## **INTRODUCTION**

This pamphlet is designed to provide customers with information to prepare your Privately Owned Vehicle (POV) for shipment. The successful movement of your POV is not a matter of chance. It is a result of proper advance preparation and planning. It's your POV. Ask questions. Be involved. Read what you sign. Contact your local transportation office prior to making any plans to ship a POV.

**NOTE: Ensure you have sufficient funds available in the event of unexpected delays/expenses to, from, or at the POV Processing Center. Suggest you call in advance.**

## **WHO CAN SHIP A POV**

You are eligible to ship a POV if:

- You are member of the U.S. armed forces;
- You are a DoD civilian and your orders authorize shipment of your POV; or
- You are a retiree authorized to ship a POV.

Contact your transportation office.

## **YOUR ENTITLEMENT**

The entitlement to ship a single POV is limited to a permanent change of station to, from, or between places overseas; or upon official change in homeport of the vessel to which you are assigned. The transportation office will determine your entitlement based on your PCS orders.

## **RESTRICTIONS**

- Only **one** POV owned or leased by you or your dependent and for your personal use may be shipped to your new duty station at Government expense.
- If you desire to make your own arrangements to ship an additional POV commercially, consult your sponsor and transportation office for any restrictions. You may have to pay an import duty on a second POV.
- Your local transportation office has information on specific United States and overseas host nation restrictions.

## **SIZE LIMITATIONS**

You may ship at Government expense a POV that does not exceed 20 measurement tons. Exceptions may be granted for medical reasons. A measurement ton equals 40 cubic feet. A compact car averages about nine measurement tons; a full size car, about 15. If you ship a pickup truck with a camper, a recreational vehicle, a panel truck converted to a camper, or similar vehicle that exceeds 20 measurement tons, you will be liable to pay transportation costs for any measurement ton in excess of 20. These costs will be collected in accordance with your military service's regulations. Separatees must pay in advance of shipment. Exterior dimensions determine the size (measurement tons) of a vehicle; therefore, remove truck mirrors and other articles that extend from the vehicle and that could create excess cost.

## **INSURANCE AND LICENSING**

**United States.** In some U.S. states, armed forces or host -nation vehicle registrations, license plates, and licenses either are not valid or are valid for only a very short time. Arrange to obtain these items prior to taking delivery of your POV. Most state motor vehicle divisions will accept registrations of POVs by mail. If you are returning from overseas, make arrangements prior to leaving your old duty station for the continental United States. You should insure your POV before taking delivery. Coverage must meet minimum requirements prescribed by the state where your next duty station is located. Prior arrangements may save you money, as you will be able to compare prices offered by various insurance companies.

**Overseas.** Insurance, taxes, and licensing vary from country to country overseas. The best sources of information are your local transportation office and your overseas sponsor. Remember, you are responsible for obtaining insurance and licenses and paying any taxes. Be sure to check on these items well in advance of making your shipment. Insurance is often much more expensive overseas; research this matter carefully prior to making your shipment.

## **WHEN TO SHIP YOUR POV**

Time limitations on when you are entitled to ship your POV vary among the military services.

### **For Army and Air Force personnel:**

- POVs will be accepted for shipment if delivered to the port within 90 days after the member or dependent has departed for an overseas tour of more than one year or within 30 days after the departure of the member on an overseas tour of duty of one year or less.
- When delivery to the port is delayed beyond 90 days, the POV may be shipped only with the approval of the overseas commander.
- For overseas tours of more than one year, you must have a minimum of one year to serve on the current overseas tour when the POV is delivered to the port.

### **For Navy/Marine Corps personnel:**

- POVs will be accepted when at least 12 months remain to be served at their current overseas duty station at the time the vehicle is delivered to the loading port. An exception is allowed if the overseas area commander or your commanding officer certifies the vehicle is necessary in performance of official duties.

## **TYPES OF POVs YOU MAY SHIP**

Only self-propelled, wheeled motor vehicles can be shipped. This includes automobiles, station wagons, jeeps, motorcycles, motor scooters, vans, and pickups. Other passenger-carrying, multipurpose motor vehicles designed for overland ground transportation not specifically listed above may qualify; however, these generally require a written certification stating the vehicle is for personal use as a passenger-carrying vehicle. POVs that are modified to be "low riders" must have at least 6 inches of clearance to prevent damage to POV during car carrier load/download. Also, POVs may not have a lift kit higher than 3 inches.

**NOTE: Host-country restrictions may apply; see your transportation office.**

## **AUSTRALIAN POV IMPORT APPROVAL PROCESS**

All POVs to Australia must have a Vehicle Import Approval from the Australian Department of Transport and Regional Services (DOTARS) prior to POV shipment. An application for entry can be obtained at: [www.dotars.gov.au/transreg/veh/PDF/Application.pdf](http://www.dotars.gov.au/transreg/veh/PDF/Application.pdf).

However, the vehicle-processing center will accept the POV for movement but cannot release it for shipment until the member provides the VPC with proof that the required approval has been granted. The member may complete the application at the VPC at the time of turn-in. The member is solely responsible for completing an accurate application and submitting an original signature copy to: 337<sup>th</sup> ASUF/LGT, Unit 11004, APO AP 96549 or the Transportation Office, Alice Springs for processing. There is no cost for this service for Government sponsored shipments. It is highly recommended that the member have approval at the time of turn-in due to the lengthy processing and transit time.

**NOTE: See your local transportation officer to receive counseling regarding shipping your POV, and to receive a copy of this application.**

### **LEASED POVS, OR POVS WITH RECORDED LIEN IN U.S.**

If your POV is leased, or a recorded lien exists in the U.S., you must provide written approval from the “third-party-in-interest” (leasing company or lienholder), which expressly provides that the vehicle may be exported. This written approval must be on the leasing company’s or lienholder’s letterhead paper, and contain a complete description of the vehicle, including the Vehicle Identification Number (VIN), the name of the owner or lienholder of the leased vehicle, and the telephone numbers at which that owner or lienholder may be contacted. The writing must bear an original signature of an official of the leasing company’s or lienholder, and state the date it was signed. The written approval must include the leasing company or lienholder’s acknowledgements that return shipment prior to the next permanent change of station is a private matter between the leasing company or lienholder and you. All requirements stated in the lease agreement are your responsibility.

### **(NAVY MEMBERS INSTRUCTIONS FOR LIENHOLDER LETTERS)**

“Effective 1 October 2002, Navy members/persons acting as powers of attorney must provide a lienholder letter to the CONUS VPC (if required) when turning in a POV for export. PPSOs should stress this requirement during counseling. If the member/agent fails to provide the lienholder's release, the VPC should refuse to accept the POV”.

### **PROPANE TANKS**

Vehicles with propane tanks will only be accepted when the propane tank is an integral part of the vehicle used to power the engine or for other purposes and will require considerable cost for the removal of the tank. The propane tanks allowed must be purged and certified before the POV is turned at the vehicle processing center or port. A label should be affixed or tagged to the tank. The person turning in the vehicle must produce written authority that the tank is empty or has been purged. New and empty tanks meet these requirements. The certification must come from an individual or firm authorized to purge propane tanks. Loose tanks such as that use for gas stoves or barbeques and are readily accessible for removal will not be accepted.

### **WHAT YOU MAY LEAVE IN YOUR POV**

You must ensure only authorized personal articles remain in your POV when it is turned in for processing. All household items and camping equipment must be removed. You may ship the following:

- Tools, not to exceed \$200 in value,
- Items such as jacks tire irons, tire chains, fire extinguishers, nonflammable tire inflators, first aid kits, jumper cables, and warning triangle/trouble lights,
- One spare tire and two snow tires with wheels (either mounted or unmounted);
- Portable cribs, children’s car seats, and strollers;
- Luggage racks and supports;
- Small items such as thermos bottles, bottle warmers, and car cushions if they can be packed entirely within one carton provided by the VPC; if your POV is going to be containerized at the port, these articles may be placed in the trunk without a carton. Factory or non-factory stereo, speakers and audio/Video equipment in POV or trunk **must** be bolted down or permanently fixed as part of the POV.

### **WHAT YOU MAY NOT SHIP IN YOUR POV**

- TVs and VCRs, except factory installed;

- Accessories not permanently installed;
- Flammable or hazardous substances such as waxes, oils, paints, solvents, polishes.

Remove and dispose of these items before you turn in your POV.

- Any liquids, for example antifreeze or air fresheners that may be spilled and leave stain.
- Any pressurized cans.
- Citizen Band radios. Importation and operation of CB radios are prohibited in most overseas areas. Failure to comply with these restrictions may result in your POV being held at the port of discharge until such equipment has been removed and shipped out of the country. All costs associated with removing your CB radio from your POV and shipping will be at your expense.

## **YOUR RESPONSIBILITIES**

Following a few simple rules will make shipping your POV overseas much easier. Failure to follow these rules may cause the POV processing center to refuse your POV for shipment.

If a member chooses to ship out of an alternate port, there may be an alternate port charge incurred to the member if the alternate port is farther away from their new duty assignment than the designated port. If you have any questions, you should contact your Transportation Office or VPC to find out what the additional cost may be.

### **At origin:**

- Have seven copies of your orders, and any amendments.
- U.S. Customs (19CFR192) requires one certified (notarized) and two facsimiles (copies) of the original or certified copy of the vehicle title. The title must include the vehicle identification number (VIN) or, if the vehicle does not have a VIN, the product identification number.
- Provide written approval from leasing company, or lienholder authorizing export. **“SEE PARAGRAPH ABOVE AND SECTION ON LEASED POVS OR POVS RECORDED LIEN IN U.S.”**
- Ensure your POV contains less than **one-fourth** tank of fuel (gasoline or diesel).
- If the vehicle is leased, you must have a letter from the third party (leasing company) authorizing exportation of the vehicle.
- Have in your possession a valid driver’s license, proof of ownership (title and registration), and a photo ID.
- Contact vehicle processing center prior to shipment if permanent change of station is to a remote area.
- Have in your possession a complete set of keys, to include gas cap and wheel lock keys, if necessary, upon delivery to the vehicle processing center. Retain a complete set of duplicate keys and have them with you when you pick up your POV.
- Turn off or otherwise disconnect installed auto alarm or anti-theft device prior to turn-in.
- There must be a signed letter of authorization, simple power of attorney, or other acceptable evidence of agency if vehicle is delivered by someone other than the service member. (Not required of spouse appearing on the PCS orders.) Here’s an acceptable example:  
 “I hereby appoint (name of agent) as my agent for the delivery of my privately owned vehicle (vehicle and ID number) to the appointed military outlying port, and I appoint him/her my attorney-in-fact to sign all documents required for the delivery of my vehicle for overseas shipment.”
- Ensure your agent has proper civilian identification and all other documentation required to ship your POV.
- Make sure your POV is in a safe and operable condition when you turn it in at the port.
- Make sure your POV is clean. The VPC will not accept a POV laden with dirt, soil, mud or similar matter, to include the undercarriage.
- Empty all pockets and compartments.
- Have the make, model, color, year, and serial number of your POV available.
- Have mileage of vehicle at time of turn-in available.

- Provide a destination address, phone number and/or email address where you may be notified that vehicle is ready for pickup.
- An inspector will inspect the POV with you. When the inspection is completed, you and the inspector will sign DD Form 788, "Private Vehicle Shipping Document" or commercial equivalent. You will be provided a legible copy of DD Form 788 or commercial equivalent as a receipt for your POV. Your copy of DD Form 788 or commercial equivalent will be required when you pick up the vehicle, and it will be required by the military claims office should you file a claim for loss or damage to your POV.
- Make sure your POV meets any host-nation emission control and safety standards. Discuss host-nation requirements with your sponsor and local transportation office before departing. You may be required to make some modifications prior to shipping your vehicle.
- Since your POV may be exposed to freezing temperatures during shipment or during storage at the destination terminal, safeguard the cooling system with a permanent-type antifreeze solution. An antifreeze testing to minus 20 degrees Fahrenheit or lower should be used. (For Arctic areas, contact your sponsor or transportation office to determine if additional protection is necessary.)
- Consider rust protection and undercoating prior to shipment. Climatic conditions in certain areas of the world may cause your POV to deteriorate rapidly without some type of protection.
  - Make sure you read the liability statements on the reverse of DD Form 788, or commercial equivalent POV inspection and shipping form.

### **At destination:**

- To avoid unnecessary trips, contact the vehicle processing center for official confirmation that the POV is on-hand and available for pickup.
- When you or a designated agent pick up the POV at the destination vehicle processing center, you must have:
  - Proper identification i.e., military ID, driver's license;
  - Your copy of DD Form 788 "Private Vehicle Shipping Document" or commercial equivalent;
  - Complete set of keys;
  - Power of attorney if your spouse or agent picks up the POV. Please note that if your vehicle is not picked up within 45 days from the postmarked date of notification of arrival, you are subject to the vehicle being placed in storage at your expense.

### **Loss and Damage**

When picking up your POV:

- Carefully inspect the exterior and interior to determine if there is any new damage.
- Make sure items left in the POV at the origin VPC or port terminal are still there.
- Carefully and completely list any loss and all damages to your POV on your vehicle shipping document, DD Form 788 or commercial equivalent. List all loss and damage discovered and why it was not discovered at the final inspection at the pickup point.
- Failure to do this may result in no payment for this damage.

### **NONCONFORMING POVs**

POVs imported to the U.S. are subject to safety standards under the Motor Vehicle Safety Act of 1966, revised under the Imported Vehicle Safety Compliance Act of 1988, re-codified at 49 U.S.C. 301; bumper standards under the Motor Vehicle Information and Cost Act of 1972 (which became effective in 1978), re-codified at 49 U.S.C. 325; and air pollution control standards promulgated by the Environmental Protection Agency (EPA) under the Clean Air Act of 1968, as amended in 1977 and 1990. These laws and regulations apply to importing POVs to any state of the United States, the District of Columbia, Puerto Rico, The Northern Mariana Islands, Guam, American Samoa, and the Virgin Islands.

Modifications required for nonconforming POVs to comply with U.S. safety and environmental standards are performed by registered importers (RI) and independent commercial importers (ICI). As a general rule, all POVs less than 25 years old must comply with all applicable federal motor vehicle

safety standards, and all POVs less than 21 years old must comply with federal emissions standards. Fulfillment of federal requirements does not relieve you from fulfilling requirements of a state or district of the United States. For information regarding registration or operation of a properly imported vehicle in a specific state, contact the Department of Motor Vehicles or other appropriate agency. Vehicles manufactured to meet the federal motor vehicle safety standards have a certification label affixed by the original manufacturer in the area of the driver-side-door. Vehicles manufactured to meet the federal motor vehicle emissions standards have an emissions label affixed in the engine compartment stating that the vehicle meets U.S. EPA emissions standards. Vehicles lacking these certification labels are nonconforming and must be brought into compliance.

Information for importing and converting vehicles to U.S. specifications may be obtained from the following web sites:

[WWW.CUSTOMS.USTREAS.GOV/TRAVEL/AUTO.HTM](http://WWW.CUSTOMS.USTREAS.GOV/TRAVEL/AUTO.HTM)  
[WWW.NHTSA.DOT.GOV/CARS/RULES/IMPORT/](http://WWW.NHTSA.DOT.GOV/CARS/RULES/IMPORT/)

## **CONUS VEHICLE REGISTRATION REQUIREMENTS**

The Department Motor Vehicles (DMV) for most states will only issue a certificate of title or a registration for an imported vehicle when the applicant submits proof that the vehicle properly entered the U.S. through Customs. In order to assist the vehicle owner the U.S. Customs Service has advised the state DMVs of the several types of Customs entry forms it issues to import vehicles into the U.S., which are listed below.

The Global POV contractor normally uses Customs Form 7501 to import Department of Defense POVs into CONUS.

### **YOU ARE ADVISED THAT IN ADDITION TO:**

Department of Transportation, National Highway Traffic Safety Administration (NHTSA HS-7)

U.S. Customs Form 1252 Declaration For Personal Property Shipments or 1252-1

The Manufacturer's Confirmation Letter of conforming vehicle's compliance with U.S. DOT and EPA requirements (if applicable) or Environmental Protection Agency Form 3250-1 or 320-1

### **THE STATE DMV MAY REQUIRE ONE OR MORE OF THE FOLLOWING CUSTOMS FORMS TO REGISTER A POV IN THAT STATE:**

U.S. Customs Form 7501 – Entry Summary (Does not require a Customs Inspector signature.)

U.S. Customs Form 368 – Collection Receipt of Informal Entry

U.S. Customs Form 3299 – Declaration for Free Entry of Unaccompanied Articles

U.S. Customs Form 6059B – Customs Declaration (badge number instead of signature)

U.S. Customs Form 7523 – Entry and Manifest of Merchandise Free of Duty

U.S. Customs Form 3461 – Entry/Immediate Delivery

U.S. Customs Form 3311 – Declaration for Free Duty of Returned American Products

THE APPLICABLE FORMS ARE AVAILABLE TO YOU AT THE U.S. VEHICLE PROCESSING CENTER (VPC) AT THE TIME YOU PICK-UP YOUR POV.

**IN ORDER TO SAVE YOU TIME WHEN REGISTERING YOUR VEHICLE WITH THE STATE PLEASE INSURE YOU HAVE THE APPLICABLE FORMS BEFORE YOU LEAVE**

## **THE VPC.**

### **STORAGE OF POVs**

Section 368 of the FY 97 Defense Authorization Bill authorizes the storage of POVs for Uniform Service Members' when:

- assigned to an OCONUS permanent change of station where POVs cannot be shipped or where extensive modification of the vehicle would be required; or
- when members are transferred in conjunction with a contingency operation for more than 30 days and the movement is not a permanent change of station.

**NOTE: The local transportation office should refer to the Storing Your POV Pamphlet for information purposes and customer counseling.**

### **RETIREES**

Retirees may have to pay extremely high taxes when shipping their POV overseas (home of record, i.e., Philippines). **Contact your local transportation office for further details.**

### **POV PROCESSING CENTER INFORMATION**

The remainder of this pamphlet provides information unique to each vehicle processing center (VPC). Consult your local transportation office to determine the proper VPC from which to ship your POV. **NOTE:** Hours of operation for each VPC are listed in the applicable section and are strictly adhered to. VPCs are not open on weekends or holidays. Please plan your trip accordingly.

While every effort is made to provide up-to-date information on the POV program, it is important that you consult with your local transportation office for any recent changes. We welcome written recommendations to correct or improve this pamphlet. Address your comments to:

Military Surface Deployment and Distribution Command  
ATTN: SDPP-PA
