 6.35, 7.65 and revolvers 32 and 38
- b. **RIFLES/SHOTGUNS:** Smooth-bore shotguns, limited to not more than two (2) shots, 12-16-20-28 and 410 gauge and 22 caliber rifles.
- c. **TOY-RELATED GUNS:** No restrictions identified.
- d. **OTHER (i.e. AMMUNITION, EXPLOSIVES, ETC):** No restrictions identified.

**8. PRIVATELY OWNED VEHICLES (POVs):**

- a. **POVs:** (includes information on prohibited vehicles, colors, etc.)

(1) Restrictions on POV importation vary from time to time. POV may be imported only when authorized by the Venezuelan Foreign Office, by specific make and model.

(2) Only one POV can be imported duty -free per three-year tour. The vehicle must arrive in country within the first six months of member's tour. (CH)

(3) Upon receipt of permanent change of station (PCS) orders specifying assignment to Venezuela, military personnel and DOD civilians must establish immediate contact with their new units of assignment in order to obtain written approval for shipment of their POV to Venezuela. Personnel being assigned/attached to USMILGP Venezuela should contact the CDR, or Transportation Officer, USMILGPVEN, APO AA 34037-0008. Personnel being assigned/attached to the US Defense Attaché Office should contact the US Defense Attaché Office, American Embassy, APO AA 34037 -0008. Member's request for importation of POV (message or letter format) must contain, as a minimum, the following information: make/model, year, serial number, body color, number of doors, engine size, and number of cylinders. All eight (8) cylinder engine vehicles are prohibited for import to Venezuela. Obtain written approval from the Embassy Regional Security Officer (RSO) prior to shipping 4x4 vehicles.

(4) Port authorities will not accept a POV for shipment to Venezuela unless the service member or civilian involved presents, with the request for POV shipment, either a message or a letter from the GSO, American Embassy, Caracas, or (For military/DOD personnel) the USMILGP-VE CDR or Transportation Officer authorizing the shipment of the POV. This message or letter will be addressed to the member and should contain a precise list and complete description of the POV involved (to include all information in paragraph 8a(3) above).

**Address markings for all POVs are as follows: DO NOT CONSIGN TO ADDRESS ON ORDERS (CH)**

**American Ambassador**

**American Embassy**

**ATTN: Embassy Customs & Shipping (Mariangelica Parma Customs and Shipping Inbound Assistant)**

**Caracas, Venezuela,**

**FOR: Name of Owner (i.e., SFC K.Bremer-USDAO). (CH)**

**NOTE 1:** It is very important that the **FOR:** line come at the end. Placing it at the beginning will ensure that the VE Authorities will treat as a personal and individual shipment and not an official one.

**NOTE 2:** According to VE Law, the Embassy can clear all "DIRECT" shipments or in other words, all shipments consigned to the Embassy.

(5) It is important that the POV be shipped on/about the week of or week after the employee departs to Venezuela. Not before! The employee must be in country and become accredited through the Foreign Ministry before the POV can be cleared through Customs and the Port Authorities. Accreditation takes about two (2) weeks after the employee arrives at post. If the employee ships his/her vehicle and it arrives before the employee does or before he/she can become accredited, the POV will remain in port accumulating "fees" and storage charges. The Embassy recently had an instance where the "fees and charges" were in excess of \$8,000. If the vehicle remains in port for more than 30 days it is considered abandoned and under VE law, the vehicle will be sold to recoup the "fees".

(6) To alleviate considerable customs clearing difficulties, the American Embassy requires the original negotiable copy of the ocean bill of lading (OBL) prior to arrival of POV at destination port. Mail original OBL to **GSO**, American Embassy, Caracas, Venezuela, APO AA 34037 -0008. We recommend use of courier service to ensure documents arrive in a timely manner. If possible have the carrier's agent in Venezuela issue the OBL locally.

(7) The original bill of lading must be sent to Embassy, preferably via FED EX or DHL. The APO, although normally a reliable means, has proven to be extremely slow. The Embassy cannot use copies to clear the vehicle. It is not accepted by the VE Authorities. Another reason for delay could cause the vehicle to be abandoned. Please use the following address:

**Embajada de Los Estados Unidos de América**  
**ATTN: Customs and Shipping Office (GSO)**  
**Calle F con Calle Suapure**  
**Colinas de Valle Arriba**  
**Caracas Venezuela 1080**

All communications or documents for POVs only can be forwarded via USPS and APO to:

American Embassy-GSO  
ATTN: Customs and Shipping (POV)  
APO AA 34037

13. **OTHER: STORAGE:**

a. Household goods shipments may be placed in nontemporary storage (NTS)/storage-in-transit (SIT) depending on the member's projected arrival in Venezuela.

A copy of member's orders must be sent to Small Terminal Operator(STO)/Trans Officer, USMILGP-VE, Unit 4980, APO AA 34037-0008, ATTN: STO/Trans Officer, COMM (582) 682-2877/1059, from losing unit approximately 30 days prior to expected arrival.

## CHAPTER 123

### 123-1 VIETNAM (VM) - GENERAL INSTRUCTIONS

REVIEW DATE: 28 OCT 03

#### 1. SHIPMENT INSTRUCTIONS:

- a. **WEIGHT RESTRICTIONS:** In accordance with governing regulations.
- b. **CONTAINER/CRATING REQUIREMENTS:** There are no restrictions on size of cartons, crates, or liftvans entering Hanoi.
- c. **HARD LIFT AREA:** Not a hard lift area.
- d. **UNACCOMPANIED BAGGAGE:** Send commercial air shipments to Hanoi's "Noi Bai International Airport".
- e. **HOUSEHOLD GOODS:** Port of discharge is Haiphong. If available, vessel with direct sailing to Haiphong should be utilized. Household goods and unaccompanied baggage **MUST NOT** repeat **MUST NOT** arrive after the member.

2. **CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS:** Importation of antiques or replicas, particularly of Asian Art are likely to present a problem upon departure from Vietnam even if the items are declared upon arrival. Cultural items such as books, tapes, CDs and videos will require special handling because of host government restrictions. They will trigger extra scrutiny if labeled as such, rather than as miscellaneous household items.

#### 3. CONSUMABLES:

a. **ALCOHOLIC BEVERAGES:** The Government of Vietnam restricts the importation of alcohol to 50 liters per quarter (e.g., Jan 1 - March 31; April 1 - June 30, etc.) for those assigned to diplomatic duty and 200 liters of beer. Non-diplomatic personnel are limited to 20 liters of alcohol and 200 liters of beer. "Note that importation of alcohol and other controlled items may slow down the processing of your shipment through Customs. There is a Duty Free Shop where these goods can be purchased at reasonable prices after arrival at post."

b. **CIGARETTES/TOBACCO PRODUCTS:** The Government of Vietnam restricts the importation of 20 cartons of cigarettes for those assigned to diplomatic duty. Non-diplomatic personnel are limited to 10 cartons of cigarettes. "Note that importation of alcohol and other controlled items may slow down the processing of your shipment through Customs. There is a Duty Free Shop where these goods can be purchased at reasonable prices after arrival at post."

c. **COSMETICS:** No restrictions identified.

d. **FOODSTUFFS/MEATS:** No restrictions identified.

e. **MEDICATION (NARCOTICS)/PHARMACEUTICAL PRODUCTS:** No restrictions identified.

4. **ELECTRICAL EQUIPMENT:**

a. **HOME COMPUTERS:** No restrictions. If you plan to utilize a Home Computer you may also want to procure a Uninterrupted Power Supply(UPS) to protect you equipment.

b. **TVs/VCRs:** The voltage in Vietnam is 220 volt, 50 cycles. Television uses Phase Alternate Lines(PAL). Star TV and CNN are available via satellite and antenna. An American TV or VCR with NTSC, 110 volt, 60 cycles will more than likely play, but will not receive local broadcasting. However, NTSC televisions can be modified locally to receive PAL. Most video cassettes available commercially are NTSC, however. Post therefore recommends multi-system televisions and VCRs, which can be purchased locally or in the Duty Free shop at very reasonable prices.

c. **OTHER (i.e. COMPATIBILITY, ETC):** No restrictions identified.

5. **FURNITURE, OVERSIZED:** No restrictions identified.

6. **PETS/QUARANTINE:** In order to import/export pets, the owner must have an animal health certificate and a vaccination certificate for each pet. Upon arrival, the airport animal health station will arrange for an examining officer to check the pet at the arrival/departure lounge. We must set this up prior to your arrival, so a copy of your passport data page and your pet's health certificate and vaccination certificate should be faxed/sent to post GSO Customs/Shipping section at least two weeks before arrival/departure. If the examining officer agrees that the pet is healthy, a Vietnamese certificate of health for the pet will be issued and the pet will be released immediately to the owner. If the examining officer questions the health of the animal, it will be held pending further examination. The examination is \$4.00 if the owner holds a diplomatic passport, but will cost about \$20.00 for each pet if the owner hold a non-diplomatic (including official) passport. The owner can bring up to two pets without processing. If the owner brings in more than two pets, GSO at post needs to request a special permit from the Department of Agriculture. Please inform post in advance of the number and kind of pet(s) you intend to bring. Airlines are increasingly limiting the transportation of pets. Hotels **DO NOT** accept pets. (CH)

7. **PRIVATELY OWNED FIREARMS (POFs):** Firearms into Vietnam are prohibited.

8. **PRIVATELY OWNED VEHICLES (POVs):**

a. **POVs:** (includes information on prohibited vehicles, colors, etc.) New vehicles (previously unregistered), or used vehicles that are "70 percent of the original value when new", can be imported. As this percentage criteria is very subjective, and as the Vietnamese government has not yet provided guidance on what this means, the Embassy currently interprets this to mean that any vehicle more than four years old cannot successfully be imported into Vietnam. If the vehicle has extremely high mileage or has had extensive damage, it would also be difficult to import. As such, importation must be arranged with the Embassy on a case-by-case basis. If you plan to import a used automobile, please advise immediately of the particulars of the vehicle. (CH)

b. **MOTORCYCLES/MOPEDS:** A size restriction of 150cc on motorcycles. No restrictions on mopeds.

c. **GASOLINE/CATALYTIC CONVERTERS:** No restrictions identified.

d. **INSURANCE/SAFETY REQUIREMENTS:** Traffic moves on the same side of the street as in the US. Chrysler, Jeep, and Ford plus many other foreign manufacturers have recently set up operations in Vietnam. Auto repair is

currently limited. Hanoi streets tend to be extremely narrow and congested. Negotiating traffic in Vietnam is a daunting task, therefore securing Vietnamese collision insurance is required.

9. **WAR TROPHIES AND SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL:** Importation of these articles are prohibited.
10. **STUFFED WILDLIFE/ANIMALS/PLANT RESTRICTIONS:** No restrictions identified.
11. **TRANSMITTING EQUIPMENT:**
  - a. **CBs:** Importation is prohibited.
  - b. **AMATEUR/HAM RADIOS:** No restrictions identified.
  - c. **MARS EQUIPMENT:** No restrictions identified.
  - d. **DISH ANTENNAS:** No restrictions identified.
  - e. **CORDLESS PHONES:** No restrictions identified.
12. **SEPARATEES/RETIREEES ENTITLEMENTS/LIMITATIONS:** Personnel contemplating retirement, separation, or relocating dependents to Vietnam should be counseled that all customs entry requirements to include payment of duties and taxes remain the responsibility of the member and is a personal matter between the member and the Government of Vietnam (GOV).
13. **OTHER:** Living conditions in Vietnam are changing rapidly, therefore, the American Embassy suggests that prior to packing out members are advised to contact the Embassy regarding any questions concerning movement of their household goods and unaccompanied baggage.

2. **KEY PERSONNEL:** Single (without dependents) and unaccompanied Generals, Colonels, Lieutenant Colonel Commanders, and Command Sergeants Major are defined as key personnel and are entitled to ship up to their full HHG weight allowance to and from CONUS duty stations. A special remark is required in the PCS orders stating: "Soldier serving in GEN/COL/LTC/CSM (as appropriate) command position. Authorized to ship up to full JFTR HHG weight allowance. The weight of HHG stored, plus the weight of HHG shipped will not exceed the soldier's total HHG weight allowance."
3. **INDIVIDUAL INCREASES:** MACOMs are authorized by AR 55-71 to approve individual requests for increased HHG weight allowances up to a soldier's full JFTR allowance when justified. Soldiers whose requirements will not be met by OCONUS shipment of new HHG allowances and UB may request shipment of such additional property as they will need and can accommodate in their OCONUS quarters. Total HHG stored and shipment at Government expense cannot exceed the soldier's full PCS HHG allowance. Disposition of property that cannot be accommodated in OCONUS quarters will be the personal responsibility of the soldier.
4. Where overseas commanders have not authorized HHG movement into their command, personnel are limited to UB only.
